Application for Use of State-owned Aquatic Lands

Applicant Name: Paul Vincent c/o OSU
County: Clallam and Kitsap Counties
Water Body: Clallam Bay, Strait of Juan de Fuca, Crescent Bay, Admiralty Inlet
Type of Authorization - Use: ROE – tidal gauges
Authorization Number: 23-086144
Term: 5 years

Description: This agreement will allow the use of State-owned aquatic lands for the sole purpose of installing and maintaining tidal gauges. The gauges will be located in the following waterbodies/Counties: Clallam Bay/Clallam County, Strait of Juan de Fuca/Clallam County, Crescent Bay/Clallam County, Admiralty Inlet/Kitsap County.

Date of Public Notice: 6/28/2010
APPLICATION FOR AUTHORIZATION TO USE STATE-OWNED AQUATIC LANDS

I. SUBMISSION OF APPLICATION

NO WORK CAN BE STARTED ON THE PROJECT AREA UNTIL A USE AUTHORIZATION HAS BEEN GRANTED BY THE DEPARTMENT OF NATURAL RESOURCES

Enclose a $25.00 non-refundable application processing fee with the application (this fee is not required for local, state, and other government agencies). This application form will be reviewed by the Department of Natural Resources upon receipt at the address given below. Applicants will be notified in writing if the application will be accepted for further review. However, this application may be rejected at any time before signed execution of a use authorization. APPLICATION MUST BE FILLED OUT IN BLUE OR BLACK PEN

Please send the completed application form to your region land manager at:

Department of Natural Resources
[Region/District Address]

II. APPLICANT INFORMATION

Date of Application: June 21, 2010

Authorization to be

Address:

City: Corvallis
Telephone
Applicant's Repress:
Relationship to App:
Address: E
City: F
Telephone: (541
Number: 5
4692

If Property will be used for business purposes, Applicants' Washington Department of Revenue Tax *Registration Number (Unified Business Identifier) is Required:

Land Manager: New Application Renewal Application
Land Manager: Initials Aquatic Program Manager Initials
Support: Application Fee Received WAIVE Date 6/22/10

Land Records: New Application Number
Land Records: Trust County AQR Plate No.

Form Date: August 2007
Which of the following applies to Applicant (Check One and Attach written authority to sign - bylaws, power of attorney, etc):
Corporation (State of Registration): Government Agency Oregon University System (Oregon State University and University of Oregon)
General Partnership Limited Partnership (State of Registration): (Spouse):
Sole Proprietorship Marital Community (Please Explain):

Has the site use been authorized before or is it currently under lease: Yes(#) No (X) Don’t Know

III. LOCATION
The Body of Water on which the state property is located: Strait of Juan de Fuca (Clallam Bay, Crescent Bay, Twin Rivers); Hood Canal (Whitney Point, Twin Spits); Puget Sound (Hansville)
County in which the state property is located: Clallum; Jefferson; Kitsap

A LEGAL PROPERTY SURVEY INCLUDING THE LEGAL DESCRIPTION AND OTHER INFORMATION ABOUT THE PROPERTY IS REQUIRED TO OBTAIN A USE AUTHORIZATION. THE SURVEY REQUIREMENTS ARE DESCRIBED IN SECTION VII, PROPERTY SURVEY OF THIS FORM. THE SURVEY PLAT WILL BE ATTACHED TO THE LEASE AS EXHIBIT A. (DO NOT HAVE THIS SURVEY CONDUCTED UNTIL YOU HAVE BEEN NOTIFIED IN WRITING THAT THE APPLICATION HAS BEEN ACCEPTED FOR PROCESSING.)

Government Lot Section , Township , Range E/W

Physical description of Project Area (For example, Marsh, Tidelflat adjacent to the Chehalis River, etc.): Shallow marine and intertidal (abandoned pilings or marina dock pilings) suitable for tide gauge installation at multiple sites listed above. See Exhibit A for locations (lats/longs and map).

Name of Owner(s) of Uplands, Shorelands, and/or Tidelands shoreward and adjacent to the Property:
Name: Chuck and Neva Novak (Crescent Bay) / Twin Rivers, Inc. (Twin River) /

Address: 2860 Crescent Beach Rd / (unknown—off Hwy 112) /

City: Port Angeles / State: WA Zip Code: 98363 Phone Number: (360) 928-3344

County Parcel No(s). for adjacent properties, upland, and/or adjacent tideland properties:

Form Date: August 2007 2 of 8 Application for Authorization to Use SOAL
IV. USE OF PROPERTY
1. Describe, in detail, the proposed use of the Property. We wish to install tide gauges (3" pvc vertical pipe) at locations identified on map (Exhibit A) onto abandoned pilings and possibly onto docks (needs to be inconspicuous) for geodetic measurements of tectonic uplift associated with (14-month) "slow earthquake events" as well as long-term uplift (strain accumulation) associated with long-term (300-year interval) great earthquake events. Note: already have permits from Port of Port Angeles (for Dungenes Bay) and WA State Parks and Recreation Commission (for Sequim State Park) and have installed at these sites.

2. Is or will the Property be subleased to another party? Yes No (X) (If yes, submit a copy of the sublease agreement.)

3. What are the current and past uses of the site? Abandoned pilings near the shoreline, or marina pilings (e.g., Sekiu/Clallam Bay)

4. Do you have any knowledge of contamination of the site by toxic or hazardous substances, or of past uses or practices that might have lead to contamination by such substances? If so, please explain: No

5. Do you know if any fill material has been placed on the property in question? If yes, please explain: No

V. IMPROVEMENTS
1. What physical improvements currently exist on the site? (Photos may be required.)

2. If there are physical improvements currently on the site, who owns them? Abandoned pilings (DNR-owned or leased)

3. If there are physical improvements currently on the site, describe their condition: None

4. Which, if any, of the existing physical improvements will be removed, remodeled, or reconstructed? None

5. Describe any physical improvements that the applicant is proposing to construct on the site: Install 3" vertical pvc pipe 12' long

6. Has any fill material been placed on the site? If Yes, please describe: N/A

Form Date: August 2007
VI. LOCAL, STATE, AND FEDERAL REGULATORY PERMITS
COPIES OF ALL GOVERNMENT REGULATORY PERMITS ARE REQUIRED BEFORE ISSUANCE OF A DNR USE AUTHORIZATION. YOUR PROJECT MAY REQUIRE SOME OR ALL OF THESE PERMITS.

Please include the following permit applications, permits, or waivers with the application:

JARPA (Joint Aquatic Resource Permit Application)
This one form is used to apply for all of the following individual permits:

1. **Section 10 Permit** (Required by the US Army Corps of Engineers for any work in or affecting navigable waters, e.g., floats, docks, piers, dredging, pilings, bridges, overhead power lines.)

2. **Shoreline Substantial Development, Conditional Use, Variance Permit or Exemption** (Issued by Local Government, and is required for work or activity in the 100 year floodplain, or within 200 feet of the Ordinary High Water mark of certain waters; and which included any one of the following: dumping, drilling, dredging, filling, placement or alteration of structures or any activity which substantially interferes with normal public use of the waters.)

3. **Hydraulic Project Approval** (Required by the Department of Fish and Wildlife if the project includes work that will use, divert, obstruct, or change the natural flow or bed of any fresh or salt water of the state.)

4. **Section 404 Permit** (Required by the US Army Corps of Engineers if your project will discharge or excavate any dredged or fill material waterward of the Ordinary High Water mark or the Mean Higher High Tide Line in tidal areas.)

5. **Section 401 Water Quality Certification** (Required by the Department of Ecology if a Section 404 permit is required.)

**NPDES (National Pollutant Discharge Elimination System Permit)**
Required by the Department of Ecology under delegated authority from the Federal Environmental Protection Agency for projects that include the discharge of fluid on or into surface water.

**SEPA (State Environmental Policy Act) Checklist and Environmental Assessments**
When you submit a permit application to any agency, if the project is not exempt, the lead agency will ask you to fill out an environmental checklist. Based on checklist answers and the reviewers knowledge of the project site, agency personnel will determine the types of impacts the project may have on the environment. The agency assessments may be the following forms: Determination of Nonsignificance, Determination of Significance, scoping documents, draft or final Environmental Impact Statements (EIS) or others prepared for the purpose of compliance.

Describe any habitat mitigation required by any of the permitting agencies identified above and identify where such mitigation is proposed to occur:  

N/A

VII. PROPERTY SURVEY

**STATE OF WASHINGTON DEPARTMENT OF NATURAL RESOURCES**
**REQUIREMENTS FOR RECORDS OF SURVEY FOR LEASES AND EASEMENTS**

Records of Survey are required for easements and leases granted by the department for:

Form Date: August 2007 4 of 8 Application for Authorization to Use SOAL
- County roads
- Highways
- Easements across high value lands
- Easements across transition lands
- Utilities
- Upland leases
- Communication sites
- Other grants as determined by the department based upon site specific considerations

The applicant is responsible for:
- All costs and work associated with creating, submitting, revising and recording the Record of Survey
- Submitting a preliminary Record of Survey for review and approval by the department prior to approval of the agreement.
- Recording the final Record of Survey with the county auditor’s office.
- Submitting a digital copy in AutoCAD.DWG or DXF (drawing exchange format) of the final survey.
- Submitting two full size copies and one 8 ½ X 11” copy and of the recorded survey including the auditor’s recording information to the department.

A Record of Survey must:

1. Be produced by a licensed surveyor.
2. Meet the requirements of Title 58 RCW and Chapter 332-130 WAC.
3. Include the name of the applicant, the purpose of the easement or lease and the DNR easement or lease number.
4. Clearly show easement or lease boundaries with distances and directions of all boundary lines.
5. Show the easement or lease area to an accuracy of (±) 0.5% of the total area or (±) 10 square feet, whichever is greater.
6. (Not required for aquatic lands lease across the bed of Puget Sound or the Pacific Ocean) Indicate the acreage encompassed by the lease or easement within each quarter-quarter section or government lot.
7. Show distances and directions from two or more controlling corners of a recorded subdivision, recorded survey or government survey (GLO) corners.
8. Be related by meridian and coordinate to the Washington Coordinate System NAD’83(1991) by closed ties to NGS Control monuments, or the extension thereof. The designation of the control stations used shall appear on the plat.
9. Include a narrative legal description describing the servient estate (grantor’s parcel) on the Record of Survey.
10. Show a detailed plan of improvements to be constructed or already existing on the easement or lease area. All improvements must be shown in sufficient detail to determine what they are used for and to ensure they are entirely within the easement area.
11. Show the location of any proposed utility.
12. **(linear lease or easement)** Show the lineal footage along the centerline.
13. **(linear lease or easement)** Show the complete alignment information and width including any necessary curve data.
14. **(Easements or leases crossing a section line or state ownership boundary, not required for aquatic lands lease across the bed of Puget Sound or the Pacific Ocean)** Provide ties to the centerline of an easement along the section or subdivision line from the nearest appropriate Public Land Survey System (PLSS) section corner, quarter section or subdivision corner, where the easement enters and leaves the section or state ownership.
15. **(Easements or leases falling entirely within one section and not crossing a section line or state ownership boundary)**

Form Date: August 2007

5 of 8 Application for Authorization to Use SOAL
Provide ties from both end points of the linear easement to PLSS corners or other subdivision corners shall be provided.

16. (A lease which encroaches on a previously leased site) Show the boundary for the senior lease in the vicinity of the proposed lease shall also be shown, together with ties between the two leases sufficient to determine the full extent of the encroachments.

**Additional Requirements for Communication Site Leases**

17. Show ties to the corners of previously monumented communication sites adjacent to, or in the immediate vicinity of the proposed communication site.

18. Show access to the site.

19. Mark the corners of the communication site, as described and granted, with substantial permanent magnetically locatable monuments. The monuments shall be in place and obviously marked on the ground after the construction of installations and improvements.

20. Show the center of any communication site tower by Washington Plane Coordinates, NAD83 (1991), or latitude and longitude. NAD83 datum must be used to determine global location coordinates and must be in decimal degrees. Coordinates must have at least five decimal places to the right of the decimal point and include a negative longitude.

21. On all communication sites where towers or beam paths are shown, an elevation is required at the base of the tower.

22. Show the tower height, and the height of the antenna or microwave dish and any beam path used shall have the diameter and tilt thereof shown.

23. The elevation shall be derived from an established benchmark in the vicinity of the site, or an elevation designated by the Department of Natural Resources.

**Additional Requirements for Aquatic Land Uses**

24. The lease of aquatic lands is often subject to preference rights. Applicants and surveyors should carefully determine the direction, and show details of the proration of coves and irregular shoreline.

25. (Lease sites which contain existing or proposed structures and improvements that are classified as a non water-dependent or a water oriented use as described within RCW 79.105.060 and WAC 332-30-106) Provide the square footage of each structure and improvement.

**Additional Requirements for Aquatic Land Uses (cont.):**

26. Where applicable, the survey of aquatic lands must show the location of the following lines for:

   a. Tidal areas – Government meander line, the original and current locations of line of mean high tide, line of mean low tide, and line of extreme low tide. The survey must include the name of tidal bench mark(s) used or describe the alternate method employed for determining a Tidal Datum. Lease areas which contain tidelands and bedlands at a minimum must show the location of the line of extreme low tide crossing the lease area. Lease areas containing bedlands exclusively may be required to show the relationship to the line of extreme low tide and the -18 foot contour line only.

   b. Lakes – Government meander line, line of ordinary high water (original ordinary high water if the lake has experienced artificial raising or lowering of the water level), and line of ordinary low water (include source of data) and line of navigability if established.

   c. Rivers - Line of ordinary high water and line of ordinary low water (include source of data) and line of navigability if established.

   d. Lots and blocks of platted tide lands or shore lands, inner and outer harbor lines, waterway lines, street boundaries, any local construction limit lines, any dredge or fill areas, and easements of record within the lease site.
