

Reiter Non-Motorized Trails Public Meeting

- Comments/Thoughts:
 - Thank you for the presentation. I know more about the department and the considerations you must have to plan how to develop recreation and timber harvest.
 - As an equestrian, I'm excited about the potential of Reiter.
 - Some wishes include: loop trails of varying lengths and difficulty, good parking with room for trucks and trailers, access perhaps to part of the park.

- Look into Trust Land Transfer for wetland area bordering State Park Land east of Wallace Lake.

- Look at old RR grade going east from near the viewpoint loop west of May Creek.

- Parking at old Reiter Pit.

- Why is lack of recent TLT a factor in pursuing it now? It's better to get a "NO" than not ask.
