Part 6–Project Description

6a. Briefly summarize the overall project. You can provide more detail in 6b. [help]

Attach a mooring buoy with 5/8” galvanized chain with a swivel to a 36” TaylorMade tapered Buoy. We want to attach the mooring to an existing anchor consisting of large concrete blocks which have been abandoned by the previous owners. A midspan buoy will be attached to the chain to keep the chain off the bottom.

6b. Describe the purpose of the project and why you want or need to perform it. [help]

To attach a boat to a permanent licensed mooring verses anchoring. Access thru our property (no residence). Property has pier with floating dock to moor the Skiff. 42’ boat with official #624494. Mooring will be periodically checked by divers to inspect for wear and condition of chain floating buoy. Bouy will be in 45’ of water at MLL.

The project will occur approximately 150yds offshore in front of commercial property we own which has two Piers with DNR leased floating docks The previous owner had two Jefferson Co. permitted moorings offshore in front of the property. The buoys and attachments are gone and we would like to use the existing concrete blocks We intend to attach 5/8" galvanized chain to the blocks with a shackle and attach the chain to a 36" tapered buoy with a swivel. All work will be performed by a diver. Floater buoys for chain will be attached mid span.
