Webster Forest Nursery Seedling Sales Guidelines for Winter 2020-21

As of the 2019-20 planting season, the nursery no longer processes orders on a first–come, first-served basis.

To order seedlings for the 2020–21 planting season

1. **From August 1, 2020 to August 31, 2020** – Email or mail the form to place your name on the seedling register. We will need your name, preferred contact method (email address or phone number), and what you would like to purchase: quantity, species, stock type, county where they will be planted, and elevation.

   **For new customers, please include billing and shipping address if applicable.**

2. Seedling registration will close at 3 p.m. Monday, August 31, 2020.

3. On Tuesday, September 1, 2020, all customers on the seedling register will be assigned a random number.

4. Customers will be contacted by their preferred method in the order of the randomized list to place their order.

5. If we are unable to contact you, we will leave a message and it will be your responsibility to get back to us. We will monitor email and voice messages and will make every attempt to get back to you promptly, but ultimately, it will be your responsibility to respond. Also, depending on the number of customers on the register, it will take about one week or more to get through the list.

6. The maximum quantity of seedlings per order will be determined prior to September 1, 2020, based on the seedling inventory and the number of customers on the seedling register.

7. Customers who try to purchase seedlings after registration is closed will be placed at the bottom of the register.

8. After all the registered customers have had an opportunity to order seedlings, then the quantity limits will be increased or eliminated and customers can order additional seedlings. Check the Webster Nursery website on October 1, 2020, for more information: dnr.wa.gov/programs-andservices/forest-resources/webster-forest-nursery

It is up to the customer to choose the pick-up or shipping date (starting in the third week of December, depending on weather conditions).
