Application for Use of State-owned Aquatic Lands

Applicant Name:  Terri Cable & Doug Crosby
County:          San Juan County
Water Body:      Blind Bay
Type of Authorization - Use:  Mooring Buoy License –
Authorization Number: Pending
Term:            5 years

Description:  This agreement will allow the use of State-owned aquatic lands for the sole purpose of a recreational use mooring buoy. It is located in Blind Bay, in San Juan County, Washington.
Mooring Buoy Application

This is an application to place a mooring buoy or boat lift on state-owned aquatic land. The Washington State Department of Natural Resources (DNR) will review the information you provide and notify you in writing if it is accepted for further evaluation. However, if the proposal is unacceptable for any reason, DNR may reject this application at any time during review.

You may apply for a no-fee mooring buoy registration per RCW 79.105.430(2) only if:
1. You own the property that abuts State-owned Aquatic Lands and is developed with a residence, AND
2. Your boat is not more than 60 feet long, AND
3. You use your boat only for recreational purposes.

For a no-fee mooring buoy registration, a $25.00 non-refundable application-processing fee is not required.

You must apply for a license (with a fee) if:
- You do not own the abutting residential property, OR
- Your boat is more than 60 feet long, OR
- You plan to install a boat lift.

For a license, please enclose a $25.00 non-refundable application-processing fee. Any agency, political subdivision or municipal corporation of this state or the United States is exempt from the application fee (WAC 332-10-190).

Send the application and fee (if required) to the appropriate address below. For a map of districts, go to the DNR webpage:

1. This application is for a (check all that apply):
   - ☐ mooring buoy registration (no fee) ☑ mooring buoy license ☐ boatlift license

2. Name: Terri Cable & Doug Crosby
   Date: 6-10-12
   Address: 42 Midway Rd

Revised May 2012 • Washington State Department of Natural Resources • Mooring Buoy Boat Lift License Application • Page 1 of 6
3. Which of the following applies to you (check one):
   - [ ] Washington corporation
   - [X] Partnership
   - [ ] Marital Community
   - [ ] Single Individual
   - [ ] Other – please explain

4. Check if the upland parcel owner's address is the same as your address above. If not, fill in below:
   Owner Name: 
   Address: 
   City: 
   State: 
   Zip: 
   Phone Number: Home: 
   Work: 
   E-mail Address: 

5. Identify point of access, parking and dinghy storage locations:
   Mooring accessed via kayak from friend's waterfront

6. Legal Description: County Tax Parcel Number in Section 34 Township 36 N. Range
   Government Lot(s) East-West W.M. 28
   # 2834500296

7. Global Positioning System (GPS) location:
   Latitude: N 48° 34.6066 W 122° 56.082
   Datum used: □ NAD83 □ other: Differential GPS

8. Depth of water at buoy or boatlift location at mean low tide:
   27'

9. Length of Vessel(s): 13' Skiff

10. Vessel(s) Registration Number: 3534NC

11. DNR cannot authorize projects unless all permits are in order. Check those regulatory permits or waivers this activity requires. Although this may not be a complete list for your area, note the ones needed:
   - [X] WA Department of Fish & Wildlife
   - [X] Local Jurisdiction (County, City) Shoreline Permit(s)
   - [X] U.S. Army Corp of Engineers
   - [ ] Other

12. For a Mooring Buoy License, check which fee applies.
   Vessel length:
   - [□] Up to 30' = $175.00 yearly for 5 years
   - [□] Up to 30' = $700.00 One-time for 5 years
   - [□] 31' to 60' = $275.00 yearly for 5 years
   - [□] 31' to 60' = $1,100.00 One-time for 5 years
   - [□] Greater than 60' = $500.00 yearly for 5 years
   - [□] Greater than 60' = $2,000.00 One-time for 5 years

13. For a Boatlift License, check which fee applies.
INFORMATION REQUIRED
FOR A MOORING BUOY or BOATLIFT LICENSE APPLICATION

Please submit answers to the following questions with your application and include a 8½ by 11” vicinity map that provides the details for question 5.

1. Is there a mooring buoy or boatlift currently at this site? Yes □ No □ skip to 5.
   If yes, does the mooring buoy or boatlift belong to the applicant? Yes □ No □
   If no, please provide owner information:
   Name:
   Address:
   City: State: Zip:
   Phone Number: Home: Work:
   E-mail Address:

3. Did DNR authorize the existing mooring buoy or boatlift?
   Yes □ No □ I don’t know □

4. If DNR authorized the existing mooring buoy or boatlift, what is the lease or authorization number?

5. On the vicinity map:
   a. Show the proposed or existing position of the buoy or boatlift, acquired by a Global Positioning System (GPS) measurement.
   b. Mark the position of the buoy or boatlift in relation to its anchor.
   c. Show the nearest upland parcel and distance to the ordinary high water mark (line of vegetation).
   d. Show any obstructions in the vicinity.
   e. Show distance to and location of navigational channels.
      i. List the tidal correction and the depth to the anchor of the buoy or boatlift, and how you determined it.
      ii. Provide the distance from the appropriate line of state ownership. For example, mean high tide, extreme low tide, the line of ordinary high water, or the line of navigability (fresh water).
      iii. List the distance from other mooring anchors, structures and/or any hazards in the area.
      iv. Show the extent of the swing of the vessel using a full circle. This circle must be free from all obstacles including buoys, docks or other hazards.

   The mooring rode will be custom made for the coordinates for a 10’ at highest tide.

   The swing line will only be 10’.

      iv. Show the extent of the swing of the vessel using a full circle. This circle must be free from all obstacles including buoys, docks or other hazards.

DNR will request the information on pages 4 and 5 if we accept your application for evaluation.
Maintenance Plan for Mooring Buoy & Anchoring System

The mooring will be serviced via work boat at a minus tide up to a zero tide when the hardware: galvanized shackle and half inch chain can be brought into the boat and be replaced. The anchor remains undisturbed; it consists of all inert material and does not need servicing. The anchor will continue to supply habitat for sea life.
