Geologic Map of the College Place and Walla Walla 7.5-minute Quadrangles, Walla Walla County, Washington, and Umatilla County, Oregon

by Robert E. Durek, Dale F. Stedding, Kevin A. Lindsay, and Terry L. Tolan

June 2006

Table 1. Geochemical analyses of four samples from the College Place and Walla Walla area were performed at the Washington State University GeoAnalytical Earth Resources. The majority of sediments exposed in the two quadrangles are Quaternary—River Basalt Group. Lab. Instrumental precision is described in Johnson and others (1999). Total Fe is expressed as FeO. Only sample WW16 is from within the map area. WW11 and...
