EXHIBIT B
PLAN OF OPERATIONS AND MAINTENANCE
FOR A MOORING BUOY AND/OR BOATLIFT LICENSE

GENERAL
The buoy and/or boatlift must meet or exceed all applicable federal, state and local regulations. DNR may revoke this license if a buoy or boatlift is not in good working condition or poses a hazard to other vessels, structures, or state-owned aquatic land.

VISIBILITY AND IDENTIFICATION
1. The buoy and/or boatlift must float at least 18 inches above the surface of the water.
2. The buoy and/or boatlift must be marked with the DNR license authorization number. The numbers must be at least 3 inches tall and visible from 20 feet.

BOUY AND BOATLIFT DESIGN
1. Mooring buoys must use embedded anchors and midline floats to prevent dragging of anchors or lines. Permanent boat anchorage systems must be deployed in a manner that prevents dragging of the vessel or line.
2. Midline floats must be used on anchor lines and must be located at a distance from the anchor equal to 1/3 the maximum water depth at extreme high tide.
3. Mooring buoys and boatlifts used for boat moorage must be anchored where the water will be deeper than 7 feet (2 meters) at the lowest low water.

ANCHOR DESIGN
1. The anchor must be sufficient to hold the vessel in all weather.
2. The Licensee bears responsibility to ensure that the anchor does not move.
3. If the anchor moves offsite, DNR may terminate this license and require removal of the buoy, boatlift and anchor.
4. DNR prefers anchor systems which minimize impacts to the bottom and does not allow “dampening anchor” systems.

BOATLIFTS
The owner shall inspect boatlifts annually and maintain them in good working condition. The lifts may not be used:
- To house vessels during refueling.
- To wash vessels.
- For vessel maintenance of any kind.
- To store fuels or oils that may enter onto state-owned aquatic lands.

1. Check the type of system used to secure the boatlift. It is attached to a:
   - [ ] Recreational Dock  [ ] Bulkhead  [ ] Buoy Anchor  [ ] Freestanding  [ ] Other
2. The boatlift is made of:
   - [ ] Steel  [ ] Aluminum  [ ] Polyethylene  [ ] Wood  [ ] Other
3. The boatlift will remain in place year round [ ] Yes  [ ] No
4. If no, it will be removed from  to
