QUALIFIED EXPERT LIST

This Qualified Expert (QE) List includes QEs engaged in private practice that provide professional services to assist in the preparation of Forest Practices Applications (FPA/Ns). A list of QEs employed by government agencies is not available for public distribution at this time. Names listed below are those who have submitted their qualifications to DNR Forest Practices for review, and appear to meet requirements for “qualified expert” under WAC 222- 10-030 (5). *“Qualified expert for the purposes of this section means a person licensed under chapter 18.220 RCW as either an engineering geologist or as a hydrogeologist (if the site warrants hydrologist expertise), with 3 years of field experience in the evaluation of relevant problems in forested lands.”*

An active engineering geologist license in good standing is required to practice geology associated with forestry activities. To determine if a person’s engineering geologist license is current, check the Department of Licensing web site at <https://www.dol.wa.gov/business/checkstatus.html> and click on “Search business and professional licenses”.

"Eng Geo" = engineering geologist license

"Hydrogeo" = hydrogeologist license, not usually necessary for forest practices work. To acquire a specialty license, a geology license is required. All are licensed geologists.
