Application for Use of State-owned Aquatic Lands

Applicant Name: Cannery Village Marina Owners Association
County: San Juan County
Water Body: Friday Harbor
Type of Authorization - Use: Maintenance Approval – Private Marina
Authorization Number: 20-011895
Term: Thirty-two (32) years

Description: This approval will allow for regular maintenance of Cannery Village Marina Owners Association facility. It is located in Friday Harbor, in San Juan County, Washington.

Maintenance activities will include replacement of all floats. Replacement floats will have the same dimensions as existing floats. Eleven of the existing pilings will be wrapped with fiberglass sleeves.

Date of Notice: January 13, 2012
Part 1—Project Identification

1. Project Name (A name for your project that you create. Examples: Smith's Dock or Seabrook Lane Development) [help]

Cannery Village Marina

Part 2—Applicant

The person or organization responsible for the project. [help]

2a. Name (Last, First, Middle) and Organization (if applicable)

Guy, James Richard of Northwest Docks

2b. Mailing Address (Street or PO Box)

509 30th Street

2c. City, State, Zip

Anacortes, WA 98221

2d. Phone (1) 2e. Phone (2) 2f. Fax 2g. E-mail

(206) 372-4467 ( ) ( ) nwdocks@gmail.com

Part 3—Authorized Agent or Contact

Person authorized to represent the applicant about the project. (Note: Authorized agent(s) must sign 11b. of this application.) [help]

3a. Name (Last, First, Middle) and Organization (if applicable)

Guy, James Richard of Northwest Docks

3b. Mailing Address (Street or PO Box)

POSTED DEC 16 2011

1 Additional forms may be required for the following permits:
- If your project may qualify for Department of the Army authorization through a Regional General Permit (RGP), contact the U.S. Army Corps of Engineers for application information (206) 764-3482.
- If your project might affect species listed under the Endangered Species Act, you will need to fill out a Specific Project Information Form (SPIF) or prepare a Biological Evaluation. Forms can be found at http://www.nws.usace.army.mil/PublicMenu/Menu.cfm?sitemain=REG&pagename=mainpage_ESA
- If you are applying for an Aquatic Resources Use Authorization you will need to fill out and submit an Application for Authorization to Use State-Owned Aquatic Lands form to DNR, which can be found at http://www.dnr.wa.gov/Publications/aqr_use_auth_app.doc
- Not all cities and counties accept the JARPA for their local Shoreline permits. If you think you will need a Shoreline permit, contact the appropriate city or county government to make sure they will accept the JARPA.

For other help, contact the Governor's Office of Regulatory Assistance at 1-800-817-0043 or help@ora.wa.gov.
3c. City, State, Zip
Same as above.
3d. Phone (1) 3e. Phone (2) 3f. Fax 3g. E-mail
(   )  (   ) (   )

Part 4—Property Owner(s)
Contact information for people or organizations owning the property(ies) where the project will occur. [help]
☐ Same as applicant. (Skip to Part 5.)
☐ Repair or maintenance activities on existing rights-of-way or easements. (Skip to Part 5.)
☐ There are multiple property owners. Complete the section below and fill out JARPA Attachment A for each additional property owner.

4a. Name (Last, First, Middle) and Organization (if applicable)
Cannery Village Association

4b. Mailing Address (Street or PO Box)
P.O. Box 2101

4c. City, State, Zip
Friday Harbor, WA, 98250

4d. Phone (1) 4e. Phone (2) 4f. Fax 4g. E-mail
(360) 378-8400  (   ) (   )

Part 5—Project Location(s)
Identifying information about the property or properties where the project will occur. [help]
☐ There are multiple project locations (e.g., linear projects). Complete the section below and use JARPA Attachment B for each additional project location.

5a. Indicate the type of ownership of the property. (Check all that apply.) [help]
☒ State Owned Aquatic Land (If yes or maybe, contact the Department of Natural Resources (DNR) at (360) 902-1100)
☐ Federal
☐ Other publicly owned (state, county, city, special districts like schools, ports, etc.)
☐ Tribal
☐ Private

5b. Street Address (Cannot be a PO Box. If there is no address, provide other location information in 5p.) [help]
The marina being modified is adjacent to the Washington State Ferry landing to the East.

5c. City, State, Zip (If the project is not in a city or town, provide the name of the nearest city or town.) [help]
Friday Harbor, WA 98250

5d. County [help]
San Juan

5e. Provide the section, township, and range for the project location. [help]

<table>
<thead>
<tr>
<th>% Section</th>
<th>Section</th>
<th>Township</th>
<th>Range</th>
</tr>
</thead>
<tbody>
<tr>
<td>13</td>
<td>35N</td>
<td></td>
<td>3 west</td>
</tr>
</tbody>
</table>

5f. Provide the latitude and longitude of the project location. [help]
   - Example: 47.03922 N lat, -122.89142 W long. (NAD 83)

48.32.06N 123.00.46W

5g. List the tax parcel number(s) for the project location. [help]
   - The local county assessor's office can provide this information.

351349051-76

5h. Contact information for all adjoining property owners. (if you need more space, use JARPA Attachment C.) [help]

<table>
<thead>
<tr>
<th>Name</th>
<th>Mailing Address</th>
<th>Tax Parcel # (if known)</th>
</tr>
</thead>
<tbody>
<tr>
<td>See attached adjacent property sheet.</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

5i. List all wetlands on or adjacent to the project location. [help]

No wetlands exist on or adjacent to the property.

5j. List all waterbodies (other than wetlands) on or adjacent to the project location. [help]

San Juan Channel/Friday Harbor Bay

5k. Is any part of the project area within a 100-year flood plain? [help]

☐ Yes ◐ No ☐ Don't know

5l. Briefly describe the vegetation and habitat conditions on the property. [help]
The docks are built over a mud bay adjacent to a rocky shore. The rocky area consists of both bedrock and riprap that was discharged into the water during construction of the condominium dwellings adjacent to the site. The rocky area ends roughly at the line of the pilings along the shore edge of the marina. The piles are driven into mud, and the floats shade both the rocky area and the mud area. The bulkheads to which the gangways are attached are at the high tide line, and the deepest part of the marina is in 38' of water at high tide.

I conducted a thorough survey of the site in SCUBA gear on a sunny day with 30' visibility. I found various species of non-floating kelp attached to the rocks and piles. There is no Eelgrass growing at the site, though I was able to spot Eelgrass to the east and west of the site beyond the DNR lease boundaries. The existing docks are constructed with solid decking, and are casting a definite shadow on the bay bottom. The mud area is completely barren except for the occasional crab and sea star.

5m. Describe how the property is currently used. [help]

The site is currently a 26 slip marina. A combination of power and sail boats are moored long-term at the site. All boats are fueled off-site, and holding tanks are pumped out by professional pumpout services licensed to perform this service.

5n. Describe how the adjacent properties are currently used. [help]

The upland portion of the property is a condominium dwelling complex. The property to the west is used by the Washington State Ferry service to provide transportation to and from the island.

5o. Describe the structures (above and below ground) on the property, including their purpose(s). [help]

The property is developed as a floating marina to provide moorage for 26 boats of various lengths. The structures are wood piles, wood floats, and Aluminum gangways.
5p. Provide driving directions from the closest highway to the project location, and attach a map. [help]

Take the Anacortes to Friday Harbor ferry to Friday Harbor. It is not necessary to bring a vehicle. The marina will be in full view to your left as you arrive. Walk off the ferry and proceed around the two story retail building to the East to the path leading into the condominium dwelling complex. Walk through the unlocked gate to the boardwalk on the water's edge. Enter the code 512 into the lock on the marina gate, and proceed down the gangway to the marina. See the attached map.

Part 6–Project Description

6a. Summarize the overall project. You can provide more detail in 6d. [help]

Complete replacement of the existing wood floats at the Cannery Village Marina with new welded Aluminum floats.

6b. Indicate the project category. (Check all that apply) [help]

- Commercial
- Residential
- Institutional
- Transportation
- Recreational
- Maintenance
- Environmental Enhancement

6c. Indicate the major elements of your project. (Check all that apply) [help]

- Aquaculture
- Bank Stabilization
- Boat House
- Boat Launch
- Boat Lift
- Bridge
- Bulkhead
- Buoy
- Channel Modification
- Culvert
- Dam / Weir
- Dike / Levee / Jetty
- Ditch
- Dock / Pier
- Dredging
- Fence
- Ferry Terminal
- Fishway
- Float
- Geotechnical Survey
- Land Clearing
- Marina / Moorage
- Mining
- Outfall Structure
- Piling
- Retaining Wall (upland)
- Road
- Scientific Measurement Device
- Stairs
- Stormwater facility
- Swimming Pool
- Utility Line
- Other:

6d. Describe how you plan to construct each project element checked in 6c. Include specific construction methods and equipment to be used. [help]

- Identify where each element will occur in relation to the nearest waterbody.
- Indicate which activities are within the 100-year flood plain.
All floating structures will be constructed at the Northwest Docks facility in Anacortes and delivered to Jensen's Shipyard in Friday Harbor. From there, they will be launched using Jensen's Travelift, and motored into place at Cannery Village. Small boats will be used to manipulate the floats into place. Hand tools will be used to attach the floats to one another and to the piles.

6e. What are the start and end dates for project construction? (month/year) [help]

- If the project will be constructed in phases or stages, use JARPA Attachment D to list the start and end dates of each phase or stage.

<table>
<thead>
<tr>
<th>Start date: March 1</th>
<th>End date: May 15</th>
<th>See JARPA Attachment D</th>
</tr>
</thead>
</table>

6f. Describe the purpose of the project and why you want or need to perform it. [help]

The existing floats are no longer serviceable, and have become unsightly and hazardous. The new floats will improve habitat, water quality, safety, and the appearance of the marina.

6g. Fair market value of the project, including materials, labor, machine rentals, etc. [help]

$300,000

6h. Will any portion of the project receive federal funding? [help]

- If yes, list each agency providing funds.

☐ Yes  ☒ No  ☐ Don't know

Part 7–Wetlands: Impacts and Mitigation

☐ Check here if there are wetlands or wetland buffers on or adjacent to the project area.
(If there are none, skip to Part 8.) [help]

7a. Describe how the project has been designed to avoid and minimize adverse impacts to wetlands. [help]

☒ Not applicable
7b. Will the project impact wetlands? [help]  
☐ Yes ☑ No ☐ Don’t know

7c. Will the project impact wetland buffers? [help]  
☐ Yes ☐ No ☐ Don’t know

7d. Has a wetland delineation report been prepared? [help]  
- If yes, submit the report, including data sheets, with the JARPA package.

☐ Yes ☐ No

7e. Have the wetlands been rated using the Western Washington or Eastern Washington Wetland Rating System? [help]  
- If yes, submit the wetland rating forms and figures with the JARPA package.

☐ Yes ☐ No ☐ Don’t know ☑ Not applicable

7f. Have you prepared a mitigation plan to compensate for any adverse impacts to wetlands? [help]  
- If yes, submit the plan with the JARPA package and answer 7g.
- If No, or Not applicable, explain below why a mitigation plan should not be required.

☐ Yes ☐ No ☑ Not applicable

7g. Summarize what the mitigation plan is meant to accomplish, and describe how a watershed approach was used to design the plan. [help]

7h. Use the table below to list the type and rating of each wetland impacted; the extent and duration of the impact; and the type and amount of mitigation proposed. Or if you are submitting a mitigation plan with a similar table, you can state (below) where we can find this information in the plan. [help]
### Part 8–Waterbodies (other than wetlands): Impacts and Mitigation

In Part 8, "waterbodies" refers to non-wetland waterbodies. (See Part 7 for information related to wetlands.)

- Check here if there are waterbodies on or adjacent to the project area. (If there are none, skip to Part 9.)

<table>
<thead>
<tr>
<th>Activity (fill, drain, excavate, flood, etc.)</th>
<th>Wetland Name¹</th>
<th>Wetland type and rating category²</th>
<th>Impact area (sq. ft. or Acres)</th>
<th>Duration of impact³</th>
<th>Proposed mitigation type⁴</th>
<th>Wetland mitigation area (sq. ft. or acres)</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
<td></td>
<td></td>

<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

¹If no official name for the wetland exists, create a unique name (such as "Wetland 1"). The name should be consistent with other project documents, such as a wetland delineation report.

²Ecology wetland category based on current Western Washington or Eastern Washington Wetland Rating System. Provide the wetland rating forms with the JARPA package.

³Indicate the days, months or years the wetland will be measurably impacted by the activity. Enter "permanent" if applicable.

⁴Creation (C), Re-establishment/Rehabilitation (R), Enhancement (E), Preservation (P), Mitigation Bank/In-lieu fee (B)

---

7i. For all filling activities identified in 7h., describe the source and nature of the fill material, the amount in cubic yards that will be used, and how and where it will be placed into the wetland. [help]

7j. For all excavating activities identified in 7h., describe the excavation method, type and amount of material in cubic yards you will remove, and where the material will be disposed. [help]

---

8a. Describe how the project is designed to avoid and minimize adverse impacts to the aquatic environment. [help]  

- [ ] Not applicable
Historically, docks have been intentionally built of the most toxic materials available to ensure longevity. Pressure treated wood and creosote treated wood were used. This is how the existing marina at Cannery Village was constructed as it now exists.

Our docks go in the opposite direction by providing longevity through the use of the most inert materials available. Frames constructed of marine-grade Aluminum are clad with fiberglass reinforced plastics and floated on polyethylene float tubs. Maximum light passage of 45% overall is used to help fish and eelgrass. The entire surface of the docks is grated, which provides the maximum of light passage, snow passage, water passage, and traction for safe use in all weather conditions.

8b. Will your project impact a waterbody or the area around a waterbody? [help]

☒ Yes ☐ No

8c. Have you prepared a mitigation plan to compensate for the project's adverse impacts to non-wetland waterbodies? [help]

• If yes, submit the plan with the JARPA package and answer 8d.
• If No, or Not applicable, explain below why a mitigation plan should not be required.

☐ Yes ☐ No ☒ Not applicable

The project is self-mitigating, in that a great deal of open foam, pressure treated and creosote treated wood will be removed and replaced with more eco-friendly materials. The grated decking will encourage the growth of eelgrass from nearby eelgrass beds. There will be no increase in over-water coverage, and a dramatic decrease in overall impact.

8d. Summarize what the mitigation plan is meant to accomplish. Describe how a watershed approach was used to design the plan.

• If you already completed 7g., you do not need to restate your answer here. [help]

The docks were designed from the beginning to be of far lower impact than traditional docks. They do not harm water quality chemically, and are made from recycled/recyclable materials that will outlast the materials they replace. The existing docks do not ground, and the new docks will have a much lower draft, meaning they will not ground even if the site develops shallower depths due to sediment deposition.

8e. Summarize impact(s) to each water body in the table below. [help]

<table>
<thead>
<tr>
<th>Activity (clear, dredge, fill, pile drive, etc.)</th>
<th>Water body name¹</th>
<th>Impact location²</th>
<th>Duration of impact³</th>
<th>Amount of material to be placed in or removed from water body</th>
<th>Area (sq. ft. or linear ft.) of water body directly affected</th>
</tr>
</thead>
<tbody>
<tr>
<td>Remove existing floats.</td>
<td>Friday Harbor Bay</td>
<td>Cannery site</td>
<td>1 month</td>
<td>3700 square feet of wooden floats</td>
<td>3700 square feet</td>
</tr>
<tr>
<td>Place new floats</td>
<td>Friday Harbor Bay</td>
<td>Cannery site</td>
<td>2 months</td>
<td>3700 square feet of Aluminum floats</td>
<td>3700 square feet</td>
</tr>
</tbody>
</table>
8f. For all activities identified in 8e., describe the source and nature of the fill material, amount (in cubic yards) you will use, and how and where it will be placed into the waterbody. [help]

There will be no fill material.

8g. For all excavating or dredging activities identified in 8e., describe the method for excavating or dredging, type and amount of material you will remove, and where the material will be disposed. [help]

No excavation or dredging will occur.

Part 9—Additional Information

Any additional information you can provide helps the reviewer(s) understand your project. Complete as much of this section as you can. It is ok if you cannot answer a question.

9a. If you have already worked with any government agencies on this project, list them below. [help]

<table>
<thead>
<tr>
<th>Agency Name</th>
<th>Contact Name</th>
<th>Phone</th>
<th>Most Recent Date of Contact</th>
</tr>
</thead>
<tbody>
<tr>
<td>Town of Friday Harbor</td>
<td>Mike Bertrand</td>
<td>(360) 378-2810</td>
<td>12/15/2011</td>
</tr>
<tr>

<td></td>
<td>( )</td>
<td></td>
</tr>
</tbody>
</table>

9b. Are any of the wetlands or waterbodies identified in Part 7 or Part 8 on the Washington Department of Ecology's 303(d) List? [help]

- If yes, list the parameter(s) below.
<table>
<thead>
<tr>
<th>□ Yes</th>
<th>□ No</th>
<th>□ N/A</th>
</tr>
</thead>
</table>

9c. What U.S. Geological Survey Hydrological Unit Code (HUC) is the project in? [help]
- Go to [http://cftp.pub.epa.gov/surflocate/index.cfm](http://cftp.pub.epa.gov/surflocate/index.cfm) to help identify the HUC.

9d. What Water Resource Inventory Area Number (WRIA #) is the project in? [help]
- Go to [http://www.ecy.wa.gov/services/qis/maps/wria/wria.htm](http://www.ecy.wa.gov/services/qis/maps/wria/wria.htm) to find the WRIA #.

9e. Will the in-water construction work comply with the State of Washington water quality standards for turbidity? [help]
- Go to [http://www.ecy.wa.gov/programs/wa/swqs/criteria.html](http://www.ecy.wa.gov/programs/wa/swqs/criteria.html) for the standards.
- Yes ☒ No ☐ Not applicable

9f. If the project is within the jurisdiction of the Shoreline Management Act, what is the local shoreline environment designation? [help]
- If you don’t know, contact the local planning department.
- Rural ☐ Urban ☒ Natural ☐ Aquatic ☐ Conservancy ☐ Other

9g. What is the Washington Department of Natural Resources Water Type? [help]
- Shoreline ☒ Fish ☐ Non-Fish Perennial ☐ Non-Fish Seasonal

9h. Will this project be designed to meet the Washington Department of Ecology’s most current stormwater manual? [help]
- If no, provide the name of the manual your project is designed to meet.
- □ Yes ☐ No Not applicable
- Name of manual:

9i. If you know what the property was used for in the past, describe below. [help]

The site has been used as a cannery, hence the name. Since, it has been developed as a condominium dwelling complex sharing access with a condominium marina, which we are proposing to reconstruct.
9j. Has a cultural resource (archaeological) survey been performed on the project area? [help]
   - If yes, attach it to your JARPA package.

   □ Yes   ☑ No

9k. Name each species listed under the federal Endangered Species Act that occurs in the vicinity of the project area or might be affected by the proposed work. [help]

Salmon, Eelgrass, Bald Eagles.

9l. Name each species or habitat on the Washington Department of Fish and Wildlife’s Priority Habitats and Species List that might be affected by the proposed work. [help]

---

**Part 10—SEPA Compliance and Permits**

Use the resources and checklist below to identify the permits you are applying for.

- Governor's Office of Regulatory Assistance at (800) 917-0043 or help@ora.wa.gov.
- For a list of agency addresses to send your application, click on the "where to send your completed JARPA" at [http://www.epermitting.wa.gov](http://www.epermitting.wa.gov).

10a. Compliance with the State Environmental Policy Act (SEPA). (Check all that apply.) [help]

   - For more information about SEPA, go to [www.ecy.wa.gov/programs/sea/sepae-review.html](http://www.ecy.wa.gov/programs/sea/sepae-review.html).

   □ A copy of the SEPA determination or letter of exemption is included with this application.

   □ A SEPA determination is pending with ________________ (lead agency). The expected decision date is ____________.
I am applying for a Fish Habitat Enhancement Exemption. (Check the box below in 10b.)

This project is exempt (choose type of exemption below).

- Categorical Exemption. Under what section of the SEPA administrative code (WAC) is it exempt?

- Other: ____________________________________________________________________________

- SEPA is pre-empted by federal law.

**10b. Indicate the permits you are applying for.** (Check all that apply.)

**Part 11—Authorizing Signatures**

Signatures are required before submitting the JARPA package. The JARPA package includes the JARPA form, project plans, photos, etc.

**11a. Applicant Signature (required)**

I certify that to the best of my knowledge and belief, the information provided in this application is true, complete, and accurate. I also certify that I have the authority to carry out the proposed activities, and I agree to start work only after I have received all necessary permits.
I hereby authorize the agent named in Part 3 of this application to act on my behalf in matters related to this application. __________ (initial)

By initializing here, I state that I have the authority to grant access to the property. I also give my consent to the permitting agencies entering the property where the project is located to inspect the project site or any work related to the project. __________ (initial)

Applicant Printed Name ___________________________ Applicant Signature ___________________________ Date __________

11b. Authorized Agent Signature [help]

I certify that to the best of my knowledge and belief, the information provided in this application is true, complete, and accurate. I also certify that I have the authority to carry out the proposed activities and I agree to start work only after all necessary permits have been issued.

James Guy ___________________________ Date 12/16/11
Authorized Agent Printed Name ___________________________ Authorized Agent Signature ___________________________

11c. Property Owner Signature (if not applicant). [help]
Not required if project is on existing rights-of-way or easements.

I consent to the permitting agencies entering the property where the project is located to inspect the project site or any work. These inspections shall occur at reasonable times and, if practical, with prior notice to the landowner.

Property Owner Printed Name ___________________________ Property Owner Signature ___________________________ Date __________

18 U.S.C §1001 provides that: Whoever, in any manner within the jurisdiction of any department or agency of the United States knowingly falsifies, conceals, or covers up by any trick, scheme, or device a material fact or makes any false, fictitious, or fraudulent statements or representations or makes or uses any false writing or document knowing same to contain any false, fictitious, or fraudulent statement or entry, shall be fined not more than $10,000 or imprisoned not more than 5 years or both.

If you require this document in another format, contact The Governor's Office of Regulatory Assistance (ORA). People with hearing loss can call 711 for Washington Relay Service. People with a speech disability can call (877) 833-8341.
