

Type N Motion

As written by the TFW Policy Committee at the August 31, 2017 meeting.

Tabled for voting until the October 5/6 meeting.

Motion: Policy recommends resolution of the Type Np/Ns regulatory break methodology, through DNR's stakeholder process, for development of the Board Manual to determine in-field method(s)¹ and remote method(s) for locating the uppermost point of perennial flow.

¹ To determine the UMPPF from the field regardless of season.
