GEOLOGIC MAPS OF WASHINGTON

The list below is in alphabetical order by quadrangle name and gives abbreviated versions of author(s), year published, publisher, series, and series number. It is followed by "References by Author" for a complete citation. Blue tint indicates links to those maps that are online. All other published maps may be consulted at the [Washington Geology Library](#). Digital coverage of the entire state at 1:100,000-scale is available through our [GIS data page](#). In-print DGER formal publications are available through the [Department of Printing](#). See our [Publications List](#) for more information.
