MAPS SHOWING NATIONAL PARKS AND MONUMENTS

MAPS OF THE UNITED STATES

MAP REFERENCE NUMBERS

Many libraries maintain a map reference facility where the published maps of the Geological Survey may be consulted. This facility is located in the Map Survey office of the Geological Survey. In this State, maps are deposited in the libraries listed below:

Libraries

Oklahoma City, Oklahoma
The Oklahoma City University

Texas

The University of Texas

Utah

The University of Utah

Washington, D.C.

The Library of Congress

WISCONSIN

The University of Wisconsin

WYOMING

The University of Wyoming

INDEX TO TOPOGRAPHIC MAPS IN WASHINGTON

The Geological Survey is making a series of standard topographic maps to cover the United States, Alaska, Hawaii, and Puerto Rico. These maps are intended to provide a uniform framework for the mapping of the United States at a scale of either 1:24,000 or 1:1,000,000 (1 inch = 1 mile). They are published in quadrangles, each covering 15 minutes of latitude and longitude, and are issued in sets of five maps. The maps are printed on a blue background, and the name of the map and the scale are printed on each map. The maps are also available in a more detailed form as topographic maps at a scale of 1:12,000.
