PURCHASER’S CORNER

****NEW TOOL FOR PURCHASER’S****

The Department of Natural Resources (DNR) has designed a Query tool to assist prospective Purchaser's in identifying DNR timber sales that meet their needs. The timeframe for the Query is the current month plus the next two months. For example, February, March and April. The tool allows the user to look at sale specifics such as: Region the sale or sales are in, species, average DBH range, rings per inch, percentage of a species in the sale and percentage of grade.

The Query uses dropdown menus to make choices. Instructions are available by clicking on the "user documentation" in the bottom left on the query page or clicking the "Query Instructions" link on the query page which is located at:
http://www.dnr.wa.gov/htdocs/fr/sales/query.html
