

Appendix D. Slope Stability Informational Form

Complete and submit this form with your FPA/N if you indicated you are working in or around potentially unstable slopes or landforms.

- Instructions for Appendix D. Slope Stability Informational Form is located in the Forest Practices Application/Notification Instructions document.
- Refer to WAC 222-16-050(1)(d) and Forest Practices Board Manual Section 16 - *Guidelines for Evaluating Potentially Unstable Slopes* for definitions and descriptions of potentially unstable slopes or landforms.

1.a. What preliminary screening tools were used to identify unstable slopes or landform features in and/or around your proposal?

- Aerial Photo LiDAR Landslide Inventory GIS Field Review
 Forest Practices Application Mapping Tool (FPAMT) Resource Map Other. Describe:

b. Did any of the features identified during the preliminary screening not exist when you performed a field review?

- No. Yes. Describe:

2.a. Are you conducting forest practices activities in or over potentially unstable slopes or landforms?

- No. Skip to Question 3.a Inner Gorge Bedrock Hollow Convergent Headwall
 Groundwater recharge area of glacial deep-seated landslides Outer edges of meander bends
 Toe of deep-seated landslide with slopes $\geq 65\%$ Category E. Describe in "Other" below.
 Other. Describe:

b. What activities may occur in or over potentially unstable slopes or landforms? Check all that apply and describe in the space provided. See FPA/N instructions.

- Timber Harvest Road Construction Road Maintenance Suspending Cables
 Yarding Tailholds Other

Describe:

3.a. Are you conducting forest practices activities around potentially unstable slopes or landforms?

- No. Skip to Question 4.a Inner Gorge Bedrock Hollow Convergent Headwall
 Groundwater recharge area of glacial deep-seated landslides Outer edges of meander bends
 Toe of deep-seated landslide with slopes $\geq 65\%$ Category E. Describe in "Other" below.
 Other. Describe:

b. What activities may occur around potentially unstable slopes or landforms? Check all that apply and describe in the space provided. See FPA/N instructions.

- Timber Harvest Road Construction Road Maintenance Suspending Cables
 Yarding Tailholds Other

Describe:

4.a. Were any features identified in Question 3.a. excluded from your forest practices activity?

- No. Skip to Question 5 Yes. Continue to Question 4.b

b. Describe the field indicators you used to exclude potentially unstable slopes or landforms from your forest practices activity (*example*: harvest boundary was placed a crown width away from the break in slope of the inner gorge):

5. Are there areas of public use located in or around the area of your proposed forest practices activity?

- No. Yes. Check all that apply and show locations on map (Question 7).

- Public Road(s) Utilities Designated Recreation Area(s) Structure(s)
 Other. Describe:

6. Complete the table below with date(s) and person(s) that conducted field review(s):

Date	Name	Title/Position

7. Attach a map showing the following:

- All areas reviewed.
- Locations of unstable slopes and landforms that were identified as described in Question 2.a. and 3.a.
- Locations where areas of public use exist as described in Question 5 above.

This map is intended to be developed by the field practitioner.

This can be a forest practices activity map, harvest map, or GIS map – See FPA/N instructions for example map.
