# FPA 26168267 I have reviewed this SEPA Checklist and

have included comments in blue.

2/5/2024

FP Coordinator, Olympic Region DNR

2618267

**SEPA<sup>1</sup> Environmental Checklist** 

## Purpose of checklist

Governmental agencies use this checklist to help determine whether the environmental impacts of your proposal are significant. This information is also helpful to determine if available avoidance, minimization, or compensatory mitigation measures will address the probable significant impacts or if an environmental impact statement will be prepared to further analyze the proposal.

Krista Pagel

## Instructions for applicants

This environmental checklist asks you to describe some basic information about your proposal. Please answer each question accurately and carefully, to the best of your knowledge. You may need to consult with an agency specialist or private consultant for some questions. You may use "not applicable" or "does not apply" only when you can explain why it does not apply and not when the answer is unknown. You may also attach or incorporate by reference additional studies reports. Complete and accurate answers to these questions often avoid delays with the SEPA process as well as later in the decision-making process.

The checklist questions apply to all parts of your proposal, even if you plan to do them over a period of time or on different parcels of land. Attach any additional information that will help describe your proposal or its environmental effects. The agency to which you submit this checklist may ask you to explain your answers or provide additional information reasonably related to determining if there may be significant adverse impact.

## Instructions for lead agencies

Please adjust the format of this template as needed. Additional information may be necessary to evaluate the existing environment, all interrelated aspects of the proposal and an analysis of adverse impacts. The checklist is considered the first but not necessarily the only source of information needed to make an adequate threshold determination. Once a threshold determination is made, the lead agency is responsible for the completeness and accuracy of the checklist and other supporting documents.

## Use of checklist for nonproject proposals

For nonproject proposals (such as ordinances, regulations, plans and programs), complete the applicable parts of sections A and B, plus the Supplemental Sheet for Nonproject Actions (Part D). Please completely answer all questions that apply and note that the words "project," "applicant," and "property or site" should be read as "proposal," "proponent," and "affected geographic area," respectively. The lead agency may exclude (for non-projects) questions in "Part B: Environmental Elements" that do not contribute meaningfully to the analysis of the proposal.

https://ecology.wa.gov/Regulations-Permits/SEPA/Environmental-review/SEPA-guidance/Checklist-guidance

### A.Background

Find help answering background questions<sup>2</sup>

- 1. Name of proposed project, if applicable: Block #: 31N10W210
- 2. Name of applicant: Rayonier Forest Resources L.P.
- 3. Address and phone number of applicant and contact person:

116 Quillayute Road, Forks, WA 98331 Griffin Ollar (360) 463-4650

- 4. Date checklist prepared: January 17, 2024
- 5. Agency requesting checklist: Department of Natural Resources (DNR)
- 6. Proposed timing of schedule (including phasing, if applicable): 2024 2027
- 7. Do you have any plans for future additions, expansion, or further activity related to or connected with this proposal? If yes, explain.

Yes, upon completion of timber harvest, site will be reforested.

8. List any environmental information you know about that has been prepared, or will be prepared, directly related to this proposal.

Geotechnical Report prepared by E. Steven Toth, a Licensed Engineering Geologist, on file at DNR Olympic Region Office or available online the FPARS internet application review system. Geo report, SSIF, SSIF Maps are available on FPARS with FPA 2618267.

 Do you know whether applications are pending for governmental approvals of other proposals directly affecting the property covered by your proposal? If yes, explain.

10. List any government approvals or permits that will be needed for your proposal, if known.

DNR Forest Practice Permit (FPA)

FPA 2618267 is available on FPARS.

<sup>&</sup>lt;sup>2</sup> https://ecology.wa.gov/Regulations-Permits/SEPA/Environmental-review/SEPA-guidance/SEPA-checklist-guidance/SEPA-Checklist-Section-A-Background

11. Give brief, complete description of your proposal, including the proposed uses and the size of the project and site. There are several questions later in this checklist that ask you to describe certain aspects of your proposal. You do not need to repeat those answers on this page. (Lead agencies may modify this form to include additional specific information on project description.)

This proposal was initiated by Rayonier Forest Resources, L.P. to even-age harvest 121.8 acres of timber. The site is located approximately 14 miles west of Joyce, Washington. Timber harvest will occur on glacial deep-seated landslides and their groundwater recharge areas. These features are described in the geotechnical report along with analysis and recommendations for protection of the unstable features.

12. Location of the proposal. Give sufficient information for a person to understand the precise location of your proposed project, including a street address, if any, and section, township, and range, if known. If a proposal would occur over a range of area, provide the range or boundaries of the site(s). Provide a legal description, site plan, vicinity map, and topographic map, if reasonably available. While you should submit any plans required by the agency, you are not required to duplicate maps or detailed plans submitted with any permit applications related to this checklist.

On parts of: Sections 29, 30, 31, and 32, Township 31 North, Range 10 West, W.M. all in Clallam County, Washington.

Location of proposal matches FPA 2618267 Q7.

### **B.Environmental Elements**

### 1. Earth

Find help answering earth questions<sup>3</sup>

a. General description of the site:

Circle or highlight one: Flat, rolling, hilly, steep slopes, mountainous, other:

b. What is the steepest slope on the site (approximate percent slope)?

Steepest slope percentage matches FPA 2618267 Q19 steepest slope in harvest unit.

c. What general types of soils are found on the site (for example, clay, sand, gravel, peat, muck)? If you know the classification of agricultural soils, specify them, and note any agricultural land of long-term commercial significance and whether the proposal results in removing any of these soils.

Klahowya silt loam and Andeptic Udorthents which were observed in the field to range from well drained to poorly drained.

<sup>&</sup>lt;sup>3</sup> https://ecology.wa.gov/regulations-permits/sepa/environmental-review/sepa-guidance/sepa-checklist-guidance/sepa-checklist-section-b-environmental-elements/environmental-elements-earth

d. Are there surface indications or history of unstable soils in the immediate vicinity? If so, describe.

SSIF, SSIF Map, and Geo report available on FPARS with FPA 2618267.

Yes, there are inner gorge and deep-seated landslide features present on the site.

- e. Describe the purpose, type, total area, and approximate quantities and total affected area of any filling, excavation, and grading proposed. Indicate source of fill.

  None.
- f. Could erosion occur because of clearing, construction, or use? If so, generally describe.

Yes, minor amounts of erosion will occur associated with road use as well as timber harvest.

g. About what percent of the site will be covered with impervious surfaces after project construction (for example, asphalt or buildings)?

None.

h. Proposed measures to reduce or control erosion, or other impacts to the earth, if any.

Existing roads will be stabilized by improving ditches and replacing culverts.

The proponent agrees to follow all recommendations of the geotech report including proposed mitigation, which consists of leave areas are being retained along the toes and active portions of the glacial deep-seated landslides for the protection of public resources.

2. Air

Geo report is available on FPARS with FPA 2618267.

#### Find help answering air questions<sup>4</sup>

a. What types of emissions to the air would result from the proposal during construction, operation, and maintenance when the project is completed? If any, generally describe and give approximate quantities if known.

Insignificant amounts of engine exhaust from logging equipment and dust from the passage of log trucks.

b. Are there any off-site sources of emissions or odor that may affect your proposal? If so, generally describe.

No.

c. Proposed measures to reduce or control emissions or other impacts to air, if any:

<sup>&</sup>lt;sup>4</sup> https://ecology.wa.gov/Regulations-Permits/SEPA/Environmental-review/SEPA-guidance/SEPA-checklist-guidance/SEPA-Checklist-Section-B-Environmental-elements/Environmental-elements-Air

### 3. Water

### Find help answering water questions<sup>5</sup>

#### a. Surface:

Find help answering surface water questions<sup>6</sup>

 Is there any surface water body on or in the immediate vicinity of the site (including year-round and seasonal streams, saltwater, lakes, ponds, wetlands)? If yes, describe type and provide names. If appropriate, state what stream or river it flows into.

East Fork Deep Creek, a Type F tributary to Deep Creek, is located adjacent to the proposal to the south and west. There are several Type F and Type Ns streams which are tributary to East Fork Deep Creek located within the proposal.

2. Will the project require any work over, in, or adjacent to (within 200 feet) the described waters? If yes, please describe and attach available plans.

Yes. Hanging of cable lines will also occur over all streams. Equipment crossings and timber falling may occur in the Type Ns streams. Cable logging will occur within the Type Ns streams. Ground based logging will occur within the Type Ns streams.

3. Estimate the amount of fill and dredge material that would be placed in or removed from surface water or wetlands and indicate the area of the site that would be affected. Indicate the source of fill material.

None.

4. Will the proposal require surface water withdrawals or diversions? Give a general description, purpose, and approximate quantities if known.

No.

5. Does the proposal lie within a 100-year floodplain? If so, note location on the site plan.

No.

6. Does the proposal involve any discharges of waste materials to surface waters? If so, describe the type of waste and anticipated volume of discharge.

No

\_

<sup>&</sup>lt;sup>5</sup> https://ecology.wa.gov/Regulations-Permits/SEPA/Environmental-review/SEPA-guidance/SEPA-checklist-guidance/SEPA-Checklist-Section-B-Environmental-elements/Environmental-elements-3-Water

<sup>&</sup>lt;sup>6</sup> https://ecology.wa.gov/Regulations-Permits/SEPA/Environmental-review/SEPA-guidance/SEPA-checklist-guidance/SEPA-Checklist-Section-B-Environmental-elements/Environmental-elements-3-Water/Environmental-elements-Surface-water

#### b. Ground:

### Find help answering ground water questions<sup>7</sup>

1. Will groundwater be withdrawn from a well for drinking water or other purposes? If so, give a general description of the well, proposed uses and approximate quantities withdrawn from the well. Will water be discharged to groundwater? Give a general description, purpose, and approximate quantities if known.

No.

2. Describe waste material that will be discharged into the ground from septic tanks or other sources, if any (domestic sewage; industrial, containing the following chemicals...; agricultural; etc.). Describe the general size of the system, the number of such systems, the number of houses to be served (if applicable), or the number of animals or humans the system(s) are expected to serve.

None.

### c. Water Runoff (including stormwater):

1. Describe the source of runoff (including storm water) and method of collection and disposal, if any (include quantities, if known). Where will this water flow? Will this water flow into other waters? If so, describe.

Water intercepted by road ditches will be diverted through cross drains to the forest floor

2. Could waste materials enter ground or surface waters? If so, generally describe.

Yes, on rainy days sediment could enter streams.

3. Does the proposal alter or otherwise affect drainage patterns in the vicinity of the site? If so, describe.

No.

d. Proposed measures to reduce or control surface, ground, and runoff water, and drainage pattern impacts, if any:

Riparian buffers have been placed on Type F streams. Most Ns streams have an adjacent slope stability buffer. Logging near Ns streams is also subject to a 30-foot equipment limitation zone requirement. Follow recommendations listed in the geotech report.

https://ecology.wa.gov/Regulations-Permits/SEPA/Environmental-review/SEPA-guidance/SEPA-checklist-guidance/SEPA-Checklist-Section-B-Environmental-elements/Environmental-elements-3-Water/Environmental-elements-Groundwater

### 4. Plants

## Find help answering plants questions

a.	Check the types of vegetation found on the site:
	☑ deciduous tree: alder, maple, aspen, other
	☑ evergreen tree: fir, cedar, pine, other – hemlock, spruce
	⊠ shrubs
	⊠ grass
	□ pasture
	□ crop or grain
	☐ orchards, vineyards, or other permanent crops.
	☐ water plants: water lily, eelgrass, milfoil, other
	☐ other types of vegetation
b.	What kind and amount of vegetation will be removed or altered?
	121.8 acres of second growth timber with an estimated 2,436 mbf and approximately
	1,218 tons of biomass to be harvested. Type and amount of vegetation removal matches FPA 268267 Q19.
c.	List threatened and endangered species known to be on or near the site.
	None known. FPRAM review indicates no potential conflict with T&E plant species.
d.	Proposed landscaping, use of native plants, or other measures to preserve or enhance vegetation on the site, if any.
	None.
e.	List all noxious weeds and invasive species known to be on or near the site.
	None known.

### 5. Animals

### Find help answering animal questions<sup>8</sup>

a. List any birds and other animals that have been observed on or near the site or are known to be on or near the site.

**Examples include:** 

Birds: hawk, heron, eagle, songbirds, other:

Mammals: deer, bear, elk, beaver, other:

Fish: bass, salmon, trout, herring, shellfish, other:

b. List any threatened and endangered species known to be on or near the site.

None known.

FPRAM review indicates proposal is within MM detection area and within 1.5 mi occupied buffer.

c. Is the site part of a migration route? If so, explain.

All of Washington State is considered part of the Pacific Flyway. However, no impacts to migration routes are anticipated as a result of this proposal.

d. Proposed measures to preserve or enhance wildlife, if any.

RMZs and slope stability buffers will retain trees on the site for the benefit of fish and wildlife.

e. List any invasive animal species known to be on or near the site.

None known.

### 6. Energy and natural resources

Find help answering energy and natural resource questions9

a. What kinds of energy (electric, natural gas, oil, wood stove, solar) will be used to meet the completed project's energy needs? Describe whether it will be used for heating, manufacturing, etc.

N/A

b. Would your project affect the potential use of solar energy by adjacent properties? If so, generally describe.

No

c. What kinds of energy conservation features are included in the plans of this proposal? List other proposed measures to reduce or control energy impacts, if any.

<sup>&</sup>lt;sup>8</sup> https://ecology.wa.gov/Regulations-Permits/SEPA/Environmental-review/SEPA-guidance/SEPA-checklist-guidance/SEPA-Checklist-Section-B-Environmental-elements/Environmental-elements-5-Animals

<sup>&</sup>lt;sup>6</sup> https://ecology.wa.gov/Regulations-Permits/SEPA/Environmental-review/SEPA-guidance/SEPA-checklist-guidance/SEPA-Checklist-Section-B-Environmental-elements/Environmental-elements-6-Energy-natural-resou

### 7. Environmental health

### Health Find help with answering environmental health questions<sup>10</sup>

a. Are there any environmental health hazards, including exposure to toxic chemicals, risk of fire and explosion, spill, or hazardous waste, that could occur because of this proposal? If so, describe.

No.

1. Describe any known or possible contamination at the site from present or past uses.

None known.

2. Describe existing hazardous chemicals/conditions that might affect project development and design. This includes underground hazardous liquid and gas transmission pipelines located within the project area and in the vicinity.

None known.

3. Describe any toxic or hazardous chemicals that might be stored, used, or produced during the project's development or construction, or at any time during the operating life of the project.

None known.

4. Describe special emergency services that might be required.

Incidental EMS services may be required for the duration of the project.

5. Proposed measures to reduce or control environmental health hazards, if any.

None. If contamination occurs, the proponent should halt activities and notify the Department of Ecology.

### b. Noise

1. What types of noise exist in the area which may affect your project (for example: traffic, equipment, operation, other)?

None.

2. What types and levels of noise would be created by or associated with the project on a short-term or a long-term basis (for example: traffic, construction, operation, other)? Indicate what hours noise would come from the site)?

Logging – less than 85 dba – daylight hours only.

3. Proposed measures to reduce or control noise impacts, if any:

<sup>&</sup>lt;sup>10</sup> https://ecology.wa.gov/Regulations-Permits/SEPA/Environmental-review/SEPA-guidance/SEPA-checklist-guidance/SEPA-Checklist-Section-B-Environmental-elements/Environmental-elements-7-Environmental-health

### 8. Land and shoreline use

Find help answering land and shoreline use questions<sup>11</sup>

a. What is the current use of the site and adjacent properties? Will the proposal affect current land uses on nearby or adjacent properties? If so, describe.

Commercial forestland.

b. Has the project site been used as working farmlands or working forest lands? If so, describe. How much agricultural or forest land of long-term commercial significance will be converted to other uses because of the proposal, if any? If resource lands have not been designated, how many acres in farmland or forest land tax status will be converted to nonfarm or nonforest use?

Yes, working forest lands. None. None.

1. Will the proposal affect or be affected by surrounding working farm or forest land normal business operations, such as oversize equipment access, the application of pesticides, tilling, and harvesting? If so, how?

No.

c. Describe any structures on the site.

None.

d. Will any structures be demolished? If so, what?

No.

e. What is the current zoning classification of the site?

Commercial forestland.

f. What is the current comprehensive plan designation of the site?

Commercial forestland.

- g. If applicable, what is the current shoreline master program designation of the site?

  N/A
- h. Has any part of the site been classified as a critical area by the city or county? If so, specify.

No.

- Approximately how many people would reside or work in the completed project?
   Zero.
- j. Approximately how many people would the completed project displace?
  Zero.

<sup>&</sup>lt;sup>11</sup> https://ecology.wa.gov/Regulations-Permits/SEPA/Environmental-review/SEPA-guidance/SEPA-checklist-guidance/SEPA-Checklist-Section-B-Environmental-elements/Environmental-elements-8-Land-shoreline-use

k. Proposed measures to avoid or reduce displacement impacts, if any.

N/A

I. Proposed measures to ensure the proposal is compatible with existing and projected land uses and plans, if any.

Follow all applicable laws.

m. Proposed measures to reduce or control impacts to agricultural and forest lands of long-term commercial significance, if any:

Follow all applicable laws.

### 9. Housing

Find help answering housing questions<sup>12</sup>

a. Approximately how many units would be provided, if any? Indicate whether high, middle, or low-income housing.

None.

b. Approximately how many units, if any, would be eliminated? Indicate whether high, middle, or low-income housing.

None.

c. Proposed measures to reduce or control housing impacts, if any:

N/A

#### 10. Aesthetics

Find help answering aesthetics questions<sup>13</sup>

a. What is the tallest height of any proposed structure(s), not including antennas; what is the principal exterior building material(s) proposed?

N/A

b. What views in the immediate vicinity would be altered or obstructed?

None.

c. Proposed measures to reduce or control aesthetic impacts, if any:

 $<sup>^{12}\</sup> https://ecology.wa.gov/Regulations-Permits/SEPA/Environmental-review/SEPA-guidance/SEPA-checklist-guidance/SEPA-Checklist-Section-B-Environmental-elements/Environmental-elements-9-Housing$ 

<sup>&</sup>lt;sup>13</sup> https://ecology.wa.gov/Regulations-Permits/SEPA/Environmental-review/SEPA-guidance/SEPA-checklist-guidance/SEPA-Checklist-Section-B-Environmental-elements/Environmental-elements-10-Aesthetics

### 11. Light and glare

Find help answering light and glare questions<sup>14</sup>

a. What type of light or glare will the proposal produce? What time of day would it mainly occur?

None.

b. Could light or glare from the finished project be a safety hazard or interfere with views?

No.

- c. What existing off-site sources of light or glare may affect your proposal?
  None.
- d. Proposed measures to reduce or control light and glare impacts, if any:

  None.

#### 12. Recreation

Find help answering recreation questions

a. What designated and informal recreational opportunities are in the immediate vicinity?

Hunting

b. Would the proposed project displace any existing recreational uses? If so, describe.

The proposal will enhance deer and elk hunting opportunities for the foreseeable future.

c. Proposed measures to reduce or control impacts on recreation, including recreation opportunities to be provided by the project or applicant, if any:

None.

### 13. Historic and cultural preservation

Find help answering historic and cultural preservation questions<sup>15</sup>

a. Are there any buildings, structures, or sites, located on or near the site that are over 45 years old listed in or eligible for listing in national, state, or local preservation registers? If so, specifically describe.

No

FPRAM review indicates no conflict with cultural or historical resources or sites.

https://ecology.wa.gov/Regulations-Permits/SEPA/Environmental-review/SEPA-guidance/SEPA-checklist-guidance/SEPA-Checklist-Section-B-Environmental-elements/Environmental-elements-11-Light-glare
 https://ecology.wa.gov/Regulations-Permits/SEPA/Environmental-review/SEPA-guidance/SEPA-checklist-guidance/SEPA-Checklist-Section-B-Environmental-elements/Environmental-elements-13-Historic-cultural-p

- b. Are there any landmarks, features, or other evidence of Indian or historic use or occupation? This may include human burials or old cemeteries. Are there any material evidence, artifacts, or areas of cultural importance on or near the site? Please list any professional studies conducted at the site to identify such resources.
  - No FPRAM review indicates no conflict with archaeological or cultural sites or resources.
- c. Describe the methods used to assess the potential impacts to cultural and historic resources on or near the project site. Examples include consultation with tribes and the department of archeology and historic preservation, archaeological surveys, historic maps, GIS data, etc.

None.

d. Proposed measures to avoid, minimize, or compensate for loss, changes to, and disturbance to resources. Please include plans for the above and any permits that may be required.

None.

### 14. Transportation

Find help with answering transportation questions<sup>16</sup>

- a. Identify public streets and highways serving the site or affected geographic area and describe proposed access to the existing street system. Show on site plans, if any.
  - Proposal can be accessed by Highway 112 and private logging roads.
- b. Is the site or affected geographic area currently served by public transit? If so, generally describe. If not, what is the approximate distance to the nearest transit stop?

No.

c. Will the proposal require any new or improvements to existing roads, streets, pedestrian, bicycle, or state transportation facilities, not including driveways? If so, generally describe (indicate whether public or private).

Yes, approximately 21,780 feet of forest road will be improved and approximately 875 feet of forest road will be constructed.

Proposed new construction matches FPA 2618267 Q16.

d. Will the project or proposal use (or occur in the immediate vicinity of) water, rail, or air transportation? If so, generally describe.

No

\_

<sup>&</sup>lt;sup>16</sup> https://ecology.wa.gov/Regulations-Permits/SEPA/Environmental-review/SEPA-guidance/SEPA-checklist-guidance/SEPA-Checklist-Section-B-Environmental-elements/Environmental-elements-14-Transportation

e. How many vehicular trips per day would be generated by the completed project or proposal? If known, indicate when peak volumes would occur and what percentage of the volume would be trucks (such as commercial and nonpassenger vehicles). What data or transportation models were used to make these estimates?

None.

f. Will the proposal interfere with, affect, or be affected by the movement of agricultural and forest products on roads or streets in the area? If so, generally describe.

No

None.

g. Proposed measures to reduce or control transportation impacts, if any:

### 15. Public services

### Find help answering public service questions<sup>17</sup>

a. Would the project result in an increased need for public services (for example: fire protection, police protection, public transit, health care, schools, other)? If so, generally describe.

No

b. Proposed measures to reduce or control direct impacts on public services, if any.

None

#### 16. Utilities

### Find help answering utilities questions<sup>18</sup>

a. Circle utilities currently available at the site: electricity, natural gas, water, refuse service, telephone, sanitary sewer, septic system, other:

None

b. Describe the utilities that are proposed for the project, the utility providing the service, and the general construction activities on the site or in the immediate vicinity which might be needed.

None

1

https://ecology.wa.gov/regulations-permits/sepa/environmental-review/sepa-guidance/sepa-checklist-guidance/sepa-checklist-section-b-environmental-elements/environmental-elements-15-public-services
 https://ecology.wa.gov/regulations-permits/sepa/environmental-review/sepa-guidance/sepa-checklist-guidance/sepa-checklist-section-b-environmental-elements/environmental-elements-16-utilities

### **C.Signature**

Find help about who should sign<sup>19</sup>

The above answers are true and complete to the best of my knowledge. I understand that the lead agency is relying on them to make its decision.

Type name of signee: Griffin Oller

Position and agency/organization: Forest Engineer, Rayonier
Date submitted: 1/26/24

<sup>19</sup> https://ecology.wa.gov/Regulations-Permits/SEPA/Environmental-review/SEPA-guidance/SEPA-checklistguidance/SEPA-Checklist-Section-C-Signature
