Minutes
Board of Natural Resources Meeting
April 7, 2020
Webinar, Olympia, Washington

BOARD MEMBERS PRESENT
The Honorable Hilary Franz, Washington State Commissioner of Public Lands
The Honorable Bill Peach, Commissioner, Clallam County
The Honorable Chris Reykdal, Superintendent of Public Instruction
Jim Cahill, Designee for the Honorable Jay Inslee, Washington State Governor
Dan Brown, Director, School of Environmental and Forest Sciences, University of Washington
André-Denis Wright, Dean, College of Agricultural, Human, and Natural Resource Sciences, Washington State University

CALL TO ORDER
Chair Franz called the meeting to order at 9:00 AM.
All Board members introduced themselves. Chair Franz noted there was a quorum for the meeting.

WEBINAR FORMAT BRIEFING
Ms. Anderson provided an overview of conducting the meeting via Webinar.

APPROVAL OF MINUTES
Chair Franz called for approval of the minutes for the March 3, 2020 Regular Board of Natural Resources Meeting.

MOTION: Dean Wright moved to approve the minutes.
SECOND: Mr. Cahill seconded the motion.
ACTION: The motion carried unanimously.

PUBLIC COMMENTS FOR GENERAL ITEMS OF INTEREST
Miguel Perez-Gibson, Forest Policy Advisor, WEC, spoke about their interest in having a role in drafting a carbon policy for the state, and also shared that they are interested in how the Board responds to the management of the timber sale program. He reminded the Board that they can
vary the sustained yield down by 25%, noting the market shift. He also shared WEC’s interest in how the Department will implement the ITP for the MM LTCS.

Dan Chaplik, Superintendent of the Sultan School District, expressed support for the Middle May timber sale.

Beverly Parsons, citizen of Hansville, WA, and member of KEC, spoke about the policies the Department is operating under, and shared that they are decades old. She voiced concerns that deforestation has an immense impact and that the Board should think about regeneration.

Bill Turner, Washington Log Procurement Manager for Sierra Pacific Industries, expressed his disappointment with the delay of the Middle May timber sale.

Margaret Tuft, spoke about the policies the Department operates under, adding that they are outdated. She would like the Department to consider thinning instead of clear cutting, and to also explore options to generate revenue.

Matt Comisky, Washington Manager for the American Forest Resource Council, expressed his disappointment that the Middle May timber sale is not included in the timber sales packet, as anticipated.

He stated that in previous comments he has addressed the multiple-use act and its requirement that the beneficiaries must be compensated when recreation negatively impacts the revenue generation of trust lands.

He also touched on another topic that had been raised. Washington State Parks acknowledgment of the various management objectives of the landowners around Wallace Falls State Park, including the management of working forests. Recreation, both motorized and non-motorized, is not mutually exclusive with active forest management. They can and do co-exist in a variety of landscapes around Washington State. In the case of Middle May, Trust Lands managed by DNR can provide a varied recreational experience from Wallace Falls and other lands in the vicinity. But this must not come at the expense of the beneficiaries.

He summarized that DNR has conducted extensive public outreach, sought the input of various stakeholders, including those opposed to this sale and management in this vicinity, and complied with the HCP, State Forest Practices Act, and completed an extended SEPA process with the recent release of the Notice of Final Determination. We encourage the Department and this Board to move Middle May forward.

Doug Cooper, Vice-President of Resources Hampton Lumber, spoke about the law the Governor signed on March 25 that established legislation that recognizes the essential role that the State’s forestry industry and working forests play in removing greenhouse gases from the atmosphere.

Ed Bowen, spoke about the Foot Trail timber sales and the continued issue with the easement with the Forest Service and the pending cost share agreement. He also spoke about the timber sale approved at the December 3, 2019 meeting and how it will be implemented.
PUBLIC COMMENTS FOR TIMBER SALE ACTION ITEMS

Sam Chesley, resident of Goldbar, WA, thanked staff for setting up the Webinar and for continuing to allow public comment. He expressed appreciation for the delay of the Middle May timber sale, and the hopes of a new management plan for the Reiter Forest. He shared the threat of reduced tourism economy is very real and that the citizens of Goldbar rely on this income to survive.

Reed Blanchard, expressed his appreciation of the Webinar. He asked that the Board delay the City Skidder timber sale, due to an incomplete application.

Beverly Parsons, spoke about the City Skidder timber sale and reinforced the comments of Reed Blanchard. She also stated that she feels there was a lack of opportunity for public comment.

Margaret Tuft, shared her opposition of the City Skidder timber sale and requested a delay in consideration for approval.

Stephen Kropp, spoke about the timber sale program and shared concerns with City Skidder and Iconic Sorts.

Matt Comisky, Washington Manager, AFRC, shared the appreciation and gratitude of AFRC members for the efforts that the product sales team has proactively taken to this point.

Doug Cooper, Vice-President of Resources, Hampton Lumber, spoke about the Middle May timber sale, and thanked the staff for the hard work they have done.

Lisa Hurt, spoke about Climate Resiliency Plan and shared that it appears to focus more on income. She stated that the Department should stop clear cutting and look into sustainable forestry and other opportunities to generate revenue.

TIMBER SALES (Action Item)

Proposed Timber Sales for May 2020 | 3 handouts, including the presentation

Patrick Ferguson, Product Sales & Leasing Division

The results of the March 2020 auctions were presented to the Board by Mr. Ferguson. The Department offered 14 sales totaling 61.2 mmbf. Of those, 9 sales sold totaling $14.0 million for an average of $318 per mbf with 2.3 bidders per sale on average.

Mr. Ferguson asked for questions.

Mr. Cahill asked how Covid-19 may have affected sales.

Mr. Ferguson shared that it is hard to tell, but sales did have multiple bidders. He added that there is interest in the unsold sales, but purchasers were unable to get on board with the appraised prices. Mr. Ferguson noted that the prices from the March survey were down and some mills are experiencing curtailments and small closures. Issues are being seen, but there is still interest and a need for wood.
Mr. Ferguson then presented a graph showing planned, offered, and sold volume for each quarter of fiscal year 20. Mr. Ferguson noted that the FY20 reoffers cause the sum of all the volumes to be greater than the planned 512 mmbf.

Commissioner Franz asked for questions.

Commissioner Peach asked if the monthly flow of volume would be steady from now until the end of the calendar year.

Mr. Ferguson explained that the Department is trying to adhere to the original plan, adding that the 4th quarter volume shown is a bit higher than originally planned. The following fiscal year is planned for a similar trend as the one shown, with lower volume in the 1st quarter followed by most of the volume in the 2nd and 3rd quarter. Mr. Ferguson added that the Department is actively reviewing the flow of sales to align with market trends.

Mr. Ferguson shared a graph of planned, offered, and sold volume remaining from fiscal year 19, noting that one fiscal year 19 sale is planned to be reoffered in fiscal year 21. Mr. Ferguson asked for questions.

Commissioner Peach asked for clarification that the anticipated arrearage for fiscal year 19 is zero.

Mr. Ferguson confirmed that the intent is to sell all the fiscal year 19 volume.

Mr. Ferguson then presented proposed sales to be offered in May 2020 to the Board.

Mr. Ferguson asked for approval of the proposed sales as presented.

Commissioner Franz asked for questions. There were none.

MOTION: Commissioner Peach moved to approve the proposed sales.

SECOND: Dean Wright seconded the motion.

ACTION: The motion carried unanimously.

Meeting adjourned at 10:11 AM.
Approved this 7th day of July, 2020.

Hilary S. Franz, Washington State Commissioner of Public Lands
