Citizen Stewardship Committee  
Intertidal Biota Monitoring Sites

■ Fidalgo Bay Aquatic Reserve

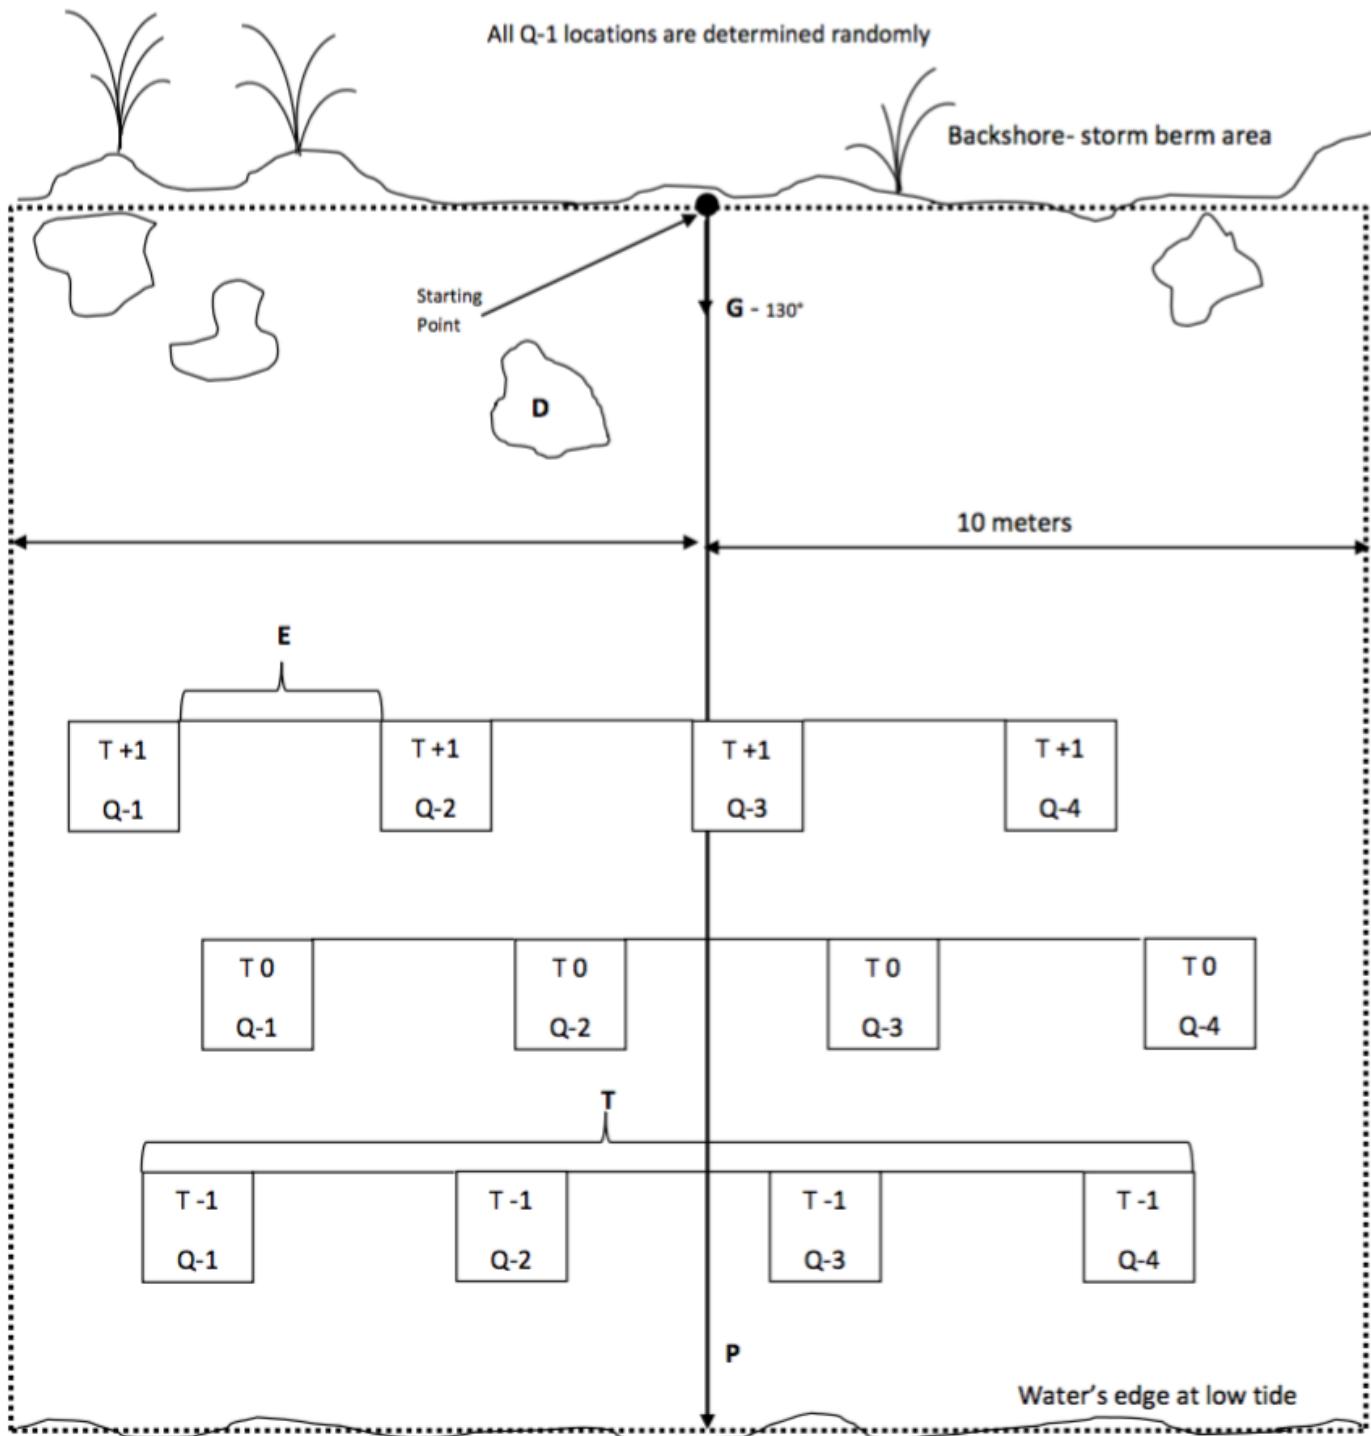

— Watercourse

Created: JMK 9/2016

**Figure 2.** Map of the Fidalgo Bay Aquatic Reserve with the locations of sites surveyed during 2016-2018, including Trestle, Fir, Otter, and Custom Plywood. Map courtesy of Jamie Kilgo of the Washington Department of Natural Resources Aquatic Reserves Program (WA DNR 2018).

### Beach Monitoring Site Layout

**D** Erratic near profile line which could be used as a vertical height reference point.

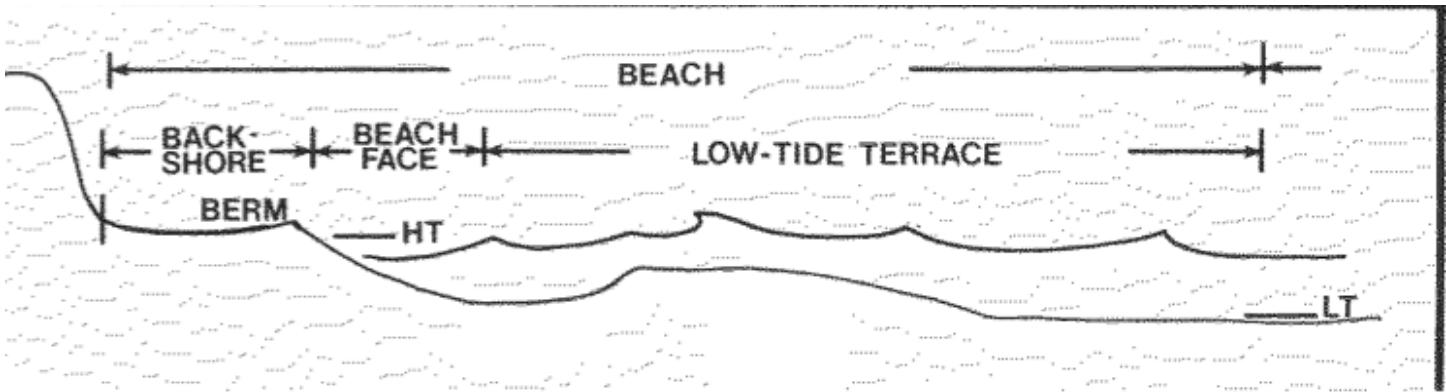

**E** Distance between quadrats. The four quadrats should be equally spaced along the transect line (16.5 feet apart).

**G** Compass heading of profile line towards horizon.

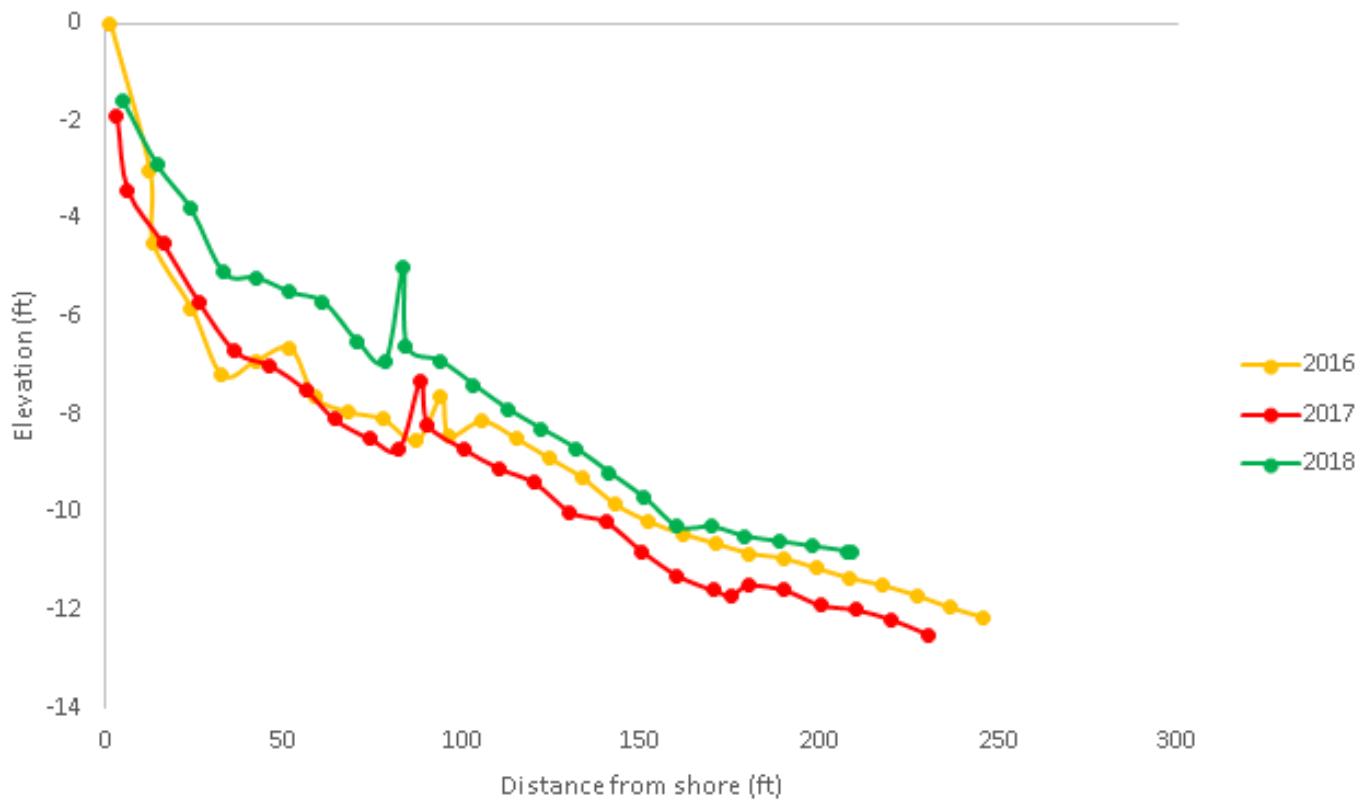

**P** Profile line, defined as line perpendicular to beach face from ordinary high water mark to one foot below mean lower low water or lower.

**T** Transect lines, defined as lines parallel to beach face at the tidal elevations of +1', 0', and -1'.

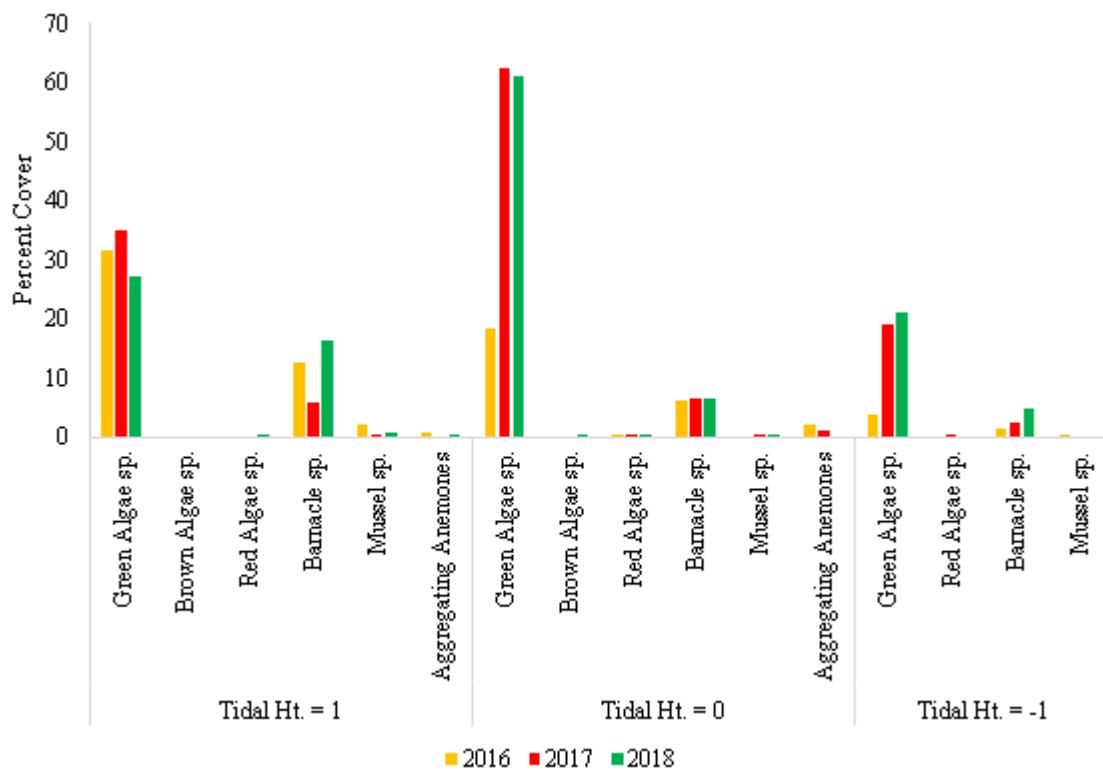

**Figure 3.** Layout of survey sites adapted from Island County/Washington State University Beach Watchers (2003). For the studies in this report, a fourth quadrat was added to each surveyed tidal height.

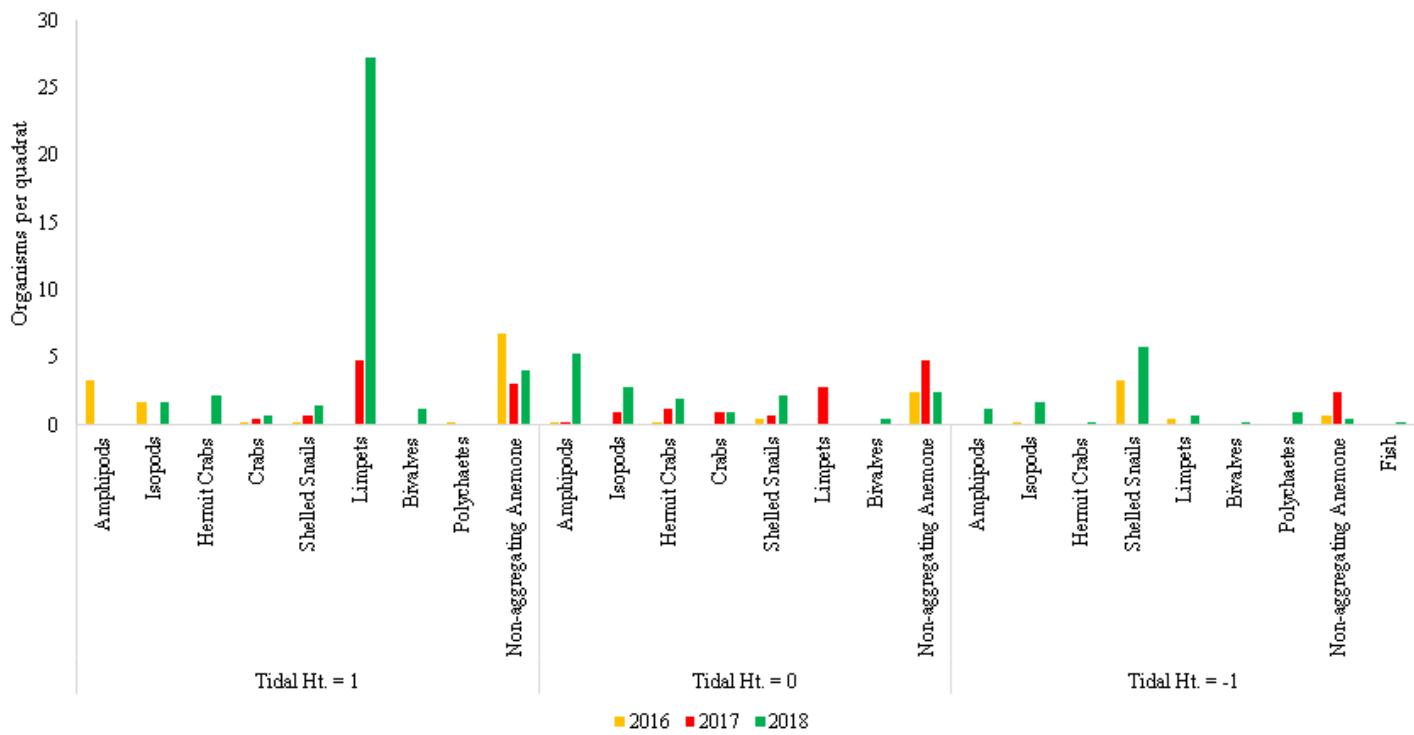

**Figure 4.** Typical beach morphology.

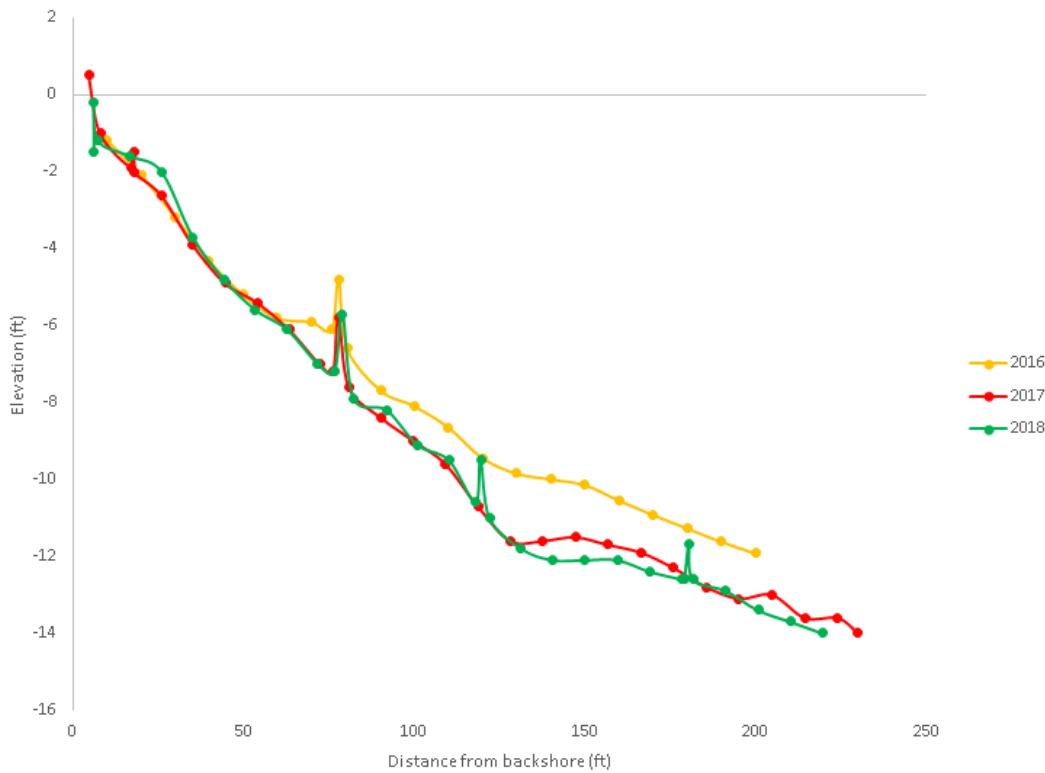

**Figure 5.** Beach elevation profile for Barnacle Rock, Cherry Point Aquatic Reserve from 2016-2018 surveys.

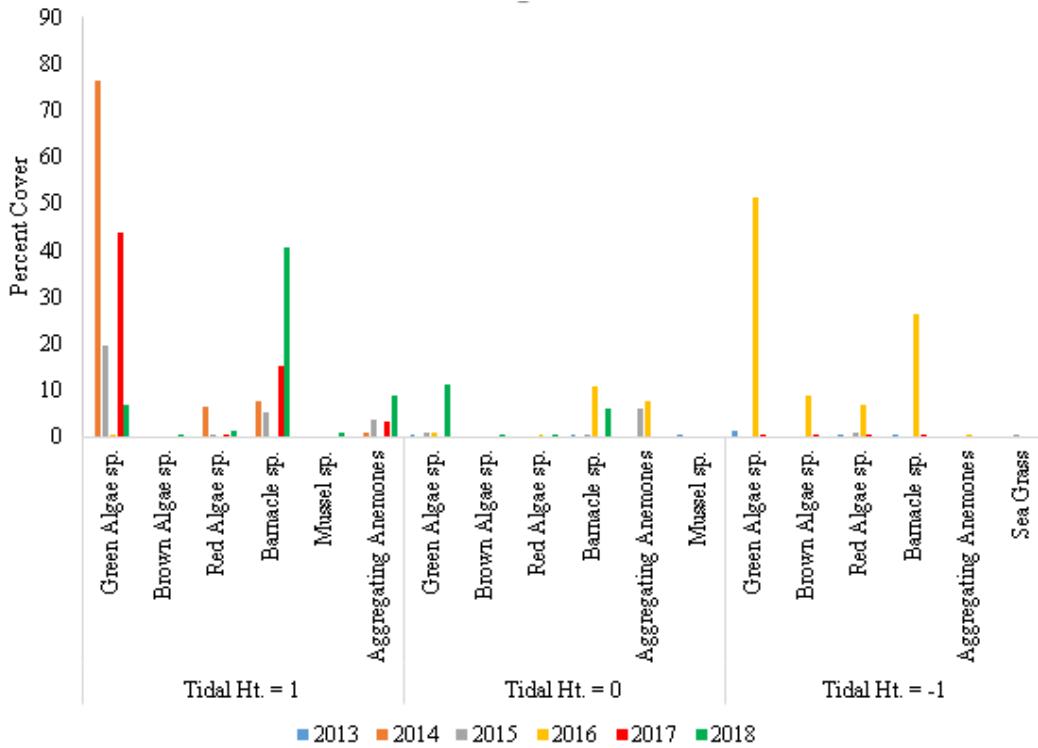

**Figure 6.** Average percent cover of plants and non-individual count animals in quadrats at Barnacle Rock, Cherry Point Aquatic Reserve by tidal height for 2016-2018 surveys.

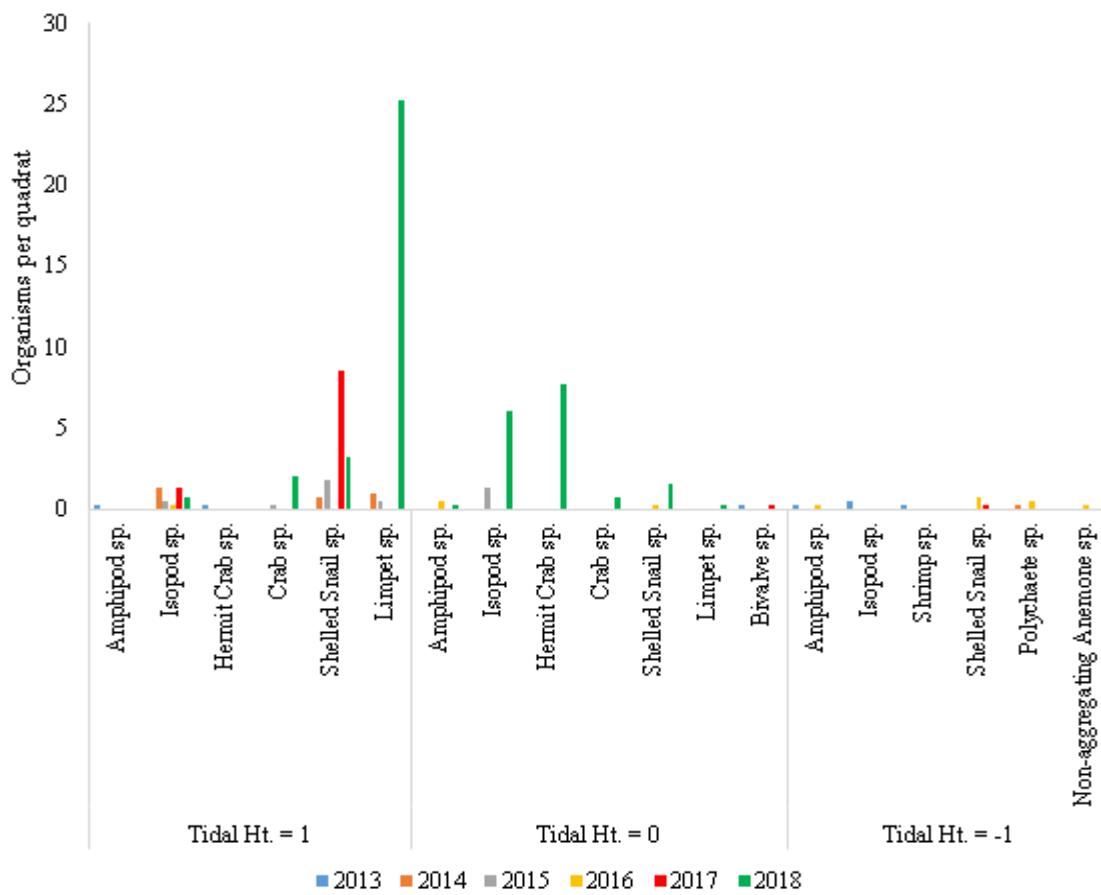

**Figure 7.** Average number of individual organisms in quadrats at Barnacle Rock, Cherry Point Aquatic Reserve by tidal height for 2016-2018 surveys.

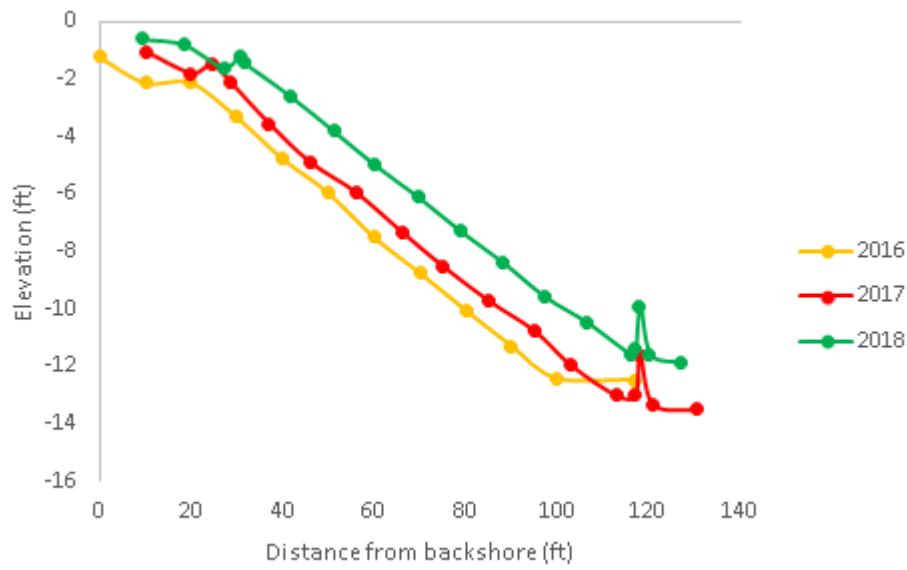

**Figure 8.** Beach elevation profile for Point Whitehorn Marine Park, Cherry Point Aquatic Reserve from 2016-2018 surveys.

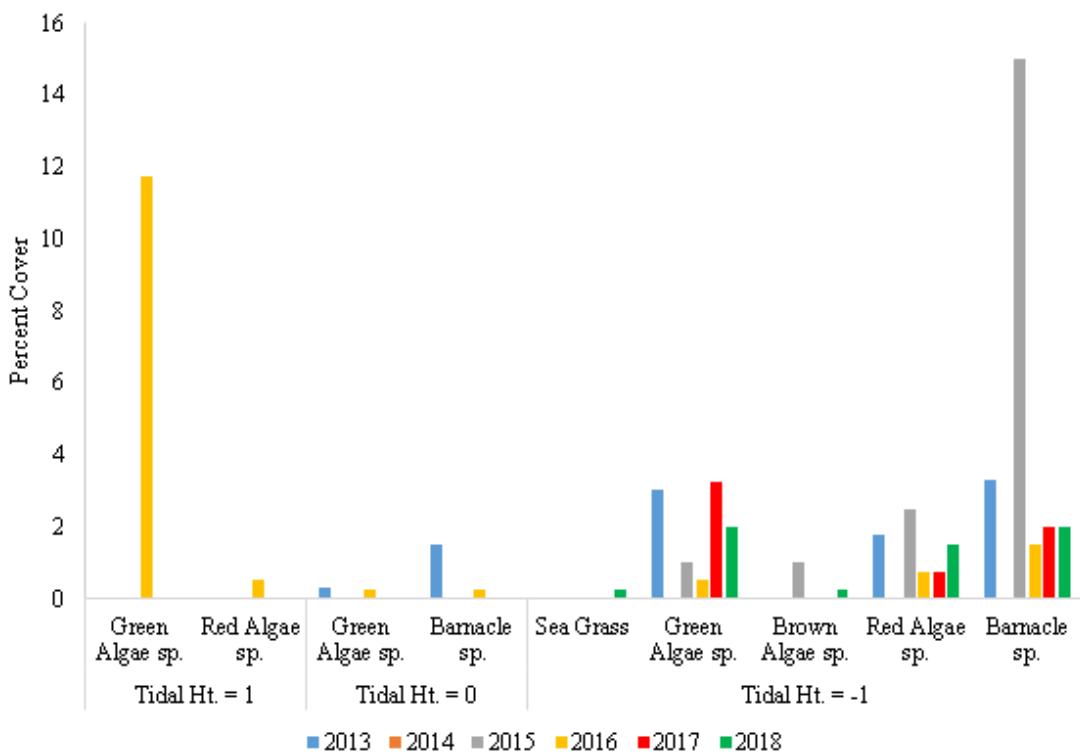

**Figure 9.** Average percent cover of plants and non-individual count organisms in quadrats at Point Whitehorn Marine Park, Cherry Point Aquatic Reserve by tidal height for 2013-2018 surveys.

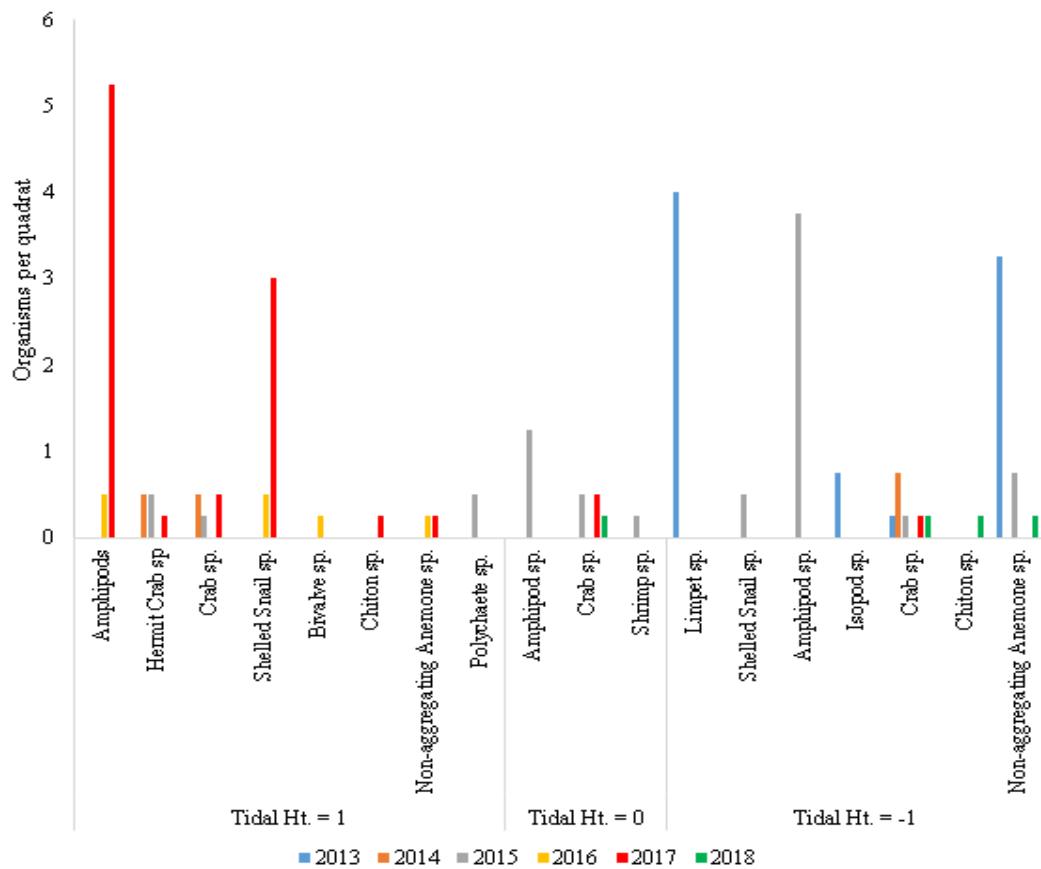

**Figure 10.** Average number of individual organisms in quadrats at Point Whitehorn Marine Park, Cherry Point Aquatic Reserve by tidal height for 2013-2018 surveys.

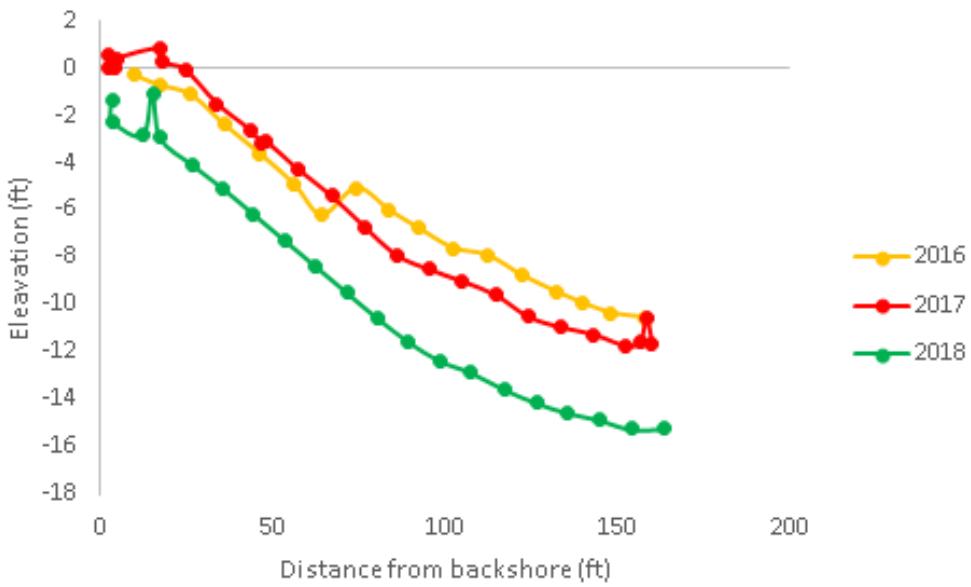

**Figure 11.** Beach elevation profile for Intalco, Cherry Point Aquatic Reserve from 2016-2018 surveys.

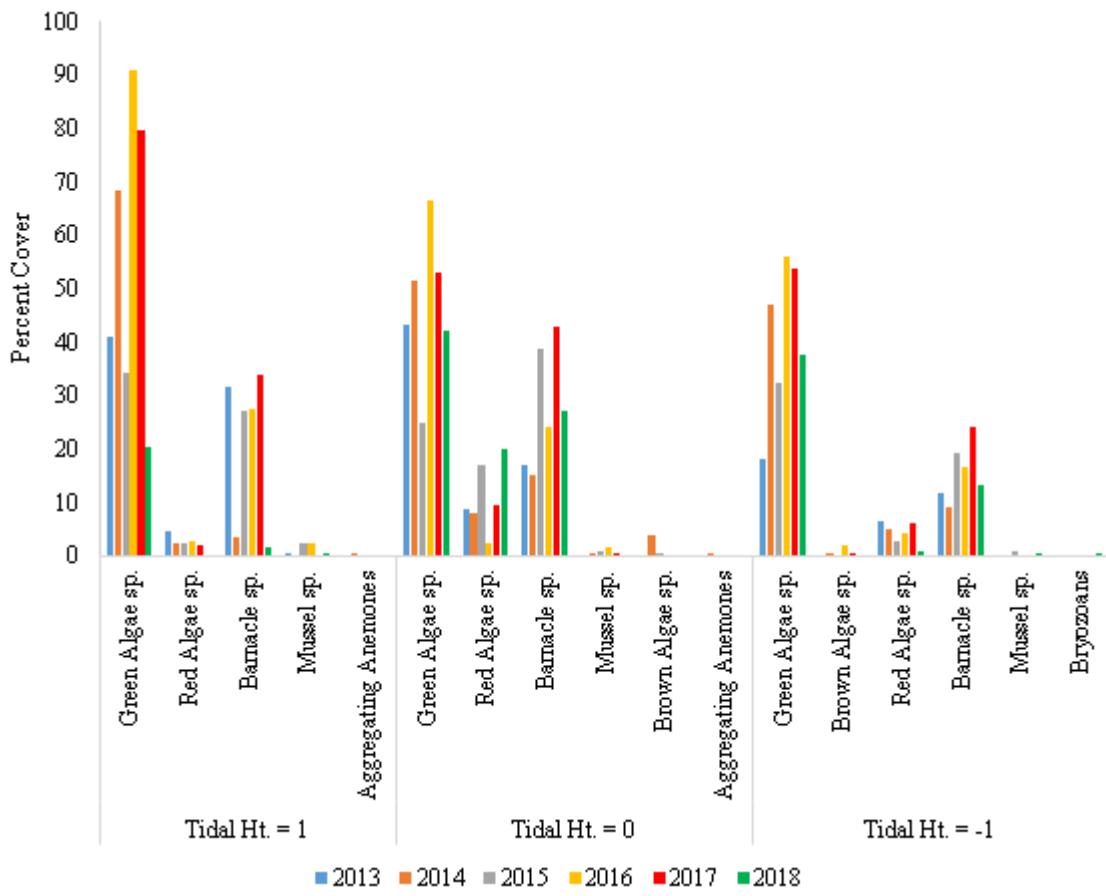

**Figure 12.** Average percent cover of plants and non-individual count organisms in quadrats at Intalco, Cherry Point Aquatic Reserve by tidal height for 2013-2018 surveys.

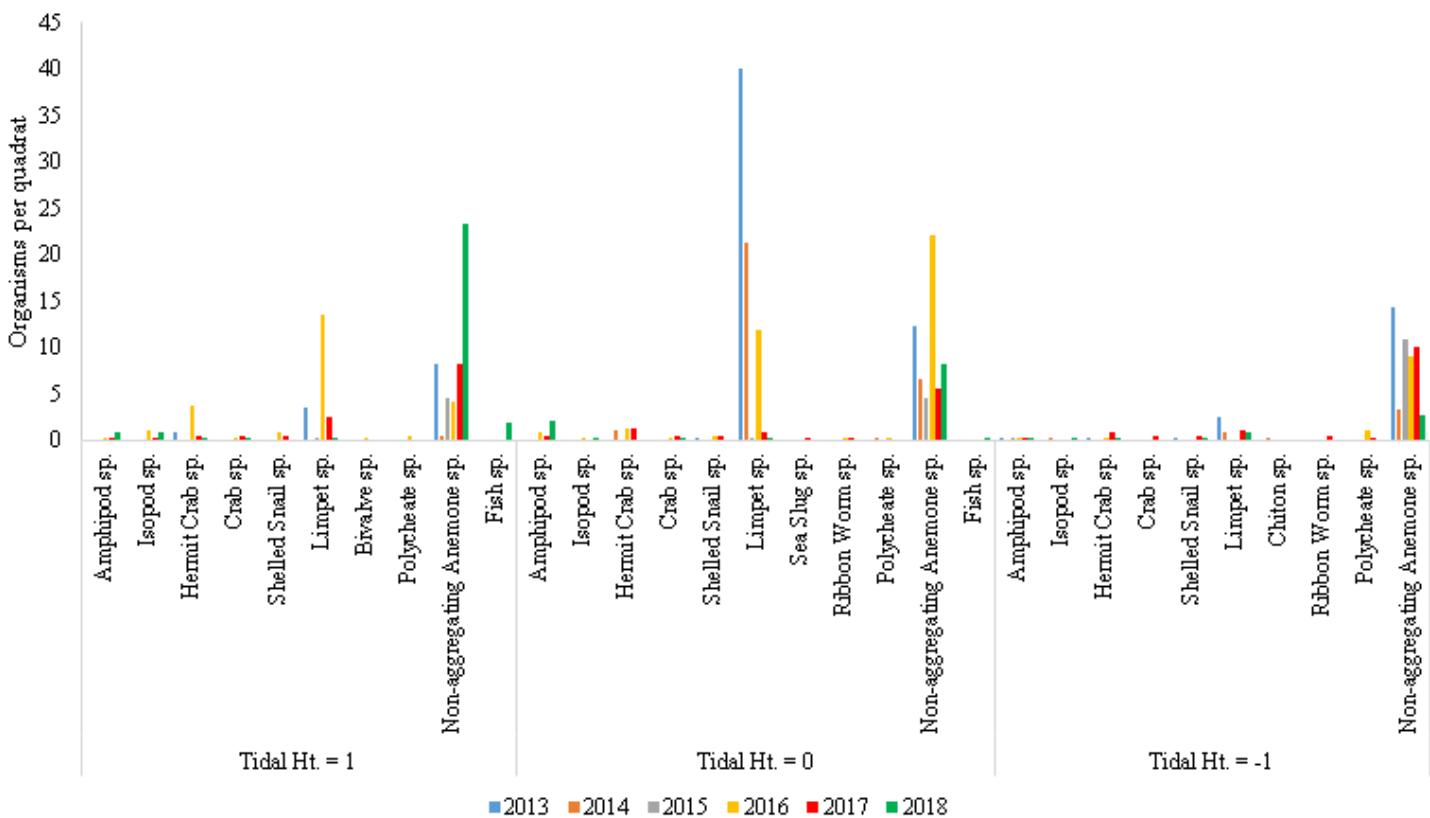

**Figure 13.** Average number of individual organisms in quadrats at Intalco, Cherry Point Aquatic Reserve by tidal height for 2013-2018 surveys.

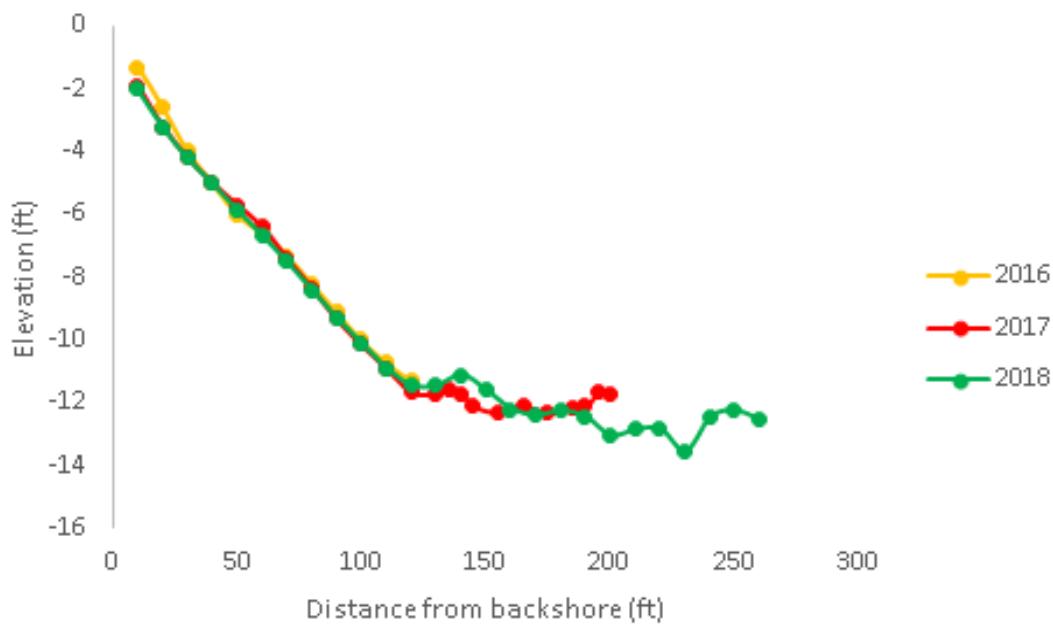

**Figure 14.** Beach elevation profile for Neptune Beach, Cherry Point Aquatic Reserve from 2016-2018 surveys.

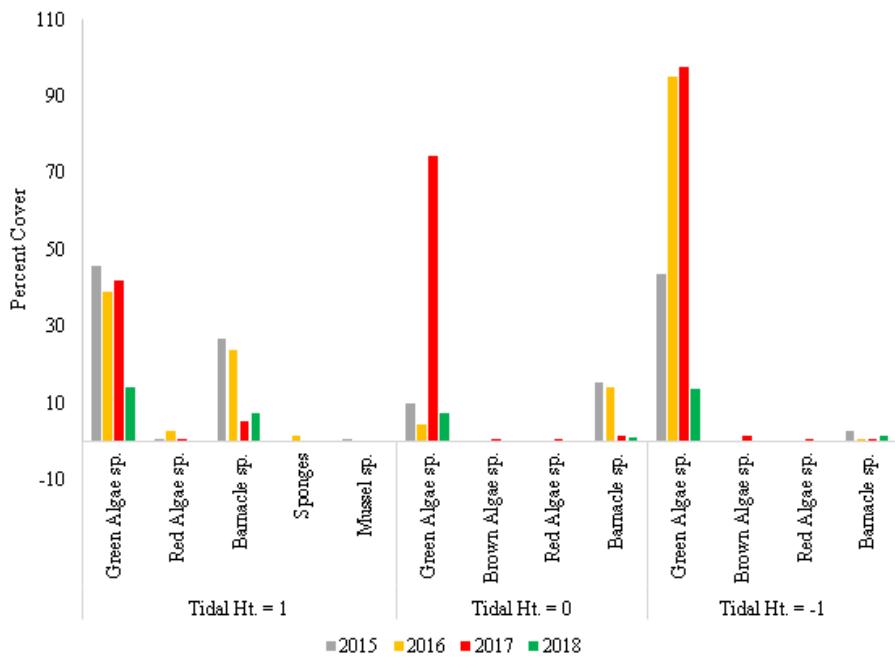

**Figure 15.** Average percent cover of plants and non-individual count organisms in quadrats at Neptune Beach, Cherry Point Aquatic Reserve by tidal height for 2013-2018 surveys.

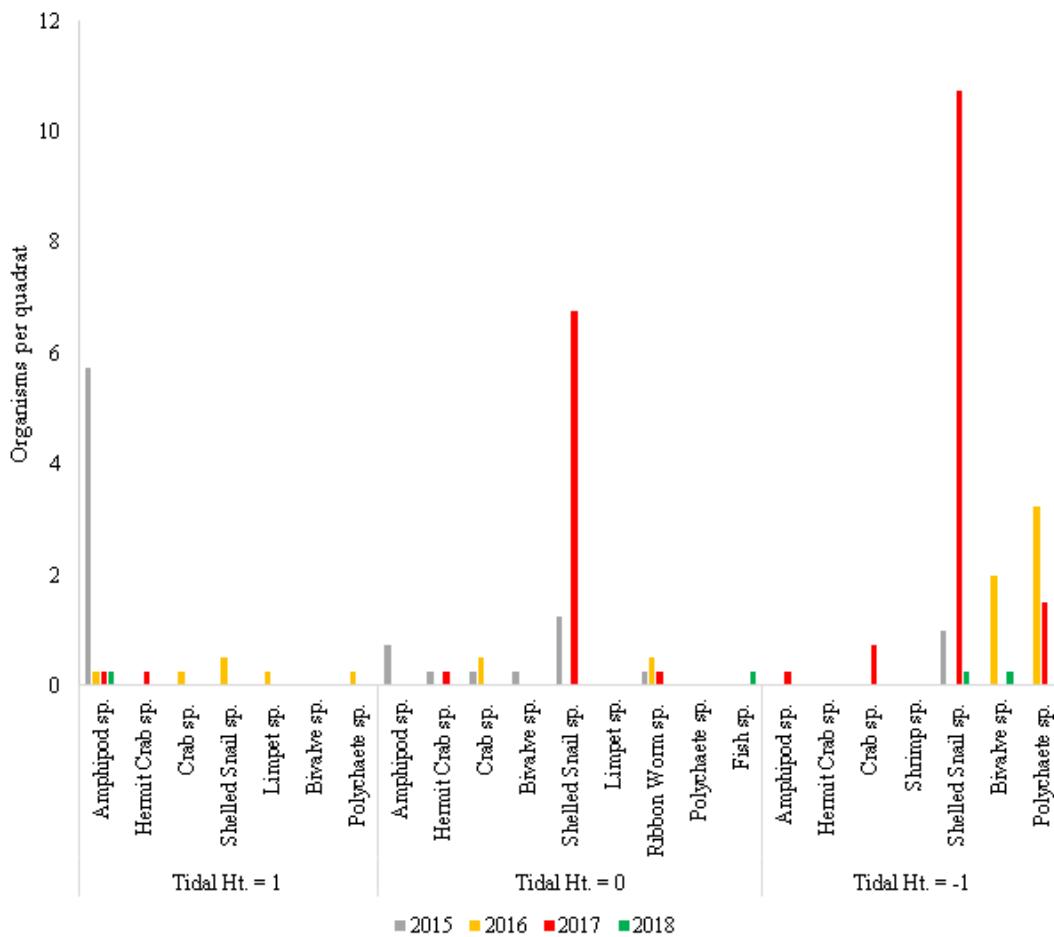

**Figure 16.** Average number of individual organisms in quadrats at Neptune Beach, CPAR by tidal height for 2013-2018 surveys.

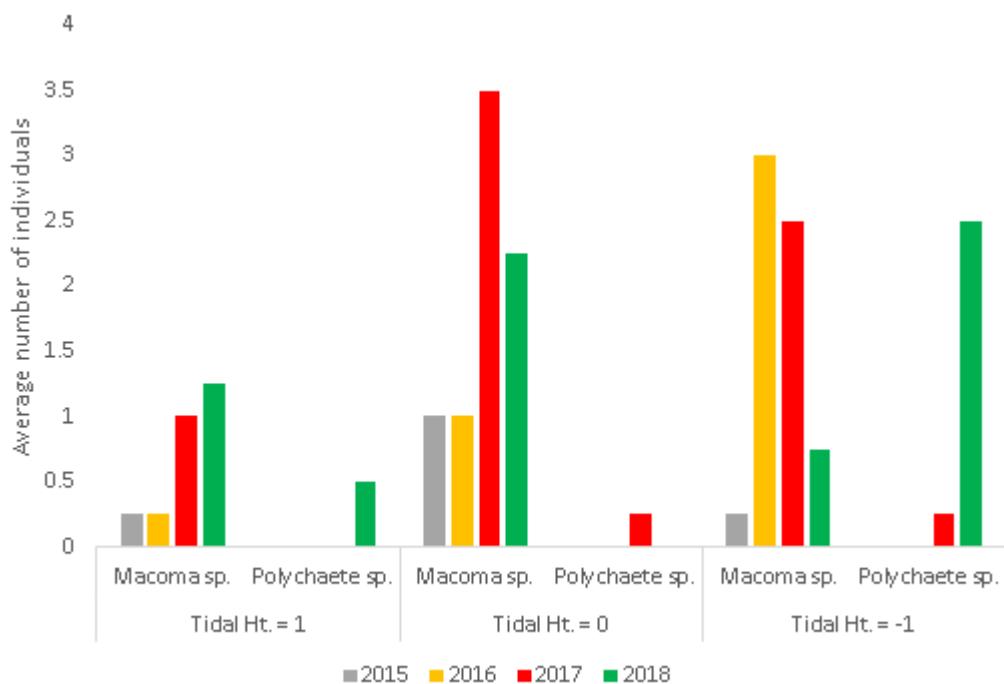

**Figure 17.** Beach elevation profile for Custom Plywood, FBAR from 2016-2018 surveys.

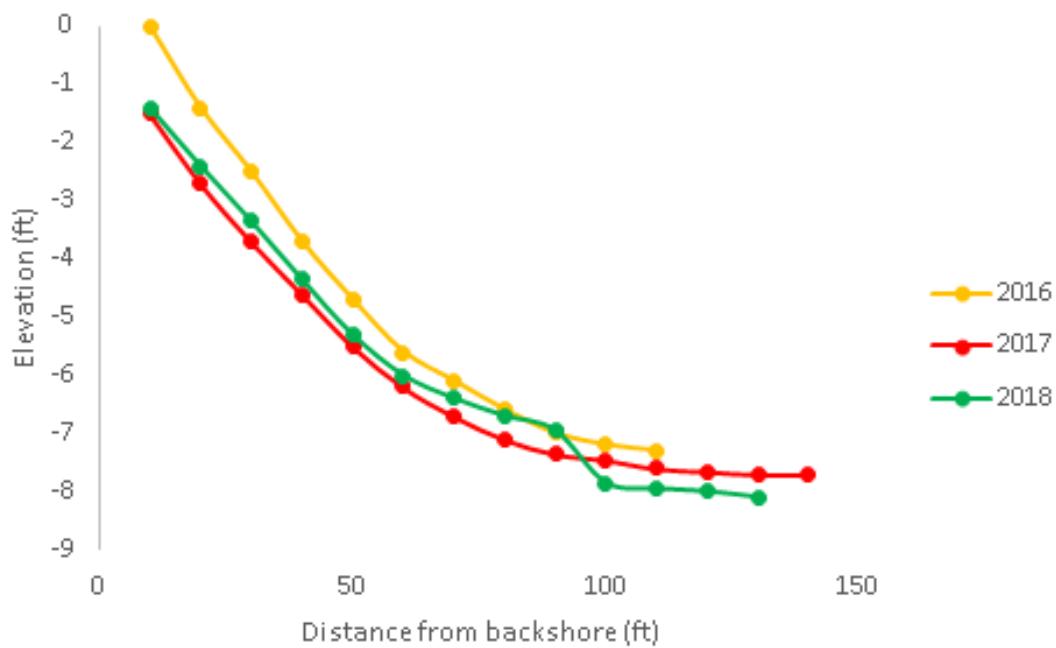

**Figure 18.** Average percent cover of plants and non-individual count organisms in quadrats at Custom Plywood, FBAR by tidal height for 2015-2018 surveys.

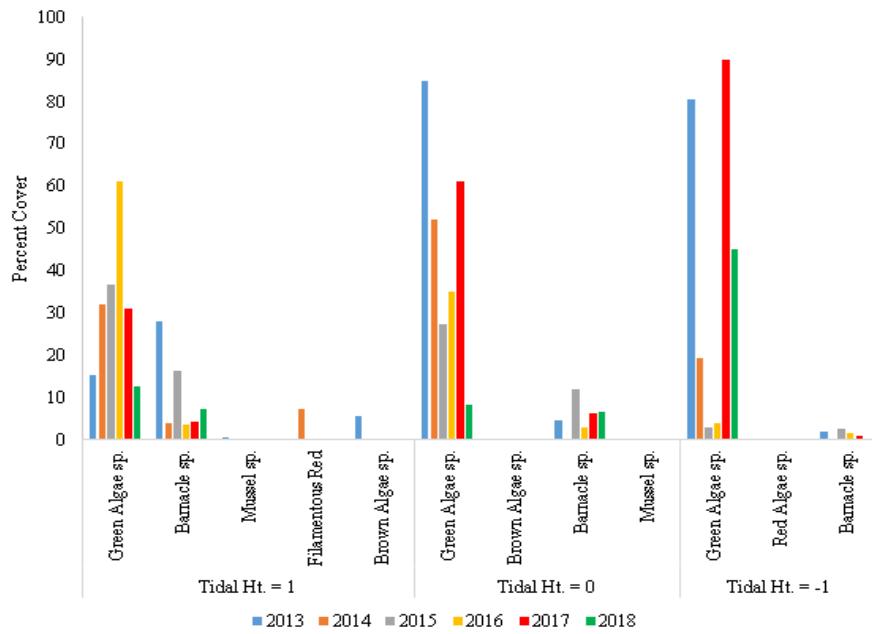

**Figure 19.** Average number of individual organisms in quadrats at Custom Plywood, FBAR by tidal height for 2015-2018 surveys.

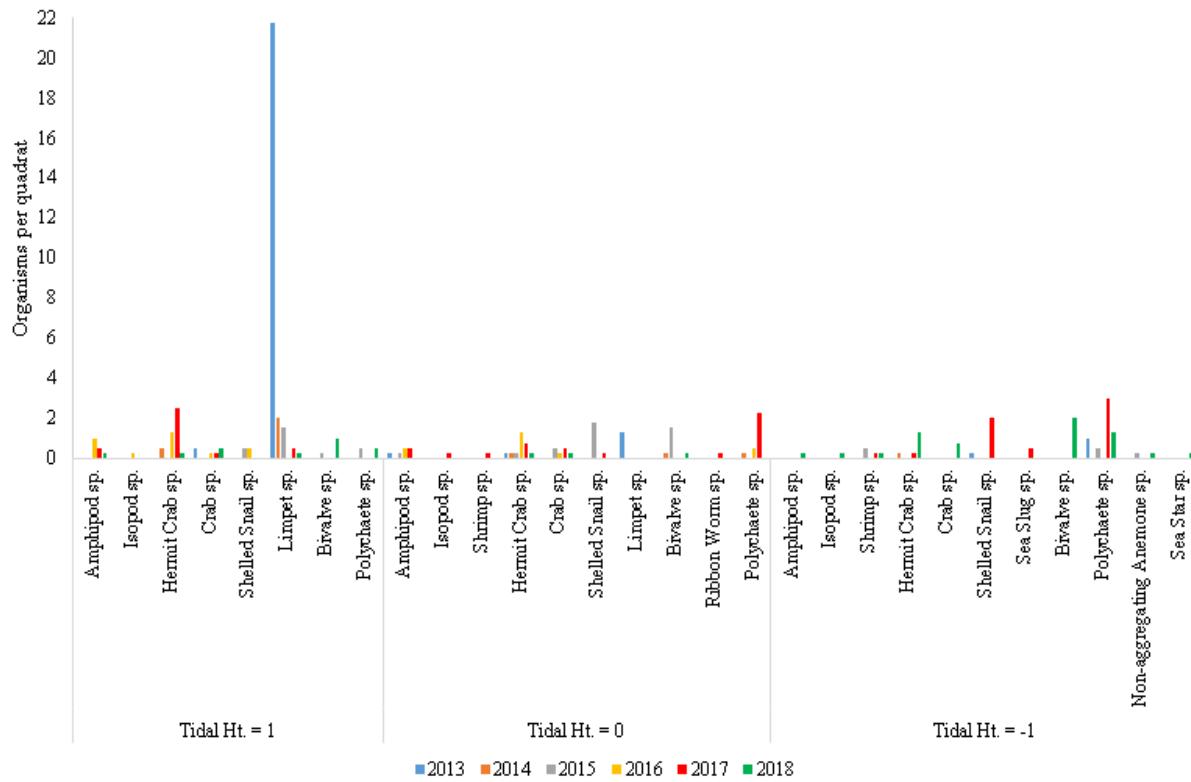

**Figure 20.** Average number of infaunal animals in sediment cores at Custom Plywood, FBAR by tidal height for 2015-2018 surveys for most prevalent species.

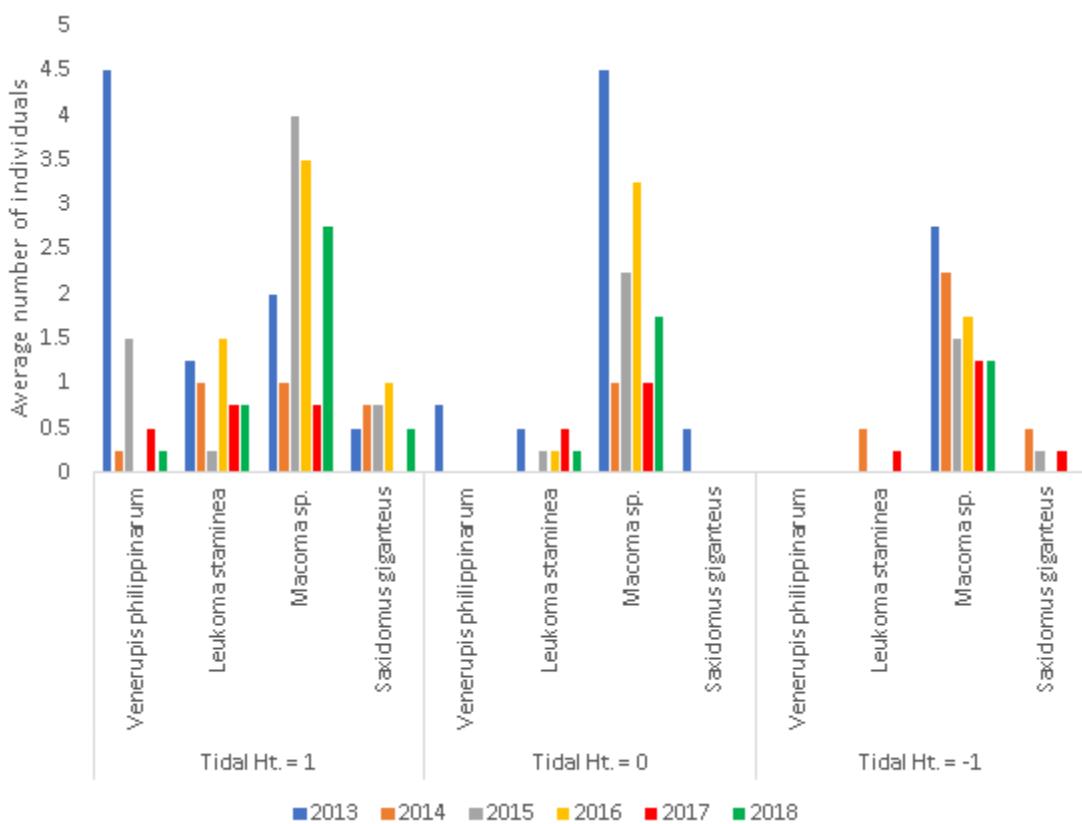

**Figure 21.** Beach elevation profile for Otter, FBAR from 2016-2018 surveys.

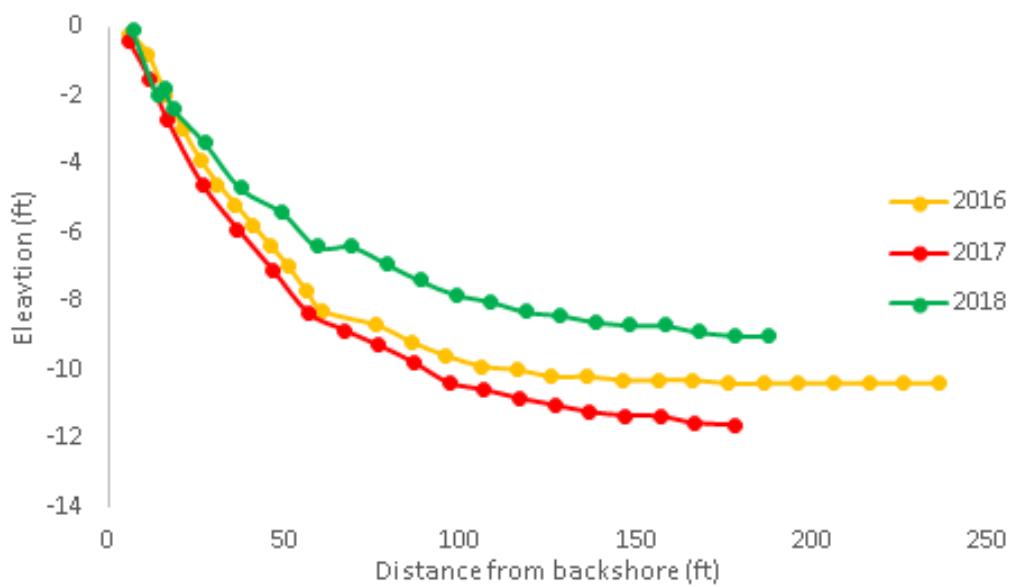

**Figure 22.** Average percent cover of plants and non-individual count animals in quadrats at Otter, FBAR by tidal height for 2013-2018 surveys.

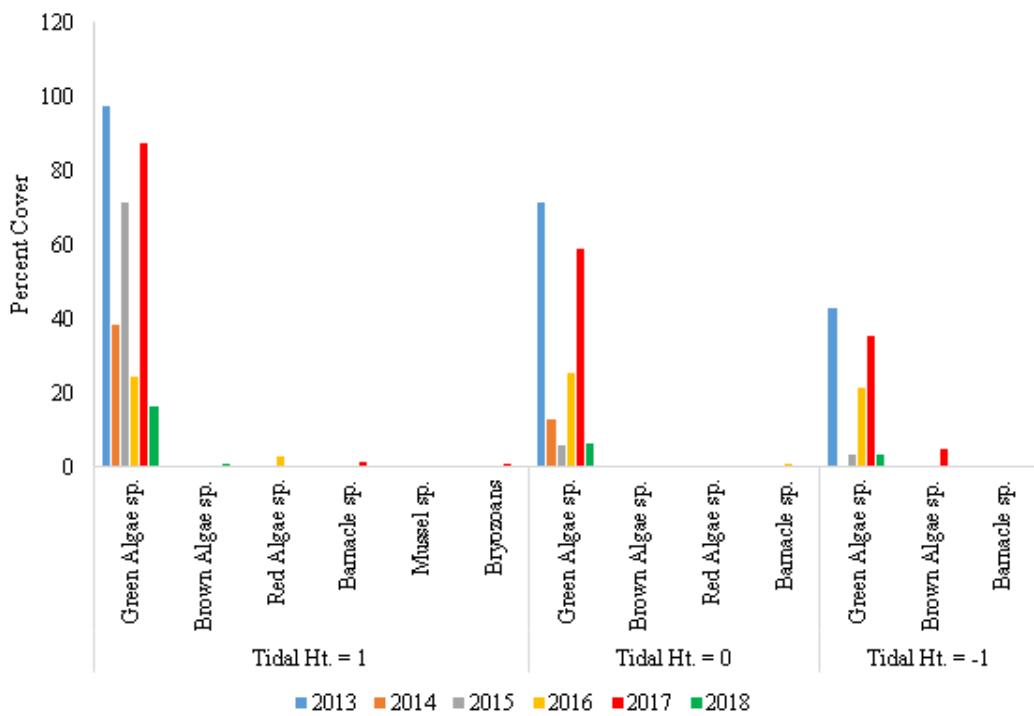

**Figure 23.** Average number of individual animals in quadrats at Otter, FBAR by tidal height for 2013-2018 surveys.

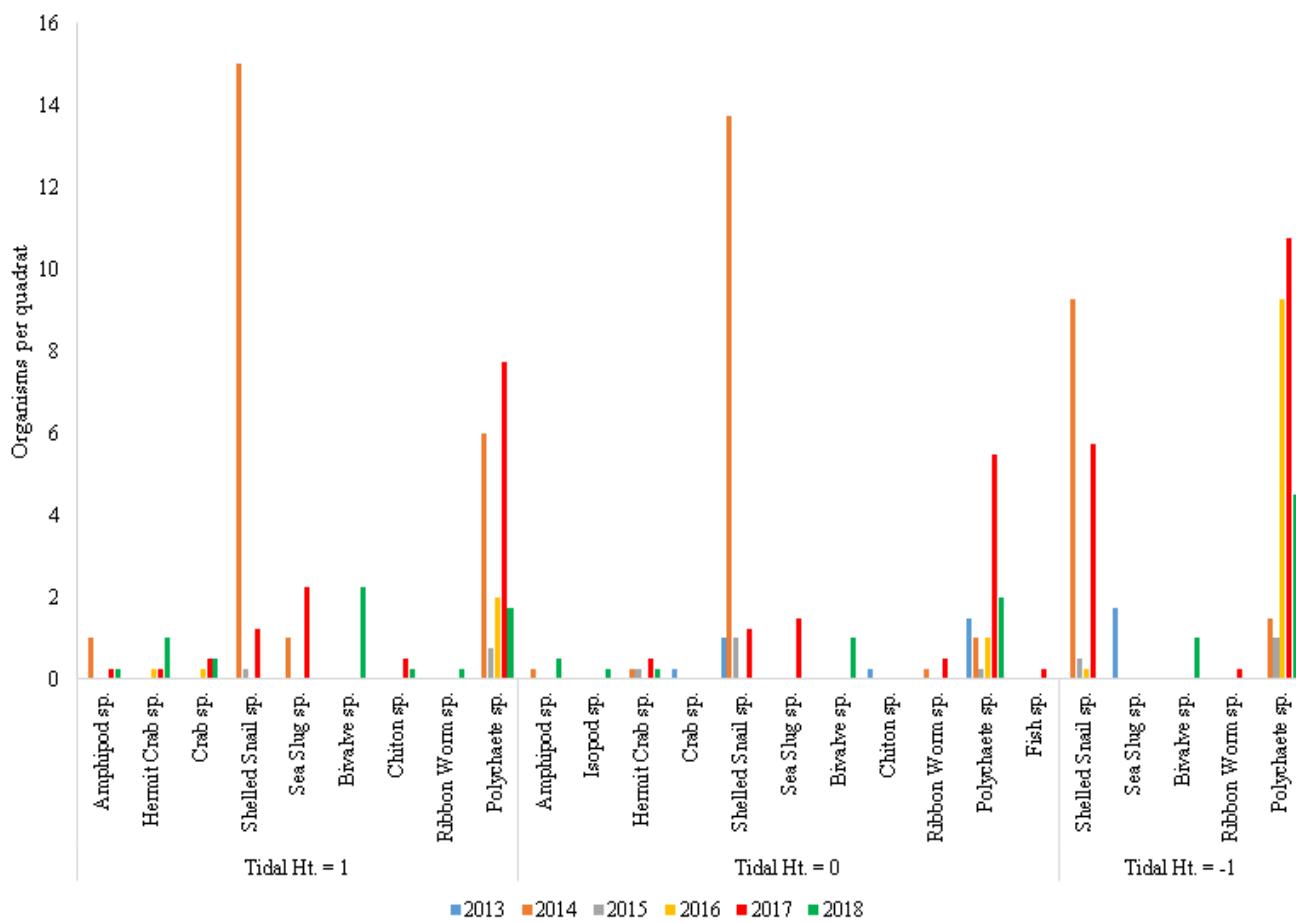

**Figure 24.** Average number of infaunal animals in sediment cores at Otter, FBAR by tidal height for 2013-2018 surveys for most prevalent species.

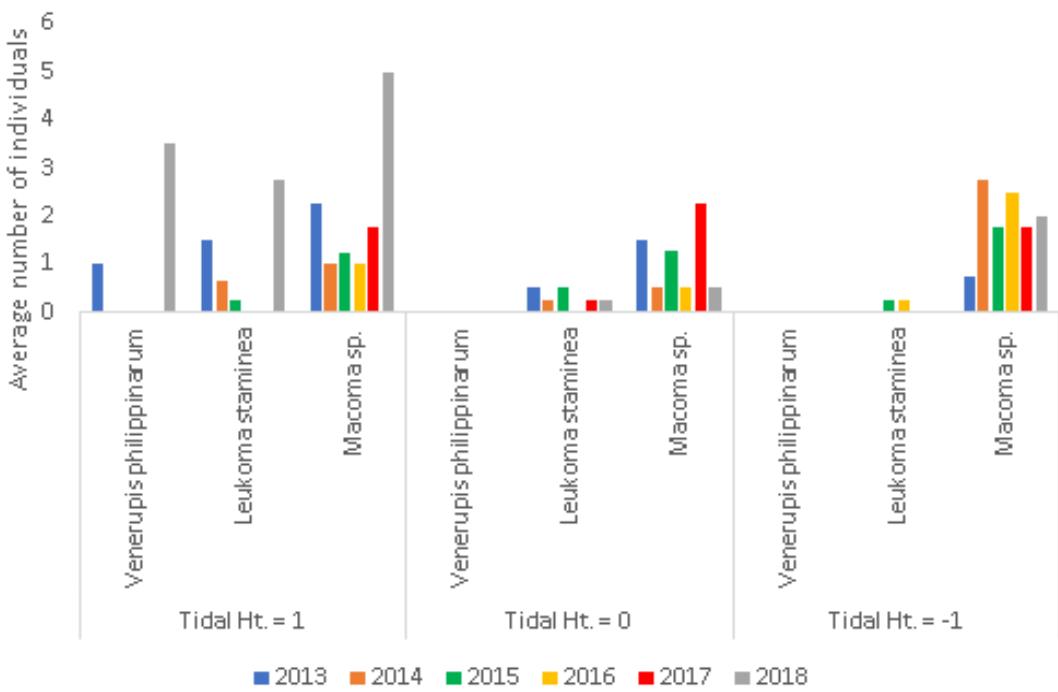

**Figure 25.** Beach elevation profile for Fir, FBAR from 2016-2018 surveys.

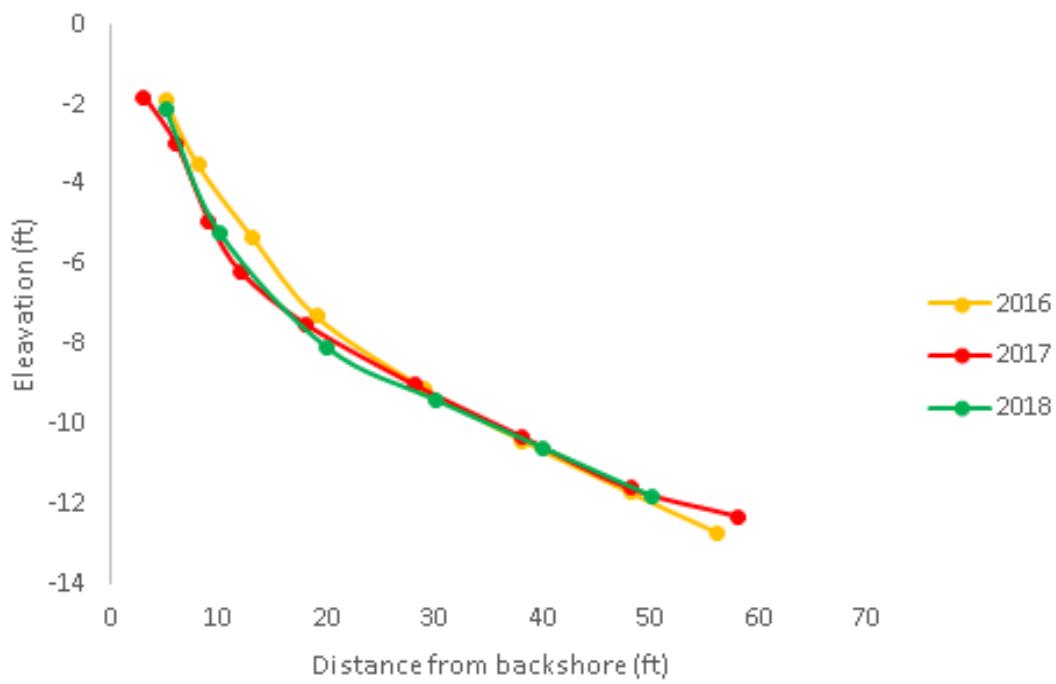

**Figure 26.** Average percent cover of plants and non-individual count animals in quadrats at Fir, FBAR by tidal height for 2013-2018 surveys.

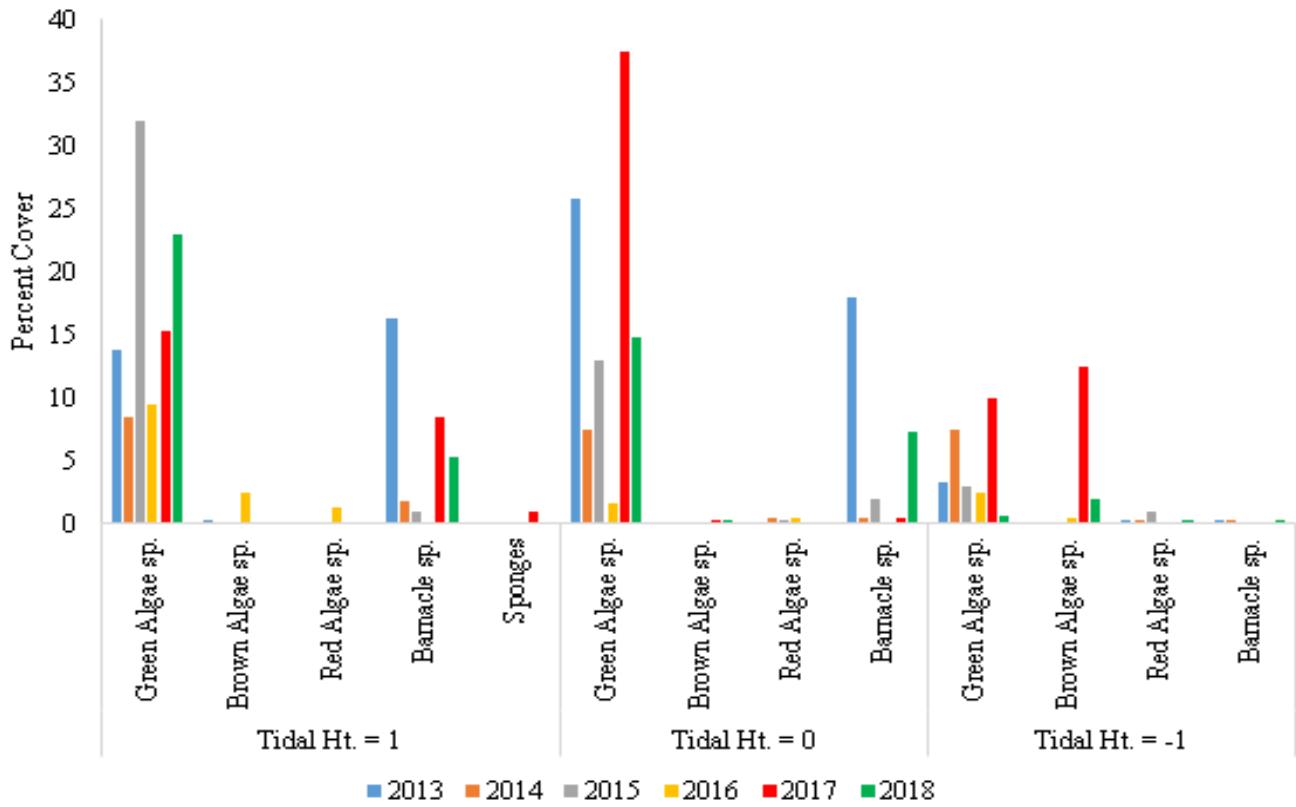

**Figure 27.** Average number of individual animals in quadrats at Fir, FBAR by tidal height for 2013-2018 surveys.

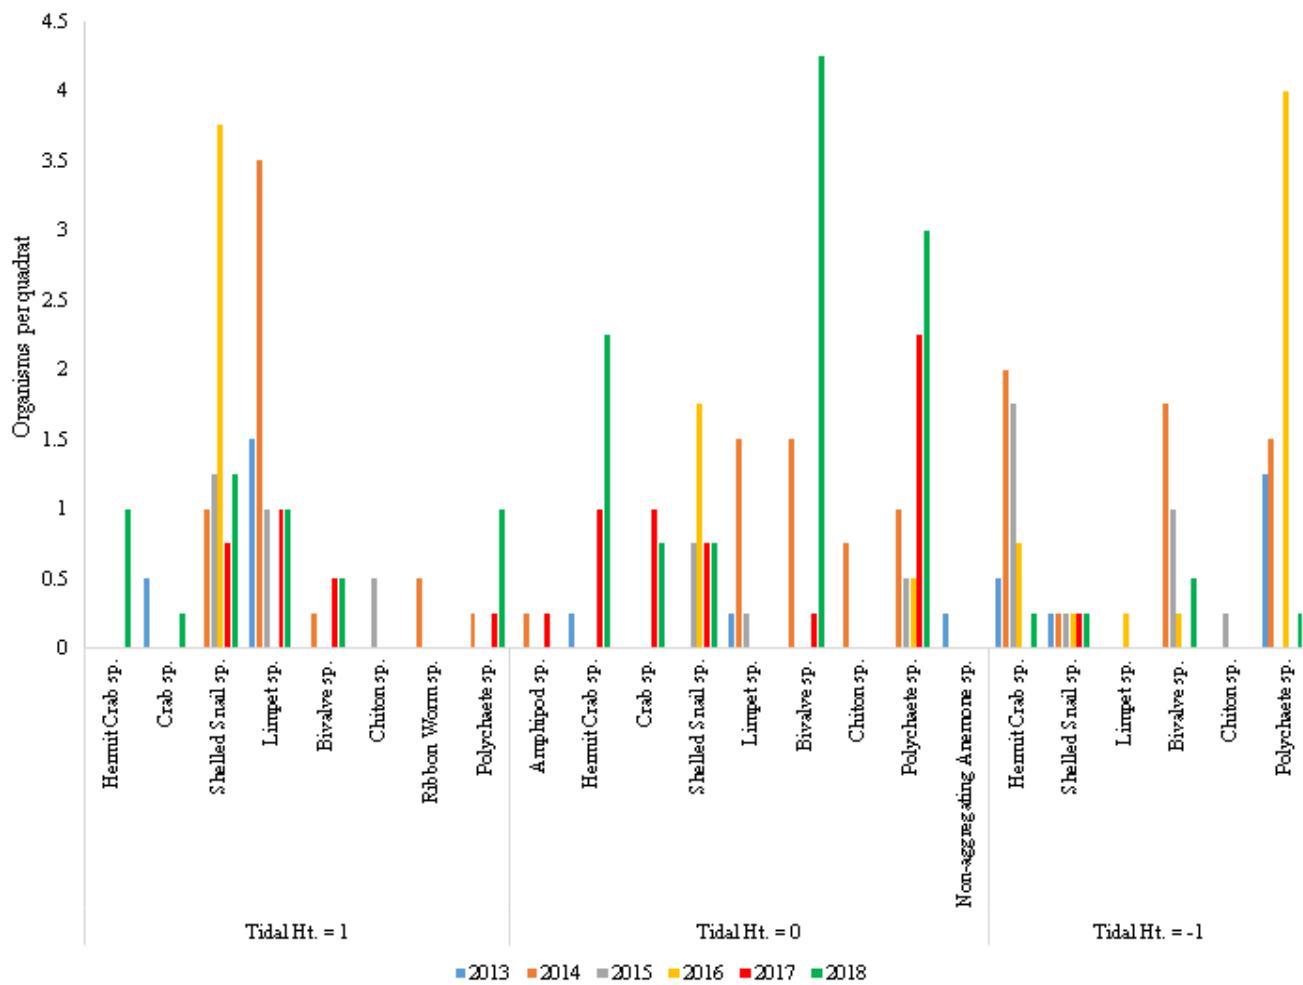

**Figure 28.** Average number of infaunal animals in sediment cores at Fir, FBAR by tidal height for 2013-2018 surveys for most prevalent species.

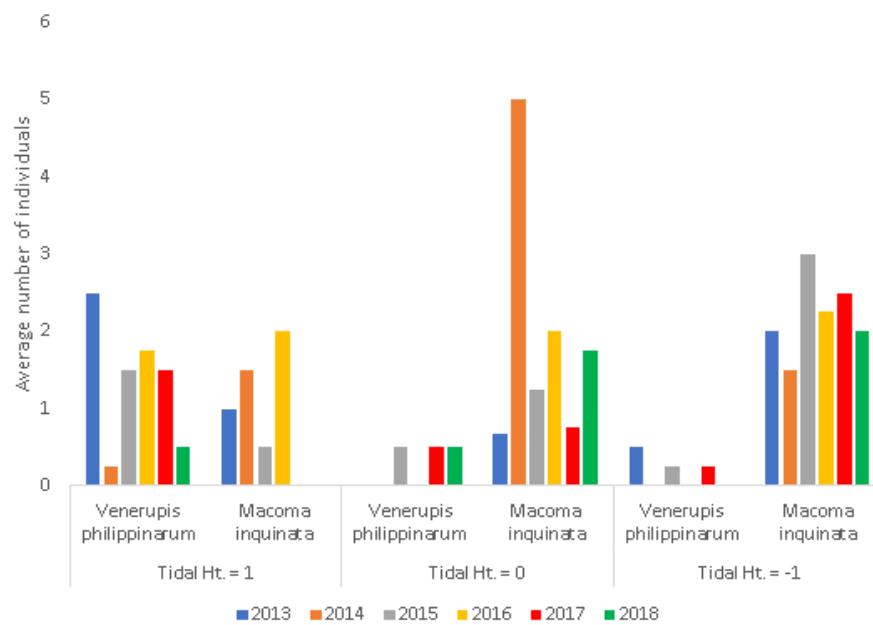

**Figure 29.** Beach elevation profile for Trestle, FBAR from 2016-2018 surveys.

**Figure 30.** Average percent cover of plants and non-individual count animals in quadrats at Trestle, FBAR by tidal height for 2013-2018 surveys.

**Figure 31.** Average number of individual animals in quadrats at Trestle, FBAR by tidal height for 2013-2018 surveys.

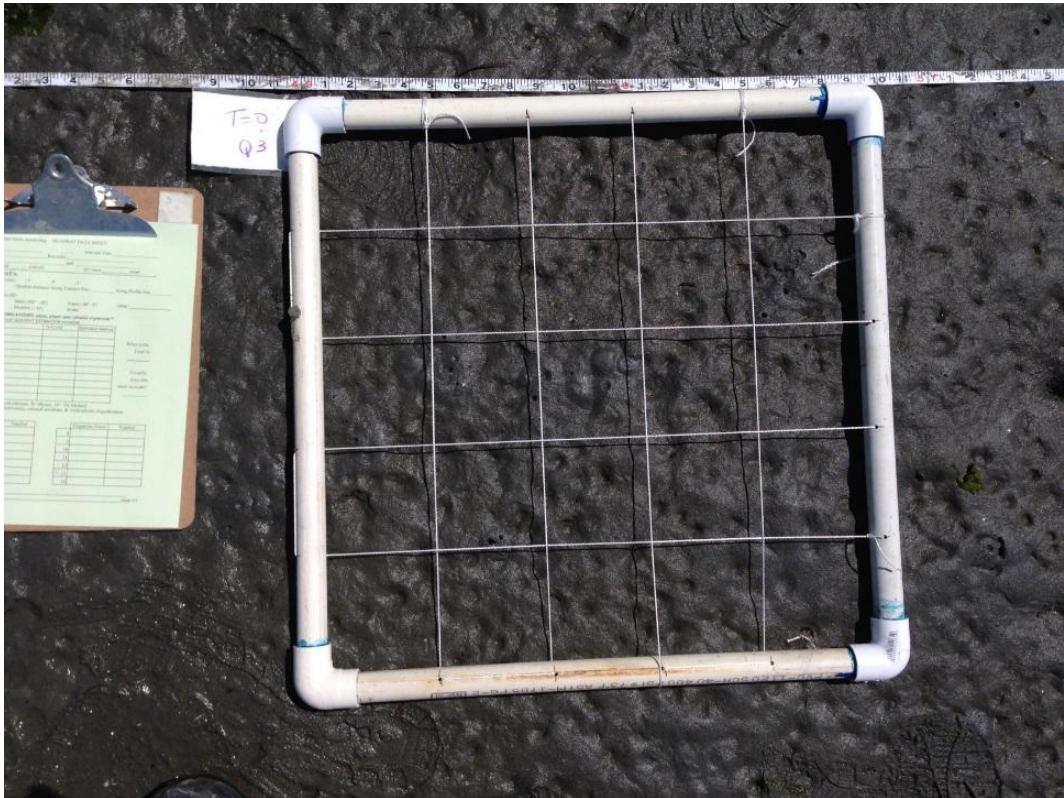

**Figure 32.** Average number of infaunal animals in sediment cores at Trestle, FBAR by tidal height for 2013-2018 surveys for most prevalent species.

## Appendix B: Report Tables

**Table 1.** Survey site locations and compass bearings for orienting start locations for each profile at the high tide line.

Aquatic Reserve	Site	Latitude (N)	Longitude (W)	Years Monitored
CPAR	Birch Bay	48.89830	122.77841	2013-2014
CPAR	Barnacle Rock	48.89487	122.79199	2016-2018
CPAR	Point Whitehorn Point	48.894070	122.793570	2015
CPAR	Point Whitehorn Marine Park	48.87778	122.77838	2013-2018
CPAR	Intalco Beach	48.85062	122.72043	2013-2018
CPAR	Neptune Beach	48.82030	122.70952	2013-2018
FBAR	Custom Plywood	48.4962	122.60094	2015-2018
FBAR	Otter	48.49208	122.59958	2013-2018
FBAR	Fir	48.48428	122.59298	2013-2018
FBAR	Trestle	48.28.766	122.34.827	2013-2018

## Appendix C: Report Photos

**Photo 1. Birch Bay, CPAR.** Quadrat 3 at 0' tide height from the 2014 survey. Not much biota was counted in 2013 and 2014, so this site was dropped.

**Photo 2. Barnacle Rock, CPAR.** June 13, 2018, volunteers start on quadrat work as soon as the tide gets to +1 ft.

**Photo 3. Point Whitehorn Point, CPAR.** Trained citizen science volunteers help with intertidal monitoring and sea star wasting syndrome surveys in May 2015. This site had too much biota to count, so was only surveyed in 2015.

**Photo 4. Point Whitehorn Marine Park, CPAR.** May 10, 2016 volunteers get to work on quadrats. This survey is conducted alongside with the sea star wasting syndrome survey at this site.

**Photo 5. Intalco, CPAR.** July 21, 2017 volunteers identifying and counting in quadrats alongside Intalco and Petrogas employees who are also interested in the data. This site is adjacent to their pier and property.

**Photo 6. Neptune Beach, CPAR.** July 23, 2017 volunteer lead naturalist conducts species swath with assistant scribe with Phillips 66 pier in the background. Phillips 66 is also interested in this data collected. This survey is conducted alongside with the sea star wasting syndrome surveys at this site.

**Photo 7. Custom Plywood, FBAR.** July 24, 2017 citizen scientist collect data at the previous Custom Plywood Mill site, which had several interim actions, the latest completed in 2013, which included shoreline enhancement. These cleanups occurred under the Puget Sound Initiative as a toxic cleanup site. Both the Washington Department of Ecology and the current landowner are interested in these monitoring results.

**Photo 8. Otter, FBAR.** July 22, 2017 volunteers conduct surveys off the Tommy Thompson Trail by the otter statue, after which the site was named. There are often signs of otter activity seen here.

**Photo 9. Fir, FBAR.** May 16, 2018 Anacortes High School students work alongside citizen science volunteers to finish core samples after finishing quadrats and elevation profiles.

**Photo 10. Trestle, FBAR.** May 28, 2017 volunteers work carefully around lower intertidal mud. If the Tommy Thompson Trail Trestle is removed in the future, this site may need to be changed and could serve as a reference of interest.

## Appendix D: Species Lists

The following are lists of species observed per site in species swaths from 2016-2018.

**Cherry Point Species List (NB = Neptune Beach, I = Intalco, PW = Pt. Whitehorn Marine Park , BR = Barnacle Rock)**

CPAR Site		NB	I	PW	BR
<b>FUNGI: Ascomycota</b>	<b>LICHENS</b>				
<i>Caloplaca</i> sp.	Yellow lichen	x			x
<i>Physicia</i> sp. (lt. gray to pale brown)	Lichen	x			x
<i>Verrucaria</i> sp.	Lichen	x		x	x
<i>Xanthora candelaria</i>	Orange Wall Lichen	x		x	x
<b>PLANTAE:</b>					
<b>Tracheophyta</b>					
<i>Ambrosia chamissonis</i>	Silver bur ragweed		x	x	
<i>Artemisia</i> ("artemesia sp.") sp.	Absinth wormwood			x	
<i>Atriplex patula</i>	Saltbush	x	x	x	
<i>Cakile</i> ( <i>cackile</i> sp.) <i>edentula</i>	American sea-rocket	x	x	x	

<i>Cakile maritima</i>	European sea-rocket		x		
<i>Equisetum</i> sp. (not salt tolerant sp)	Horsetail	x			
<i>Leymus mollis</i>	American dunegrass		x	x	
<i>Zostera japonica</i>	Japanese eelgrass (introd. species)	x			x
<i>Zostera marina</i>	Eelgrass	x		x	x
<b>PLANTAE:</b> <b>Chlorophyta</b>	<b>GREEN ALGAE</b>				
<i>Acrosiphonia</i> sp.	Green rope	x		x	x
<i>Codium fragile</i>	Dead man's fingers			x	
<i>Derbesia</i> sp.? (unlikely habitat)	Sea bottle				x
<i>Ulva intestinalis</i>	Sea lettuce (filamentous)		x	x	x
<i>Ulva lactuca</i>	Sea lettuce (foliose)	x	x	x	x
<i>Ulva linza</i>	Sea lettuce (Flat-tube)	x	x	x	x
<i>Ulva</i> sp.	Sea lettuce	x	x	x	
<b>CHROMISTA:</b> <b>Ochrophyta</b>	<b>BROWN ALGAE</b>				

<i>Alaria marginata</i>	Ribbon kelp				x
<i>Colpomenia</i> sp.	Bulb seaweed		x	x	x
<i>Desmarestia aculeata</i>	Acid kelp		x		
<i>Fucus distichus</i>	Rockweed, "Two-headed Wrack"	x		x	x
<i>Fucus</i> sp.	Rockweed				x
<i>Nereocystis luetkeana</i>	Bull kelp	x	x	x	x
<i>Saccharina latissima</i>	Sugar kelp	x	x	x	x
<i>Saccharina sessilis</i>	Sea cabbage			x	
<i>Sargassum muticum</i>	Japanese wireweed (introd. species)	x	x	x	x
<i>Scytoniphon</i> sp.	Soda straws			x	x
<i>Soranthera ulvoidea</i>	Studded sea balloons	x		x	
<b>PLANTAE:</b>					
<b>Rhodophyta</b>	<b>RED ALGAE</b>				
<i>Bossiella</i> sp.	Calcareous red algae			x	
<i>Callophyllis</i> sp.	Red sea fan			x	
<i>Constantinia subulifera</i>	Cracked saucer			x	

<i>Constantinia</i> sp.	Northern cup and saucer seaweed				
<i>Cryptopleura ruprechtiana</i>	Hidden rib			x	
<i>Cryptosiphonia woodii</i>	Bleached brunette			x	x
<i>Endocladia muricata</i>	Sea moss		x	x	
<i>Farlowia mollis</i>	Farlow's seaweed		x	x	
<i>Gracilariaopsis snoestedtii</i>	Red spaghetti	x		x	
<i>Hildenbrandia</i> sp.	Rusty rock	x	x	x	x
<i>Hymenena</i> sp.	Sea fern fringe			x	
<i>Mastocarpus</i> sp.	Turkish towel or washcloth	x	x	x	x
<i>Mazzaella splendens</i>	Splendid iridescent seaweed	x	x	x	x
<i>Microcladia</i> sp.	Coarse sea lace	x		x	x
<i>Neorhodomela larix</i>	Black pine	x	x	x	
<i>Odonthalia floccosa</i>	Sea brush	x			x
<i>Palmaria</i> sp.	Red ribbon				x
<i>Polysiphonia</i> complex	Filamentous red algae			x	
<i>Porphyra</i> sp.	Nori	x	x	x	x
<i>Prionitis</i> sp.	Bleach weed	x	x	x	x

<i>Ralfsia fungiformis</i>	Sea Fungus	x	x		
Rhodophyta - Filamentous	Filamentous red algae	x	x	x	
<i>Sarcodiotheca gaudichaudii</i>	Succulent seaweed		x	x	
<b>ARTHROPODA:</b> <b>Insecta: Coleoptera</b>	<b>BEETLES</b>				
Coleoptera adult sp.	Beetle	x			
Coleoptera larvae sp.	Beetle larvae	x			
<i>Ocyphus olens</i>	Devil's coach-horse beetle	x			
<b>ARTHROPODA:</b> <b>Insecta: Diptera</b>	<b>FLIES</b>				
Diptera	Flies	x	x	x	x
<b>ARTHROPODA:</b> <b>Insecta:</b> <b>Dermoptera</b>	<b>EARWIGS</b>				
<i>Anisolabis maritima</i>	Marine earwig	x	x	x	
<b>ARTHROPODA:</b> <b>Arachnida</b>	<b>MITES</b>				

<i>Neomolgus littoralis</i>	Red velvet mite	x			x
<b>ARTHROPODA:</b>					
<b>Crustacea</b>	<b>CRUSTACEANS</b>				
Balanomorpha	unidentified acorn barnacle				
<i>Balanus crenatus</i>	Crenate Barnacle	x	x	x	x
<i>Balanus glandula</i>	Acorn Barnacle	x	x	x	x
<i>Chthalamus dalli</i>	Little brown barnacle	x	x	x	x
<i>Semibalanus cariosus</i>	Haystack Barnacle	x	x	x	x
<i>Gammaridean amphipods</i>	Gammarid amphipod	x	x	x	x
Caprellidae (skeleton shrimp)	Caprella amphipod		x	x	x
<i>Gnorimosphaeroma oregonensis</i>	Pill bug isopod	x		x	x
<i>Pentidotea stenops?</i> (wrong habitat)	Seaweed isopod			x	
<i>Pentidotea wosnesenskii</i>	Rockweed isopod	x	x	x	
<i>Heptacarpus</i> sp.	shrimp	x		x	x
<i>Cancer magister</i>	Dungeness crab	x			x
<i>Cancer productus</i>	Red rock crab	x	x	x	x

Decapoda: unknown family	juvenile crab	x			
<i>Hemigrapsus nudus</i>	Purple shore crab	x	x	x	x
<i>Hemigrapsus oregonensis</i>	Yellow shore crab	x	x	x	x
<i>Lophopanopeus bellus</i>	Black-clawed crestleg crab		x	x	
<i>Oregonia gracilis</i>	Graceful Decorator crab	x		x	x
<i>Pagurus beringanus</i>	Bering hermit			x	x
<i>Pagurus granosimanus</i>	Grainyhand hermit	x	x	x	x
<i>Pagurus hirsutiusculus</i>	Hairy hermit	x		x	x
<i>Pagurus</i> sp.	unidentified hermit crab	x	x	x	x
<i>Petrolisthes eriomerus</i>	Porcelain crab			x	x
Pinnotheridae sp.	Pea Crab	x			
<i>Pugettia gracilis</i>	Graceful kelp crab		x		
<i>Pugettia producta</i>	Northern kelp crab	x		x	x
<i>Telmessus cheiragonus</i>	Helmut crab			x	x
<b>MOLLUSCA:</b> <b>Bivalvia</b>	<b>BIVALVES</b>				
<i>Clinocardium nuttallii</i>	Heart cockle			x	

<i>Crassostrea gigas</i>	Pacific oyster	x	x		
<i>Hiatella arctica</i>	Arctic Hiatella				x
<i>Leukoma staminea</i>	Pacific littleneck			x	x
<i>Macoma balthica</i>	Baltic clam			x	
<i>Macoma inquinata</i>	Pointed macoma		x	x	x
<i>Macoma nasuta</i>	Bent-nose macoma			x	
<i>Mytilus trossulus</i>	Pacific blue mussel	x	x	x	x
<i>Pododesmus macrochisma</i>	Alaska jingle	x	x	x	x
<i>Saxidomus gigantea</i>	Washington butter clam	x			x
<i>Tresus capax</i>	Fat gaper			x	x
<i>Venerupis philippinarum</i>	Japanese littleneck			x	
<b>MOLLUSCA: Gastropoda</b>	<b>GASTROPODS</b>				
<i>Alia carinata</i>	Carinate dovesnail	x		x	x
<i>Calliostoma ligatum</i>	Blue topsnail			x	
<i>Lacuna vincta</i>	Northern lacuna	x	x	x	x
<i>Lacuna</i> sp.	Lacuna		x	x	

<i>Lacuna</i> sp. eggs	Lacuna eggs	x	x	x
<i>Lirabuccinum dirum</i>	Dire whelk		x	x
<i>Littorina scutulata</i>	Checkered Periwinkle	x	x	x
<i>Littorina sitkana</i>	Sitka periwinkle	x		x
<i>Lottia digitalis</i>	Ribbed limpet	x	x	x
<i>Lottia pelta</i>	Shield limpet	x	x	x
<i>Lottia pelta</i> (formerly <i>alveus</i> )	Eelgrass limpet		x	x
<i>Lottia persona</i>	Mask limpet	x	x	x
<i>Lottia scutum</i>	Plate limpet	x	x	x
<i>Margarites pupillus</i>	Puppet Margarite	x	x	x
<i>Nucella lamellosa</i>	Frilled dogwinkle	x	x	x
<i>Nucella lamellosa</i> eggs	Frilled dogwinkle eggs			
<i>Nucella ostrina</i>	Northern "Emarginate dogwinkle"			x
Pyramellidae (e.g. <i>Odostomia</i> )	Pyramidellid			x
<i>Aeolidia papillosa</i> or <i>loui</i>	Shag-rug aeolis nudibranch	x		
<i>Hermissenda</i> <i>crassicornis</i>	Opalescent nudibranch			x
<i>Melibea leonina</i>	Lion's Meliba			x

<i>Doris montereyensis</i> (includes an ID as <i>Peltodoris nobilis</i> which likely wrong)	Noble sea lemon				x
<i>Onchidoris bilamellata</i>	Barnacle-eating onchidoris	x	x	x	x
<i>Onchidoris bilamellata</i> eggs	Onchidoris bilamellata eggs				
Nudibranch eggs	eggs	x	x	x	x
<b>MOLLUSCA:</b> <b>Polyplacophora</b>	<b>CHITONS</b>				
<i>Cryptochiton stelleri</i>	Gumboot Chiton	x		x	
<i>Cyanoplax dentiens</i>	Gould's Baby Chiton	x			
<i>Mopalia kennerleyi</i>	Northern hairy chiton	x		x	
<i>Mopalia hindsii</i>	Hind's Mopalia			x	
<i>Mopalia lignosa</i>	Woody chiton	x	x	x	x
<i>Mopalia muscosa</i>	Mossy chiton	x	x	x	x
<i>Mopalia vespertina</i>	Smooth chiton	x		x	x
<i>Tonicella lineata</i>	Lined chiton	x		x	x
<i>Tonicella undocaerulea</i>	Blue-line chiton				x

<b>PLATYHELMINTHES</b>	<b>FLATWORMS</b>				
<i>Kaburakia excelsa</i>	Giant flatworm	x			x
Platyhelminthes	unidentified flatworm		x	x	x
<b>NEMERTEA</b>	<b>RIBBON WORMS</b>				
<i>Carinoma mutabilis</i>	Nemertea - white	x	x	x	x
<i>Emplectonema gracile</i>	Green ribbon worm	x			x
<i>Paranemertes peregrina</i>	Purple ribbon worm	x		x	x
<i>Tubulanus polymorphus</i>	Nemertea - orange			x	x
<b>ANNELIDA:</b> <b>Oligochaeta</b>	<b>OLIGOCHAETE SEGMENTED WORMS</b>				
Oligochaeta	Oligochaete	x		x	x
<b>ANNELIDA:</b> <b>Polychaeta</b>	<b>POLYCHAETE SEGMENTED WORMS</b>				
Glyceridae	Bloodworm	x		x	
Hesionidae	Princess-of-Troy worms	x	x	x	x
Lumbrinereidae	polychaete				

Nereidae	Pile worm	x		x	x
Polychaeta	Polychaete	x		x	x
Polynoidae	Scale worms	x			x
Sabellidae	Sabellid tube worm	x			x
Terebellidae	Terebellid tube worm	x			x
<b>BRYOZOA</b>	<b>BRYOZOA</b>				
Bugula sp.	erect bryozoan	x		x	x
Membranipora sp.	encrusting bryozoan	x			x
<b>PORIFERA</b>	<b>SPONGES</b>				
<i>Clathria pennata</i>	Red sponge	x			x
<i>Haliclona</i> sp.	Brown encrusted sponge	x			
<i>Halichondria bowerbanki</i>	Dead Man's Finger sponge	x		x	x
<b>CNIDARIA:</b>					
<b>Anthozoa</b>	<b>ANEMONES</b>				
<i>Anthopleura artemisia</i>	Moonglow anemone	x	x	x	x

<i>Anthopleura elegantissima</i>	Aggregating anemone	x	x	x	x
<i>Metridium senile</i>	Short plumose anemone	x	x	x	x
<i>Urticina coriacea</i>	Stubby rose anemone	x		x	x
<i>Urticina crassicornis</i> or <i>grebelnyi</i>	Red and Green anemone	x	x	x	x
<b>ECHINODERMATA: Holothuroidea</b>	<b>SEA CUCUMBERS</b>				
<i>Cucumaria miniata</i>	Orange sea cucumber	x	x	x	x
<i>Eupentacta quinquesemita</i>	White sea cucumber	x		x	x
<b>ECHINODERMATA: Echinoidea</b>	<b>SEA URCHINS</b>				
<i>Strongylocentrotus drobachiensis</i>	Green sea urchin			x	x
<b>ECHINODERMATA: Asteroidea</b>	<b>SEASTARS</b>				
<i>Evasterias troschelii</i>	Mottled seastar	x		x	x
<i>Henricia</i> sp. (includes <i>H. pumila</i> )	Dwarf mottled henricia				
<i>Henricia leviuscula</i>	Blood star		x	x	x

<i>Leptasterias hexactis</i>	Six-arm seastar	x			x
<i>Pisaster ochraceus</i>	Ochre seastar	x	x	x	x
<i>Pycnopodia helianthoides</i>	Sunflower star			x	x
<b>ECHINODERMATA: Ophiuroidea</b>	<b>BRITTLE STARS</b>				
<i>Amphiodia occidentalis</i>	Long-armed brittle star	x		x	
<i>Amphipholis squamata</i>	Brooding or small brittle star			x	
<b>CHORDATA: Pisces</b>	<b>FISH</b>				
Cottidae	unidentified sculpin			x	x
<i>Gobiesox maeandricus</i>	Northern clingfish	x		x	
Liparidae	Snailfish				
<i>Oligocottus maculosus</i>	Tidepool sculpin	x			
<i>Pholis ornata</i>	Saddleback gunnel			x	x
Pholidae	gunnels/blennies			x	
Pleuronectidae	flatfish - sole			x	x

Fidalgo Bay Species List (T = Trestle, F = Fir, O = Otter, CP = Custom Plywood)

FBAR Site		T	F	O	C P
<b>FUNGI:</b> <b>Ascomycota</b>	<b>LICHENS</b>				
<i>Caloplaca</i> sp.	Yellow lichen	x		x	x
