

DETERMINATION OF NONSIGNIFICANCE

Description of proposal: This revision of an existing DNR reclamation permit (#70-011346) would allow for importation of up to 4.5 million cubic yards of clean backfill materials to be used in slope stabilization and enhancing reclamation of the mine; and would also add a new 40 acre area north of the existing mine for continued quarry production. Backfill material will originate from construction projects in King and Snohomish counties. All mining will occur above the water table. The mine will be reclaimed to industrial and forestry uses.

Proponent: Cadman, Inc.

Location of proposal, including street address, if any: The site is located adjacent to SR 203 approximately two and a half miles south of the city of Monroe, Washington in Snohomish County. 19221 High Rock Road, Monroe, WA. Maps included in this reclamation revision depict the proposed location. SE $\frac{1}{4}$ of Section 13 and the NE $\frac{1}{4}$ of Section 24 Township 27N Range 6E, and the SW $\frac{1}{4}$ of Section 18 and the NE $\frac{1}{4}$, NW $\frac{1}{4}$ and SW $\frac{1}{4}$ of Section 19, Township 27 N, Range 7E, W.M., Snohomish County.

Lead agency: Department of Natural Resources

The lead agency for this proposal has determined that it does not have a probable significant adverse impact on the environment. An environmental impact statement (EIS) is not required under RCW 43.21c.030(2)(c). This decision was made after review of a completed environmental checklist and other information on file with the lead agency. This information is available to the public on request.
