Application for Use of State-owned Aquatic Lands

Applicant Name: Washington State Department of Transportation
County: King
Water Body: Lake Washington
Type of Authorization - Use: Right of Entry Amendment
Authorization Number: 23-079782
Term: 5 years

Description: For the purpose of conducting and collecting geotechnical information for the upcoming SR520 bridge replacement project. This project will be done in yearly stages started in 2006 and ending in 2010. Borings will be conducted by various methods. This is an amendment to an existing Right of Entry.
APPLICATION FOR AUTHORIZATION TO USE STATE-OWNED AQUATIC LANDS

I. SUBMISSION OF APPLICATION

NO WORK CAN BE STARTED ON THE PROJECT AREA UNTIL A USE AUTHORIZATION HAS BEEN GRANTED BY THE DEPARTMENT OF NATURAL RESOURCES

Enclose a $25.00 non-refundable application processing fee with the application (this fee is not required for local, state, and other government agencies). This application form will be reviewed by the Department of Natural Resources upon receipt at the address given below. Applicants will be notified in writing if the application will be accepted for further review. However, this application may be rejected at any time before signed execution of a use authorization.

Please send the completed application form to your region land manager at:

Department of Natural Resources
South Puget Sound Region
950 Farman Ave. N
Enumclaw, WA 98022

II. APPLICANT INFORMATION

Date of Application: **August 22, 2006**

Authorization to be Issued To (how name is to appear in the lease document):

**Washington State Department of Transportation**

Address: **414 Olive Way, Suite 400**

City: **Seattle**  State: **WA**  Zip Code: **98101**

Telephone Number: **206/464-1227**  FAX Number: **206/464-1190**

Applicant’s Representative: **Paul Krueger**

Relationship to Applicant: **SR 520 Bridge Replacement and HOV Project, Environmental Manager**

Address: **Same as above**

City:  State:  Zip Code:

Telephone Number:  FAX Number:

If Property will be used for business purposes, Applicants’ Washington Department of Revenue Tax *Registration Number (Unified Business Identifier) is Required: **NA**

FOR OFFICIAL USE ONLY

Land Manager: **Type: (20, 21, 22, 23, 31, 51)**

Land Manager: **New Application**  Renewal Application

Land Manager: Initials **MP**  Aquatic Program Manager Initials

Support: Application Fee Received  Date

Land Records: **New Application Number 23-079782**

Land Records: **Trust 15  County 17  AQR Plate No. SF17-048 (5)**

Land Records: **SF17-063 (5)**

**SF17-068 (1)**

Long Form Application

**EN 9/15/2006**  Revised: October 2003
USE OF PROPERTY

1. Describe, in detail, the proposed use of the Property. WSDOT began collecting geotechnical information for the SR 520 Bridge Replacement Project in 2005, and proposes to continue geotechnical work 2006 – 2009. A narrative description of the proposed work by year with approximate locations mapped by year is attached to this application for right of entry 2006 – 2009. Maps are also attached showing the exploration plans by year (three maps per year).

2. Is or will the Property be subleased to another party? Yes No X (If yes, submit a copy of the sublease agreement.)

3. What are the current and past uses of the site? Land bores on the Seattle side include locations in the Arboretum (Park use), and WSDOT Right of Way. Land bores on the eastside of the project area are in WSDOT ROW. Water bores will be in locations not currently or previously known to be used for other purposes, all in the immediate vicinity of the proposed new bridge alignment.

4. Do you have any knowledge of contamination of the site by toxic or hazardous substances, or of past uses or practices that might have lead to contamination by such substances? If so, please explain: No

5. Do you know if any fill material has been placed on the property in question? If yes, please explain: Unknown; Arboretum area in general is known to be a former garbage dump and may include fill in certain areas; fill may also be encountered when drilling in DOT ROW from highway construction.

| PHYSICAL IMPROVEMENTS ARE STRUCTURES PLACED ON THE LAND THAT CANNOT BE REMOVED WITHOUT DAMAGE TO THE LAND. EXAMPLES OF SUCH STRUCTURES INCLUDE PILINGS, DOLPHINS, PIERS, WHARVES, PILING-SUPPORTED BUILDINGS, STRUCTURES BUILT ON FILL OR CONCRETE FOUNDATIONS, BURIED PIPELINES AND CABLES, AND SUPPORT STRUCTURES FOR BRIDGES. |

V. IMPROVEMENTS

1. What physical improvements currently exist on the site? (Photos may be required.) There are no known physical improvements on the sites to be bored over water, other than the existing SR 520 Bridge and associated structures. On land, drilling sites may include adjacent physical improvements such as landscaping (Arboretum area), or existing SR 520 Bridge (WSDOT ROW).

2. If there are physical improvements currently on the site, who owns them? City of Seattle (Arboretum); MOH; WSDOT

3. If there are physical improvements currently on the site, describe their condition: current use is Park (Arboretum) and Transportation (ROW). Corresponding condition of existing bridge and existing park are what would be expected under current use.

4. Which, if any, of the existing physical improvements will be removed, remodeled, or reconstructed? None.

5. Describe any physical improvements that the applicant is proposing to construct on the site: No physical improvements are included in the proposed work.

6. Has any fill material been placed on the site? If Yes, please describe: No fill will be placed as part of the proposed geotechnical work. It is unknown whether or not fill was placed during construction of existing SR 520 Bridge and Arboretum Park.
The applicant is responsible for:

- All costs and work associated with creating, submitting, revising and recording the Record of Survey
- Submitting a preliminary Record of Survey for review and approval by the department prior to approval of the agreement.
- Submitting a digital copy in AutoCAD.DWG or DXF (drawing exchange format) of the final survey.
- Submitting two full size copies and one 8½ X 11” copy of the recorded survey including the auditor’s recording information to the department.

A Record of Survey must:

1. Be produced by a licensed surveyor.

2. Meet the requirements of Title 58 RCW and Chapter 332-130 WAC.

3. Include the name of the applicant, the purpose of the easement or lease and the DNR easement or lease number.

4. Clearly show easement or lease boundaries with distances and directions of all boundary lines.

5. Show the easement or lease area to an accuracy of (+) 0.5% of the total area or (−) 10 square feet, whichever is greater.

6. (Not required for aquatic lands lease across the bed of Puget Sound or the Pacific Ocean) Indicate the acreage encompassed by the lease or easement within each quarter-quarter section or government lot.

7. Show distances and directions from two or more controlling corners of a recorded subdivision, recorded survey or government survey (GLO) corners.

8. Be related by meridian and coordinate to the Washington Coordinate System NAD’83(1991) by closed ties to NGS Control monuments, or the extension thereof. The designation of the control stations used shall appear on the plat.

9. Include a narrative legal description describing the servient estate (grantor’s parcel) on the Record of Survey.

10. Show a detailed plan of improvements to be constructed or already existing on the easement or lease area. All improvements must be shown in sufficient detail to determine what they are used for and to ensure they are entirely within the easement area.

11. Show the location of any proposed utility.

12. (linear lease or easement) Show the lineal footage along the centerline.

13. (linear lease or easement) Show the complete alignment information and width including any necessary curve data.

14. (Easements or leases crossing a section line or state ownership boundary, not required for aquatic lands lease across the bed of Puget Sound or the Pacific Ocean) Provide ties to the centerline of an easement along the section or subdivision line from the nearest appropriate Public Land Survey System (PLSS) section corner, quarter section or subdivision corner, where the easement enters and leaves the section or state ownership.

15. (Easements or leases falling entirely within one section and not crossing a section line or state ownership boundary) Provide ties from both end points of the linear easement to PLSS corners or other subdivision corners shall be provided.

16. (A lease which encroaches on a previously leased site) Show the boundary for the senior lease in the vicinity of the proposed lease shall also be shown, together with ties between the two leases sufficient to determine the full extent of the encroachments.
Record of Survey Revisions:

27. Any differences between the as-built road and the regulation plat must be reflected in a revised Record of Survey and recorded with the county by the applicant.

28. When any portion of the completed improvements are located outside of the granted lease site, the as-built locations must be reflected in a revised Record of Survey and legal description. In this instance, a new application for an amended lease site may be required if the as-built location creates adverse impacts. In the case of linear leases across the bed lands of the sound or the ocean, an as-built Record of Survey and a revised legal description of the linear lease must be provided.

Survey Requirements updated July 2002.

All answers and statements are true and correct to the best of my knowledge.
