

# Teaway Community Forest Recreation Plan Recreation Land Suitability

# TEANAWAY COMMUNITY FOREST RECREATION PLAN

## Planning Area Map

## Recreation Land Suitability

*Identify and map areas with long- term limiting factors that affect recreation planning*

Biological Criteria

Soils & Geologic Criteria

Management Criteria

## Overview

- 1) Review management criteria individually
- 2) Suitability matrix
- 3) Composites of information by type

## Terms for Biological Suitability

**Low Suitability** = Areas with long-term limiting factors. These primarily include protected habitats and State priority habitats

**Moderate Suitability** = Areas where less mitigation and potential for impact exists compared to low suitability

# TEANAWAY COMMUNITY FOREST RECREATION PLAN

## Biological Criteria\*

- *Wetlands & wetland buffers*
- *Riparian Areas: streams open waters, buffers*
- *Salmonids and Fish Habitat*
- *Deer and Elk Winter Range*
- *Deer and Elk -- calving/fawning range*
- *Sensitive, Threatened & Endangered Species*
- *High Quality & Rare Plant Communities*
- *Northern Spotted Owl/Northern Goshawk*
- *Gray Wolf (large carnivores)*

*\*These project-scale considerations are not intended to replace site specific project analysis. This list is based on information available to date.*

# TEANAWAY COMMUNITY FOREST RECREATION PLAN

BIOLOGICAL CRITERIA - LONG TERM CONSIDERATIONS					
	Non-Motorized Trails	Motorized Trails	Winter Recreation Non-motorized	Winter Recreation Motorized	Facilities
Wetlands & Wetlands Buffers 120'	Low Suitability-wetlands Moderate suitability-buffers	Low Suitability-wetlands Low suitability-buffers	Low Suitability-wetlands Moderate suitability-buffers	Low Suitability-wetlands Moderate suitability-buffers	Low Suitability-wetlands Low suitability-buffers

Sliver Creek was used during the preparation of this map to make accuracy. However, due to changes in ownership and the need to map on the ground to determine the location of Sliver Creek, Sliver Creek and the Sliver Creek Road are not shown on this map. Therefore, there are no vehicles and occupancy on the road.
