TIMBER EXCISE TAX:

Purchaser must pay the forest excise taxes associated with the log sorts delivered to them. The tax rate for this sale is 4.2%. Taxable Stumpage = Total Delivered Value – (Harvest Cost + Estimated Haul Cost + ARRF). For more information contact the Department of Revenue, Forest Tax Section at 1-800-548-8829.

Use the following rates for estimating taxable stumpage:

Harvest Cost = $0.00 per MBF for sorts 01, 02, 03, 04, 06, 07, 09 and 10, $10.00 per Ton for sorts 11 and 12 and $12.00 per Ton for sort 05.

Hauling Services Payment Rate per Ton

ARRF = $0.00 per MBF for sorts 11 and 12 and $26.75 per MBF for sorts 01, 02, 03, 04, 05, 06, 07, 09 and 10.

CONFIRMATION:

Each sort is subject to confirmation following auction. Sorts will not be confirmed until at least 10 days after auction. Final contract award is contingent upon the State’s haul cost analysis. Actual haul route may vary and is subject to change at the State’s discretion.

Logs will be delivered to the Purchaser’s delivery location by the State’s contract harvester. Purchaser is responsible for weighing and scaling costs. Schedule B
Thinning Prescription

Unit 3 RMZ and Unit 3 WMZ:

While maintaining a minimum of 130 trees per acre (tpa) at approximately an 18 X 18 foot spacing, starting with smallest diameter trees and working up to the largest (thin from below) to ensure that smaller diameter trees are harvested first to meet spacing requirements, cut all:
- hardwoods, and
- silver fir less than 17.5 inches diameter at breast height (dbh), and
- western hemlock less than 13 inches dbh, and
- western redcedar less than 12 inches dbh.

Trees with blue special management area tags are subject to the corresponding prescription.

Retain all snags greater than or equal to 20 inches dbh and 20 feet tall, except where it cannot be accomplished safely. Three conifer trees per acre of RMZ (which equates to 5 trees), from the largest dbh class, shall be felled towards the stream where feasible to remain as LWD. Two conifer trees per acre of RMZ (which equates to 3 trees) will be double girdled where feasible for snag recruitment. The Purchaser shall mark and fall upon review/approval of the Contract Administrator. These trees shall be marked in the treated area within 25 feet of the white “timber sale boundary” tags (25’ to 50’ from the stream channel).

SPECIAL THINNING CONDITIONS:
In areas where thinning is not necessary (i.e., prescription is met), do not put in corridors. Harvested openings may not exceed 25 feet.

CERTIFICATION OF FALLERS AND YARDER OPERATORS – SEE CLAUSE H-011 OF THE CONTRACT.
The Contract Administrator and Faller/Harvester Operator will jointly review the take tree selection criteria as outlined in Schedule B of the contract.

In conjunction with the Contract Administrator, the Faller/Harvester Operator will mark a designated area as a test plot within the sale area boundary. Satisfactory thinning of the test plot completes the certification process. Certification may be revoked at any time by Contract Administrator if Contract Administrator determines that the prescription is not being implemented properly.

BIDDING PROCEDURES: A separate sealed bid and envelope must be submitted for each log sort. Prospective Purchasers may bid on any or all log sorts. On the day of sale the Purchaser must bring their bid deposit up to 10% of their total bid price. Complete bidding procedures and auction information may be obtained from the Northeast Region Office in Colville WA. Phone number (509)684-7474.

TIMBER EXCISE TAX: Purchaser must pay the forest excise taxes associated with the log sorts delivered to them. The tax rate for this sale is 4.2 %. Taxable Stumpage = Total Delivered Value – (Harvest Cost + Estimated Haul Cost + ARRF). For more information contact the Department of Revenue, Forest Tax Section at 1-800-548-8829.

Use the following rates for estimating taxable stumpage:

Harvest Cost = $0.00 per Ton for sorts 01, 02, 03, 04, 05, 06, 07 and 08 and $13.00 per Ton for sort 09.

Hauling Services Payment Rate per Ton = (Base Rate + Mileage Rate) x (Contractor's hauling bid factor)

Base Rate = $2.35 per ton

Mileage Rate = (($0.16 x C miles) + ($0.11 x A miles)) x Fuel Index Factor

ARRF does not apply.

Note: To calculate AARF rates per ton use the tons\mbf conversion factor in the table above.

CONFIRMATION: Each sort is subject to confirmation following auction. Sorts will not be confirmed until at least 10 days after auction. Final contract award is contingent upon the State’s haul cost analysis. Actual haul route may vary and is subject to change at the State’s discretion.

Logs will be delivered to the Purchaser’s delivery location by the State’s contract harvester. Purchaser is responsible for weighing and scaling costs. All tonnage loads will be weighed and all mbf loads will be scaled at State approved locations. The State reserves the right to determine where logs are authorized to be scaled and weighed.
