Rock Creek Campground / Trailhead

ROCK CREEK CAMPGROUND IS CHARACTERIZED AS A QUIET, SMALL SCALE CAMPGROUND AND TRAILHEAD FACILITY CATERING TO EQUESTRIAN TRAIL RIDERS' USE. IT IS DNR'S INTENT TO CONTINUE THIS USE, WHILE INCREASING THE QUALITY OF THE EXPERIENCE OF EQUESTRIAN TRAIL RIDERS BY IMPROVING THE CAPACITY AND QUALITY OF FACILITIES. TO MEET THIS GOAL, FIFTEEN (15) BACK-IN PARKING STALLS AND SEVENTEEN (17) PULL-THROUGH PARKING STALLS ARE PROPOSED ALONG A THIRTY FOOT WIDE (30') TWO-WAY ACCESS AISLE AND A TWENTY FIVE FOOT WIDE (25') ONE-WAY ACCESS ASISE IN THE FIRST PHASE. BACK-IN PARKING STALLS ARE PROGRAMMED TO BE FOURTEEN FEET (14') WIDE BY APPROXIMATELY FIFTY-ONE FEET (51') LONG, WHILE THE PULL-THROUGH SPACES ARE DESIGNED TO BE FOURTEEN FEET (14') WIDE BY SIXTY FEET (60') LONG. FOURTEEN FOOT (14') CRUSHED ROCK TRAILS AT THE BACKSIDE OF THE PARKING STALLS PROVIDE ROOM FOR UNLOADING, HORSE STAGING AND ACCESS TO TRAILS. THE FIRST AND SECOND PHASE OF IMPROVEMENTS CONSIST OF 32 STALLS EACH. A TURNAROUND TERMINATES THE ACCESS AISLE FOR EACH PHASE. A NEW HOLDING TANK STYLE COMFORT STATION IS PROPOSED AT THE MID-POINT BETWEEN THE TWO PARKING AREAS. THE EXISTING CAMPGROUND AREA WILL BE IMPROVED TO ACCOMMODATE FOUR NEW CAMPSITES. EACH EXISTING CAMPSITE WILL BE IMPROVED TO PROVIDE LARGER PARKING AREAS, TENT CAMP CAMPING PADS, FIRE RINGS AND TABLES.
