**Forest Practices Assistant
Division Manager, Operations**

Topics Review

Reported to the FP Board August, 2016

- Advance Notification
- Field Compliance
- Website and other Information
- FPA and Reporting

Work Since August

Review of information on FPAs

- Principal focus of October meeting

Forest Practices Aerial Spray Application

Agreement on clarifying portions of the aerial chemical FPA.

- Question 4
 - Adding Unit Number(s)
- Question 6
 - Adding Unit Number, Active Ingredient, Acres treated

*Further discussion: Site Preparation and Conifer Release

4. Complete the following property description:

Unit Number	¼ ¼ (quarter quarter)	Section	Township	Range	East/West	County

6. No. *Yes. Are you spraying more than 240 contiguous acres? **If Yes, include a SEPA Checklist.*

7. No. Yes. Will you be spraying within 100 feet of agricultural land?

8. No. Yes. Will you be spraying within 200 feet of a residence?

9. No. Yes. Will you be spraying within 100 feet of surface water?

10. Chemical Information - Show all buffers on your Activity Map**

Unit #	Acres Sprayed	*Active Ingredient	*List EPA Numbers by Active Ingredient	Conifer Release	Site Preparation

**Most active ingredients are sold under multiple brand names. Each brand has a different number. One brand of each active ingredient is generally used at a time and brands may be substituted.*

***Additional information may be added on separate pages as needed.*

DNR Recommendations

- FPA clarification
- Post Spray Best Management Practices
- Update Board Manual Section 12
- Update Forest Practices Illustrated

Post Spray Recording BMPs

- FPA number being reported
- EPA number(s) of chemical(s) and the active ingredient, surfactant, etc. which was used
- Date Sprayed
- Amount Sprayed

Board Manual Section 12

BMPs & FP Illustrated

- Remove obsolete information
- Update with new information
 - Technology, if applicable
 - BMPs: FPA information, notification, post spray reporting, etc.
