**Notice of Final Determination
'Good Golly' Timber Sale
Agreement #30-100647
SEPA File No. 20-092305
FP No. 2616668**

The Department of Natural Resources issued a Determination of Non-significance (DNS), Mitigated Determination of Non-significance (MDNS), Modified DNS/MDNS on **September 23, 2020** for this proposal under the State Environmental Policy Act (SEPA) and WAC 197-11-340(2).

This threshold determination is hereby:

Retained.

Modified. Modifications to this threshold determination include the following:

Withdrawn. This threshold determination has been withdrawn due to the following:

Delayed. A final threshold determination has been delayed due to the following:

Summary of Comments and Responses (if applicable):

Comments that were received and reviewed include:

- Marcy Golde (9-25-2020),
- Kara Whittaker (two comments received: 9-25-2020 and 10-7-2020),
- Department of Ecology, Solid Waste Management (10-7-2020), and
- Olympic Forest Coalition (Catharine Copass; 10-7-2020).

Notification Response

Notifications for Forest Practices Applications and Notifications are distributed through the Forest Practices Application Review System (FPARS). For information on how to sign up for FPARS or use the FPA/N Search, please see <https://www.dnr.wa.gov/programs-and-services/forest-practices/forest-practices-application-review-system-fpars>

Marbled Murrelets Response

The Department of Natural Resources' Long-Term Conservation Strategy (LTCS) was followed. In addition, notifications were sent to WDFW Biologists for review. The proponent has self-conditioned for marbled murrelet timing restrictions.

Washington Natural Heritage Program Plant Communities Response

The Washington Natural Heritage Program (WNHP) was notified of potential conflicts and replied that they have no comments (no conflict).

Potentially Unstable Slopes Response

The FPA/N was submitted with the "Engineering Geologic Risk Assessment Good Golly Timber Sale," prepared by a Licensed Engineering Geologist (LEG) who meets the requirements for "qualified expert" under WAC 222-10-030 (5). Additionally, Forest Practices Forester and Forest Practices Licensed Geologist (qualified expert) reviewed the FPA/N remotely and in the field. The Forest Practices Geologist determined that site conditions observed in the field appeared to be consistent with descriptions provided in the qualified expert report submitted with the FPA.
