Mobility assistance needed? Yes / No
Persons with a disability requiring special accommodations while participating in this program may call WSU Chelan County Extension, 509-667-6540. If accommodation is not requested in advance, we cannot guarantee the availability of accommodation on site.

WSU Extension programs and employment are available to all without discrimination. Evidence of noncompliance may be reported through your local WSU Extension office.
Is Your Forest Healthy?

These forest health workshops are designed to give landowners hands-on experience identifying and measuring factors that affect a forest’s health.

Workshop participants will learn how to recognize forest problems and how to manage their own forest so that it is resistant to insects and diseases.

Landowners will learn how to measure forest health indicators and assess risk. Afternoon field sessions will include hands-on measurement of forest timber stands.

Please note: Half of each workshop will be outdoors so please be prepared for the weather. Workshops will be held rain or shine.
