Application for Use of State-owned Aquatic Lands

Applicant Name: Millennium Bulk Logistics, Inc.
County: Cowlitz County
Water Body: Columbia River
Type of Authorization - Use: Right of Entry – Geotechnical Investigations
Authorization Number: 23-086439
Term: 1 year

Description: This agreement will allow the use of State-owned Aquatic Lands for the sole purpose of subsurface geotechnical borings. It is located on the Columbia River, in Cowlitz County, Washington.
Vicinity Map

Every attempt was made to use the most accurate and current geographic data available. However, due to multiple sources, scales, and the currency of the data used to develop this map Washington Department of Natural Resources cannot accept responsibility for errors and omissions in the data. Furthermore, this data is not survey grade information and cannot be substituted for an official survey. Therefore, there are no warranties that accompany this material.
APPLICATION FOR AUTHORIZATION
TO USE STATE-OWNED AQUATIC LANDS

No work can be started on the project area until a use authorization has been granted by the state Department of Natural Resources

I. SUBMISSION OF APPLICATION

This application form will be reviewed by the state Department of Natural Resources upon receipt at the address given below, and also posted on the DNR website as public information. Applicants will be notified in writing if the application will be accepted for further review. However, this application may be rejected at any time before signed execution of a use authorization.

APPLICATION MUST BE FILLED OUT IN BLUE OR BLACK PEN

Please send the completed application form to your region land manager at:

Washington Department of Natural Resources
Rivers District
Attn: Bryan Larson
P.O. Box 280
Castle Rock, WA 98611-0280

Enclose a $25.00 non-refundable application processing fee with the application. (This fee is not required for local, state, and other government agencies).

II. APPLICANT INFORMATION

Date of Application: August 31, 2010

Authorization to be issued To (how name is to appear in the lease document): Lyle Hobbs, Millennium Bulk Logistics, Inc.

Applicant's Representative: Derek Koollmann, Anchor QEA, LLC

Relationship to Applicant: Agent

Address: 1605 Cornwall Avenue   City: Bellingham   State: WA   Zip Code: 98225
Telephone: (360) 733-4311 x221   Fax: (360) 733-4312   E-Mail: dkoollmann@anchorqea.com

FOR OFFICIAL USE ONLY  Support staff: Application Fee Received ☐ JARPA Received ☐ Date: ____________

<tr>
<td>Sole Proprietorship</td>
<td>Marital Community Spouse:</td>
<td>Government Agency</td>
</tr>
<tr>
<td>Other</td>
<td>(Please Explain:)</td>
<td></td>
</tr>
</tbody>
</table>

Has the site use been authorized before or is it currently under lease? Yes ☑ Lease Number: 20-B09222
No ☐ Don't Know ☐

III. LOCATION

The Body of Water on which the state property is located:
The Columbia River

County in which the state property is located: Cowlitz

Government Lot: N/A

Section: 36

Township: 8N

Range: 3W

E ☐ or W ☑

Note: A legal property survey including the legal description and other information about the property is required to obtain a use authorization. WA DNR survey requirements are attached to this form. The survey plat will be attached to the lease/easement as Exhibit A. DO NOT HAVE THIS SURVEY CONDUCTED UNTIL YOU HAVE BEEN NOTIFIED IN WRITING THAT THE APPLICATION HAS BEEN ACCEPTED FOR PROCESSING.

Physical description of Project Area (For example, Marsh, Tidewater adjacent to the Chehalis River, etc.):
The project area consists of navigable waterways and shallow submerged aquatic lands and is contained within or adjacent to WDNR Lease #20-B09222. Please refer to Attachment A.

Name of Owner(s) of Uplands, Shorelands, and/or Tidewater shoreward and adjacent to the Property:

Owner: Washington State Department of Natural Resources (WDNR). Contact: Bryan Larson

The adjacent upland property owner is Northwest Alloys, Inc. (NW Alloys). Access to upland property is not necessary for this project.

Address: PO Box 280
City: Castle Rock
State: Washington
Zip Code: 98611-0280

Phone Number: (360) 577-2025
Fax Number
E-mail: BRYAN LARSON@dnr.wa.gov

Note: Except for property located within established Harbor Areas, proof of ownership, or authorization to use the adjacent tideland, shoreland, or upland property may be required. If the applicant is the owner of the adjacent land, attach a copy of the deed.
County Parcel No(s). for adjacent properties, upland, and/or adjacent tideland properties:

State-owned aquatic tidelands managed by WDNR (Lease #20-B09222) contain no parcel number; adjacent upland properties owned by NW Alloys (to be leased by Millennium Bulk Logistics, Inc. [Millennium]) include parcels 61950, 61953, and 6195302.

IV. USE OF PROPERTY

Describe, in detail, the proposed use of the Property:

Millennium Bulk Logistics, Inc. (Millennium) proposes to conduct a geotechnical investigation in the Columbia River to characterize the geotechnical properties of the riverbed adjacent to and downstream from the existing dock to support potential future development decisions. The investigation includes conducting 18 subsurface geotechnical borings at the approximate locations shown on Figure 2.

Is or will the Property be subleased to another party? Yes ☒ No ☐
If yes, submit a copy of the sublease agreement.

Chinook Ventures, Inc. currently subleases the aquatic lands from NW Alloys, Inc. who is the primary leaseholder (Lease #20-B09222); however, no other subleases exist.

What are the current and past uses of the site?

The adjacent property was initially developed as an aluminum smelter by Reynolds Metals Company to support the war efforts of World War II in 1941 and was operated as an aluminum smelter until 2001. Within the project area, alumina ore was offloaded at the dock facilities. Thereafter, the property remained idle until the assets were purchased by Chinook Ventures Incorporated (CVI). CVI uses the dock and adjacent property for bulk product import and export.

Do you have any knowledge of contamination of the site by toxic or hazardous substances, or of past uses or practices that might have lead to contamination by such substances? Yes ☒ No ☐
If so, please explain:

An alleged release of petroleum coke is currently under investigation. No other impacts by toxic or hazardous substances are known.

Do you know if any fill material has been placed on the property in question? Yes ☒ No ☐
If yes, please explain:

V. IMPROVEMENTS

Physical improvements are structures placed on the land that cannot be removed without damage to the land. Examples of such structures include: pilings, dolphins, piers, wharves, piling-supported buildings, structures built on fill or concrete foundations, buried pipelines and cables, and support structures for bridges.

What physical improvements currently exist on the site? (Photos may be required.)
Physical improvements that currently exist on the site include an approximately 1,750-foot dock supported by piles and dolphins that extends from the shoreline into the submerged aquatic land.

If there are physical improvements currently on the site, who owns them?

The existing dock is owned by NW Alloys, Inc.

If there are physical improvements currently on the site, describe their condition:

The existing dock is intact and is currently used by operations on the adjacent property.

Which, if any, of the existing physical improvements will be removed, remodeled, or reconstructed?

None.

Describe any physical improvements that the applicant is proposing to construct on the site:

None.

Has any fill material been placed on the site? Yes ☐ No ☒

If Yes, please describe:
VI. LOCAL, STATE, AND FEDERAL REGULATORY PERMITS
Copies of all Government Regulatory Permits, or Permit Waivers Are Required Before Issuance of a DNR Use Authorization. Your project may require all or some of the following.

Please include the following permit applications, permits, or waivers with the application:

JARPA (Joint Aquatic Resource Permit Application) - This one form is used to apply for all of the following individual permits:
1. **Section 10 Permit** (Required by the US Army Corps of Engineers for any work in or affecting navigable waters, e.g., floats, docks, piles, dredging, pilings, bridges, overhead power lines.)
2. **Shoreline Substantial Development, Conditional Use, Variance Permit or Exemption** (Issued by Local Government, and is required for work or activity in the 100 year flood plain, or within 200 feet of the Ordinary High Water mark of certain waters; and which includes any one of the following: dumping, drilling, dredging, filling, placement or alteration of structures or any activity which substantially interferes with normal public use of the waters.)
3. **Hydraulic Project Approval** (Required by the Department of Fish and Wildlife if the project includes work that will use, divert, obstruct, or change the natural flow or bed of any fresh or salt water of the state.)
4. **Section 404 Permit** (Required by the US Army Corps of Engineers if your project will discharge or excavate any dredged or fill material upstream of the Ordinary High Water mark of the Mean Higher High Tide Line in tidal areas.)
5. **Section 401 Water Quality Certification** (Required by the Department of Ecology if a Section 404 permit is required.)

NPDES (National Pollutant Discharge Elimination System Permit) - Required by the Department of Ecology under delegated authority from the Federal Environmental Protection Agency for projects that include the discharge of fluid or any other action as a result of the discharge or movement of materials into surface water.

SEPA (State Environmental Policy Act) Checklist and Environmental Assessments - When you submit a permit application to any agency, if the project is not exempt, the lead agency will ask you to fill out an environmental checklist based on checklist answers and the reviewers knowledge of the project site, agency personnel will determine the types of impacts the project may have on the environment. The agency assessments may be the following forms: Determination of Non-significance, Determination of Significance, Scoping documents, draft or final Environmental Impact Statements (EIS), or others prepared for the purpose of compliance.

Describe any habitat mitigation required by any of the permitting agencies identified above and identify where such mitigation is proposed to occur.

If any new, modified, dredging or improvements plans have not been established, therefore, an EIB/1, mitigation plan, or other documents have not yet been prepared. However, a comprehensive SEPA is in development and is scheduled to be submitted to Whatcom County by early June 2019. The remainder of the required permit applications will be prepared thereafter, at which time a copy will also be provided to WDFW.

All answers and statements are true and correct to the best of my knowledge.

Applicant Name (please print): L. W. E. HOBBS

Applicant or Authorized Signature: [Signature]

Title: Millennium Blue Logistics

Project Manager

Date: Sept 17, 2019

WASHINGTON STATE DEPARTMENT OF NATURAL RESOURCES
REQUIREMENTS FOR RECORDS OF SURVEY FOR LEASES AND EASEMENTS
Records of Survey are required for easements and leases granted by the department for:

- County roads
- Highways
- Easements across high value lands
- Easements across transition lands
- Utilities
- Upland leases
- Communication sites
- Drainage or irrigation easements
- Railroads
- Aquatic land uses: exemptions are provided for recreational docks and mooring buoys per RCW 79.105.430 and for those permits issued as a Right of Entry
- Other grants as determined by the department based upon site specific considerations

The applicant is responsible for:

- All costs and work associated with creating, submitting, revising and recording the Record of Survey
- Submitting a preliminary Record of Survey for review and approval by the department prior to approval of the agreement.
- Recording the final Record of Survey with the county auditor’s office.
- Submitting a digital copy in AutoCAD.DWG or DXF (drawing exchange format) of the final survey.
- Submitting two full size copies and one 8 ½ X 11” copy and of the recorded survey including the auditor’s recording information to the department.

A Record of Survey must:

1. Be produced by a licensed surveyor.
2. Meet the requirements of Title 58 RCW and Chapter 332-130 WAC.
3. Include the name of the applicant, the purpose of the easement or lease and the DNR easement or lease number.
4. Clearly show easement or lease boundaries with distances and directions of all boundary lines.
5. Show the easement or lease area to an accuracy of (±) 0.5% of the total area or (±) 10 square feet, whichever is greater.
6. (Not required for aquatic lands lease across the bed of Puget Sound or the Pacific Ocean) Indicate the acreage encompassed by the lease or easement within each quarter-quarter section or government lot.
7. Show distances and directions from two or more controlling corners of a recorded subdivision, recorded survey or government survey (GLO) corners.
8. Be related by meridian and coordinate to the Washington Coordinate System NAD’83(1991) by closed ties to NGS Control monuments, or the extension thereof. The designation of the control stations used shall appear on the plat.
9. Include a narrative legal description describing the servient estate (grantor’s parcel) on the Record of Survey.
10. Show a detailed plan of improvements to be constructed or already existing on the easement or lease area. All improvements must be shown in sufficient detail to determine what they are used for and to ensure they are entirely within the easement area.
11. Show the location of any proposed utility.
12. (Linear lease or easement) Show the lineal footage along the centerline.
13. (Linear lease or easement) Show the complete alignment information and width including any necessary curve data,
A Record of Survey must (cont.):

14. (Easements or leases crossing a section line or state ownership boundary, not required for aquatic lands lease across the bed of Puget Sound or the Pacific Ocean) Provide ties to the centerline of an easement along the section or subdivision line from the nearest appropriate Public Land Survey System (PLSS) section corner, quarter section or subdivision corner, where the easement enters and leaves the section or state ownership.

15. (Easements or leases falling entirely within one section and not crossing a section line or state ownership boundary) Provide ties from both end points of the linear easement to PLSS corners or other subdivision corners shall be provided.

16. (A lease which encroaches on a previously leased site) Show the boundary for the senior lease in the vicinity of the proposed lease shall also be shown, together with ties between the two leases sufficient to determine the full extent of the encroachments.

Additional Requirements for Communication Site Leases

17. Show ties to the corners of previously monumented communication sites adjacent to, or in the immediate vicinity of the proposed communication site.

18. Show access to the site.

19. Mark the corners of the communication site, as described and granted, with substantial permanent magnetically locatable monuments. The monuments shall be in place and obviously marked on the ground after the construction of installations and improvements.

20. Show the center of any communication site tower by Washington Plane Coordinates, NAD83 (1991), or latitude and longitude. NAD83 datum must be used to determine global location coordinates and must be in decimal degrees. Coordinates must have at least five decimal places to the right of the decimal point and include a negative longitude.

21. On all communication sites where towers or beam paths are shown, an elevation is required at the base of the tower.

22. Show the tower height, and the height of the antenna or microwave dish and any beam path used shall have the diameter and tilt thereof shown.

23. The elevation shall be derived from an established benchmark in the vicinity of the site, or an elevation designated by the Department of Natural Resources.

Additional Requirements for Aquatic Land Uses

24. The lease of aquatic lands is often subject to preference rights. Applicants and surveyors should carefully determine the direction, and show details of the proration of coves and irregular shoreline.

25. (Lease sites which contain existing or proposed structures and improvements that are classified as a non water-dependent or a water oriented use as described within RCW 79.105.060 and WAC 332-30-106) Provide the square footage of each structure and improvement.

26. Where applicable, the survey of aquatic lands must show the location of the following lines for:

a. Tidal areas—Government meander line, the original and current locations of line of mean high tide, line of mean low tide, and line of extreme low tide. The survey must include the name of tidal bench mark(s) used or describe the alternate method employed for determining a Tidal Datum. Lease areas which contain tidelands and bedlands at a minimum must show the location of the line of extreme low tide crossing the lease area. Lease areas containing bedlands exclusively may be required to show the relationship to the line of extreme low tide and the -18 foot contour line only.
Additional Requirements for Aquatic Land Uses (cont.):

b. Lakes – Government meander line, line of ordinary high water (original ordinary high water if the lake has experienced artificial raising or lowering of the water level), and line of ordinary low water (include source of data) and line of navigability if established.

c. Rivers - Line of ordinary high water and line of ordinary low water (include source of data) and line of navigability if established.

d. Lots and blocks of platted tide lands or shore lands, inner and outer harbor lines, waterway lines, street boundaries, any local construction limit lines, any dredge or fill areas, and easements of record within the lease site.

e. All lines must be shown in sufficient detail to compute and show the area of each area of State-owned bedlands, tidelands, shore lands, harbor area, or waterways included within the proposed lease site.

Include any other data necessary for the complete understanding of the information shown on the survey. If, in the opinion of the department, such information is lacking, the survey may be rejected.

Record of Survey Revisions:

27. Any differences between the as-built road and the regulation plat must be reflected in a revised Record of Survey and recorded with the county by the applicant.

28. When any portion of the completed improvements are located outside of the granted lease site, the as-built locations must be reflected in a revised Record of Survey and legal description. In this instance, a new application for an amended lease site may be required if the as-built location creates adverse impacts. In the case of linear leases across the bed lands of the sound or the ocean, an as-built Record of Survey and a revised legal description of the linear lease must be provided.

Survey Information updated July 2002.
