Please Help Protect Cypress Island

- Protect natural features by not touching or removing plants, animals, or historic artifacts.
- Hiking only; stay on marked trails. Respect closures and private property.
- Pets must be leashed and are not allowed on Cypress Lake or Eagle Cliff Trails.
- Observe wildlife without interrupting their activities.

In The Campgrounds

- No reservations. Expect crowds. Plan ahead for alternative destinations.
- Camp only at Pelican Beach,Cypress Head, or Strawberry Island.
- Use designated campsites. Campsite resources are limited; share with others.
- Prevent wildfires. Build your fire only in the provided steel fireplaces. No campfires permitted on Strawberry Island.
- Secure food supplies; protect wildlife from human food sources.
- Bring wood, or collect loose sticks and downed branches. Leave dead trees as habitat.
- No potable water. Please bring your own.
- Pack it in. Pack it out. Leave no trace of your visit.
- Limit your stay to 7 days.
- Group size is limited to 6 people on Strawberry Island and 12 people at Pelican Beach and Cypress Head.

Note To Map Users:

Extreme care was used during the compilation of this map to ensure accuracy. However, due to changes in ownership and the need to rely on outside information, the Department of Natural Resources cannot accept responsibility for errors or omissions. Therefore, there are no warranties to accompany this material.

Map produced in 2009 by Washington State Department of Natural Resources, Engineering Division, Resource Mapping Cartography. Map information was compiled from DNR Geographic Information System, Northwest Region and other governmental sources. Latitude and logitude coordinates are based on North American Datum 1983 and obtained from ground survey with resource grade GPS units.

WASHINGTON STATE DEPARTMENT OF
Natural Resources
Peter Goldmark - Commissioner of Public Lands

Natural Resources Conservation Areas

Natural Resources Conservation Areas are lands identified as having high priority for the conservation of natural systems, wildlife, and recreational values; prime natural features of the Washington landscape, inland or coastal wetlands, significant shores, estuaries, aquatic sites, or important geological features; examples of native ecological communities and evironmentally significant sites threatened with conversion to incompatible or ecologically irreversable uses.

Natural Area Preserves

Natural Area Preserves provide for the protection of natural lands, together with the plants and animals living there in natural ecological systems, which are valuable for the purpose of scientific research and teaching, as habitats of rare and vanishing species, as places of natural, historic, and natural interest and scenic beauty, and as living museums of the original heritage of the state.

Recreation

Three camping areas totaling 15 acres are managed for primitive camping. Approximately 20 miles of trails & converted roads are open for hiking. Bicycles, pack animals, and all motorized and non-motorized vehicles are not allowed.

Recreation Area	Campsites	Toilets	Drinking Water	Mooring Bouys
Pelican Beach	3* 7 total	yes*	none	6
Eagle Harbor	0	yes	none	13
Cyrpess Head	9	yes	none	4
