Title of rule and other identifying information: Geoduck Diver Safety Program. Effective January 1, 2015, all commercial wildstock geoduck divers participating in the state managed fishery are required to annually demonstrate proof of compliance with the geoduck diver safety program in order to be maintained on a DNR harvest plan of operations and/or obtain a commercial diver license under RCW 77.65.410. Proposed minimum qualifications include CPR/first aid certification, emergency oxygen administration certification, Washington State Boater Education Card, and an annual self-attestation confirming applicant experience/training in the fundamental principles of dive safety. The proposed rule has been revised from previous proposals (WSR 14-09-107 & 14-21-158) in response to feedback submitted during applicable public comment periods. All medical requirements (e.g., physical examination) have been removed from the proposed safety program.

Date: March 12, 2015 Time: 6:00 PM

Date of intended adoption: April 7, 2015
(Note: This is NOT the effective date)

Purpose of the proposal and its anticipated effects, including any changes in existing rules: Second Substitute House Bill 1764 requires DNR to adopt rules establishing a geoduck diver safety program. The proposed program establishes mandatory safety training requirements for all divers participating in the state managed wildstock geoduck fishery. Mandated safety requirements are intended to mitigate the inherent hazards associated with working in hyperbaric conditions and reduce the probability of diver related accidents. Increased safety requirements will reduce risk exposure for geoduck divers, as well for other individuals that provide emergency response in the event of a dive-related accident.

Reasons supporting proposal: Commercial geoduck harvesting techniques expose divers to a wide-range of occupational health and safety hazards. Despite recognized hazards, there are currently no mandated safety requirements for geoduck divers engaged in the wildstock fishery. The rule aligns geoduck harvest diving with industry standards for commercial diving operations.

Is rule necessary because of a:
Federal Law? Yes ☒ No ☒
Federal Court Decision? Yes ☒ No ☒

Has a small business economic impact statement been prepared under chapter 19.85 RCW or has a school district fiscal impact statement been prepared under section 1, chapter 210, Laws of 2012?

☑ Yes. Attach copy of small business economic impact statement or school district fiscal impact statement.

A copy of the statement may be obtained by contacting:
Name: Matthew Goehring
Address: Dept. of Natural Resources
1111 Washington St SE
MS 47027
Olympia, WA 98504

phone (360) 902-1090
fax (360) 902-1786
e-mail matt.goehring@dnr.wa.gov

☑ No. Explain why no statement was prepared.

Is a cost-benefit analysis required under RCW 34.05.328?

☒ Yes A preliminary cost-benefit analysis may be obtained by contacting:
