#### March 2021

Following the Board of Natural Resources' approval on February 2, 2021, full sale preview packets for those newly approved sales being offered for auction in March have been uploaded to the [March 2021 auction page](#).

Also, shapefiles and geo-referenced pdf maps (GeoPDFs) for use with mobile mapping applications for all sales planned for auction are available on the [Department's File Sharing Site](#).

#### April 2021 Early Sale Previews

Early draft sale preview packets for currently planned April 2021 sales have been added to the Early Timber Sale Preview page. Please carefully read all the disclaimers regarding draft documents on this page. Additionally, there is a short delay when opening each packet due to a script that time stamps the document. Thank you for your patience with load times.

As we enter the snowy season in the higher elevations, additional sales further out in the planned schedule may be added to the early preview page as available. It is likely separate notifications will not be sent out for these additions. Interested parties are encouraged to monitor the early preview site.
