Washington State Department of Natural Resources (DNR)

Bidder's/Purchaser's Inspection of Sale Area and Forest Products

Acreage estimates and volume estimates contained within each timber notice of sale and each timber sale contract are made only for administrative and identification purposes. Except as expressly provided by the timber sale contract, the purchaser shall be responsible for paying the entire purchase price, even if the actual acreage or timber volume varies from the estimated quantity or volume shown.

All prospective bidders have the opportunity and are expected to inspect the sale area and the forest products located thereon. Bidders shall not rely on any representations by the State including, but not limited to, acreage estimates, volume estimates, appraisal or prebid documentation. The successful bidder/purchaser will further warrant that they have entered the timber sale contract without any reliance upon the DNR's volume estimates, acreage estimates, appraisals, pre-bid documentation, or any other representation by the DNR.

Any timber sale contract arising out of these public auctions will require the successful purchaser to warrant that they are entering the timber sale contract based solely upon their own judgment of the value of the forest products, formed after their own examination and inspection of both the timber sale area and the forest products being sold.

Exclusion and Disclaimer of Warranties

The PARTIES AGREE that the IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, and ALL OTHER WARRANTIES EXPRESS OR IMPLIED, ARE EXCLUDED from this transaction, and shall not apply to the goods sold. For example, THE FOLLOWING SPECIFIC MATTERS ARE NOT WARRANTED, and are EXCLUDED from this transaction:

a. *The merchantability of the forest products*. The use of the term "merchantable" in any document is not intended to vary the foregoing.

b. The condition of the forest products. All forest products will be conveyed "AS IS."

c. *The acreage contained within any sale area*. Any acreage descriptions appearing in the timber notices of sale, timber sale contract, timber sale map or other documents are estimates only, provided solely for administrative and identification purposes.

d. *The volume, quality, or grade of the forest products*. The descriptions of the forest products to be conveyed are estimates only, made solely for administrative and identification purposes.

e. *The correctness of any soil or surface conditions, presale construction appraisals, investigations, and all other pre-bid documents prepared by or for the State.* These documents have been prepared for the State's appraisal purposes only.

f. *That the sale area is free from threatened or endangered species, or their habitat.* The State is not responsible for any interferences with forestry operations that result from the presence of any threatened or endangered species, or the presence of their habitat, within the sale area.

g. *That the forestry operations to be performed under this contract will be free from regulatory actions by governmental agencies.* The State is not responsible for actions to enforce regulatory laws, such as the Washington Forest Practices Act (Chapter 76.09 RCW), taken by the Department of Natural Resources or any other agency that may affect the operability of these timber sales.

h. Items contained in any other documents prepared for or by the State.

Please also see timber sale contract clause G-060 for further information.

BIDDING PROCEDURES FOR TIMBER AUCTIONS

The general requirements that follow are a part of all Timber Notices of Sale to be auctioned by the Department of Natural Resources (DNR).

General Information

The State reserves the right to waive minor irregularities and the right to reject any or all bids.

A. This book contains the timber notices of sale and maps for each timber sale scheduled to be auctioned. More specific information can be obtained by contacting the appropriate region office at the number listed on the back cover of this book.

B. The timber notice of sale is a summary of sale information. For more specific information, interested parties are encouraged to view the Appraisal Packets on the DNR Internet Site @ www.dnr.wa.gov, this will take you directly to the Product Sales Section. The Appraisal Packets contain **DRAFT** copies of the timber notice of sale, map, contract, road plan, cruise data, precruise and cruise narrative, Forest Practices Application (FPA), Hydraulics Project Approval (HPA).

C. The sale preview packets may be obtained at no charge for individual sales by visiting the appropriate region office.

D. Timber sale contracts contain extensive terms and conditions that will be binding upon successful high bidders. Each bidder should carefully review all terms contained in the appropriate **DRAFT** timber sale contract prior to bidding on a sale, and should review the final contract prior to signing. **DRAFT** timber sale contracts are contained in the preview and presales packets and are available upon request at the respective region office.

E. Sales advertised in this book have not been approved by the Board of Natural Resources and are subject to the Board's approval before they will be sold. The Board meets and approves sales approximately six weeks prior to auction. All sales are subject to confirmation by the DNR under RCW 79.15.120.

F. The State does not guarantee the accuracy of any information contained herein pertaining to particular sales. Therefore, all prospective purchasers are expected to make their own independent inspections and appraisals prior to bidding.

G. If any conflict exists between the information in the Timber Notice of Sale, timber sale map, sale preview packets and that in the timber sale contract, the signed contract will prevail.

H. Timber sales are subject to the Washington State Forest Excise Tax (RCW Chapter 84.33).

I. Within 30 days of sale confirmation, the apparent high bidder will provide to the State the Performance Security specified on each Notice of Sale.

J. Each DNR region office has information about sales offered in that region. For further information, contact the respective DNR region office. Region office addresses and telephone numbers appear on the back cover of this booklet.

K. The purchaser assumes the responsibility for any costs associated with extra maintenance or repair levied by a county for any county road used by the purchaser.

BIDDING PROCEDURES FOR TIMBER AUCTIONS (Continued)

Bidding Process

A. All timber will be auctioned using the sealed bid method.

B. Bids submitted on day of auction must be in the bid box at the specified auction location before 10:00 a.m. The respective DNR region office must receive mailed bids by 4:30 p.m., on the last business day before the auction. Bidders assume all risk for the method of delivery.

C. The DNR has the right to reject bid forms that are completed incorrectly. All bid forms must have an original signature on behalf of the person or entity submitting the bid, and must be on the form provided in this booklet or a photocopy thereof. Revised documents are not permissible. Bidding instructions are on the back of the Sealed Bid Form. A bid deposit must be included in the sealed bid envelope unless using a Timber Sale Statewide Bid Bond.

D. All bids must include the completed Sealed Bid Form and bid deposit.

E. Bids will be opened in each respective region in the order in which sales appear in the Public Auction Sale of Timber book (alphabetically by county and by agreement number).

F. If a tie bid occurs, the names of the tie bidders will be placed in a hat and the successful bidder will be determined by a drawing.

G. The apparent high bidder on a particular sale will have the option of withdrawing additional sealed bids submitted for any remaining sales to be auctioned. The apparent high bidder must exercise this option within two minutes after the apparent high bidder is announced.

Auction Time and Location

Auctions will start at 10:00 a.m. and close at 4:00 p.m. on the date and at the location specified in each Timber Notice of Sale.

Bid Deposits

A. Required bid deposits are listed on each Timber Notice of Sale.

B. Bid deposits must be in the form of cash, certified check, cashiers' check, money order or bid bond.

C. Bid bonds may be either a Timber Sale Statewide Bid Bond or a Timber Sale Per Sale Bid Bond.

D. All bid deposits shall be submitted by the person or entity submitting the bid and made payable to the Department of Natural Resources. **Third party deposits will not be accepted**.

Timber Sale Per Sale Bid Bonds

A. The Per Sale Bid Bond shall guarantee payment of the bid deposit within ten days of auction.

B. The balance between the bid bond and the Initial Deposit payment is due by 4:30 p.m., on the day of auction.

C. Additional forms and instructions for a Per sale Bid Bond are available at any DNR region office.

Timber Sale Statewide Bid Bond

A. Statewide Bid Bonds shall guarantee payment of the Initial Deposit on any statewide timber sale while the bond is in effect.

B. The Statewide Bid Bond must be received by the Department of Natural Resources, Product Sales & Leasing Division, PO BOX 47016, Olympia, Washington, 98504-7016, ten days in advance of the auction date. The bond shall be in the amount of \$150,000.00.

C. The bidder must supply a list of persons authorized to bid using the bond. Bid bonds are subject to approval by the Department of Natural Resources.

D. Successful bidders using a Statewide Bid Bond must pay the total Initial Deposit payment (10 percent of the total bid price) by 4:30 p.m. on the day of auction.

E. A Statewide Bid Bond cannot be used to secure the Initial Deposit payment due the day of auction.

F. Additional forms and instructions for a statewide bid bond are available at any DNR region office.

Payments

The initial deposit for a sale is 10% of the total bid value as submitted by the apparent high bidder (25% if the bidder is a defaulter as defined under WAC 332-140-300) and never less than \$5,000.00 for lump sum sales. For Lump Sum sales appraised at less than \$5,000.00, the entire bid value is due on day of auction.

a. Apparent high bidders using cash, certified check, cashiers' check or money order as a bid deposit must pay the total Initial Deposit amount by 4:30 p.m. on auction day.

b. Apparent high bidders using a Timber Sale Per Sale Bid Bond as a bid deposit must pay the difference between the bid deposit and the total initial deposit by 4:30 p.m., on the day of auction. The bid bond amount must be replaced with a certified check, cashier's check, bank draft, cash, money order, or wire transfer within ten days of the auction.

c. Apparent high bidders using a Timber Sale Statewide Bid Bond must pay the entire Initial Deposit amount by 4:30 p.m. on the day of auction.

Fees due on the day of sale must be paid by 4:30 p.m.

All payments must be in the form of a certified check, cashier's check, bank draft, cash, money order or wire transfer.

Eligibility to Bid

In order to bid on State timber sales you must be:

- 18 years of age (or have a co-signer who meets the eligibility requirements),
- Licensed to do business in the State of Washington,
- Eligible to bid on Export Restricted timber, and
- Capable of meeting all contract obligations.

Authorized Representatives

Companies may only use authorized representatives or company officers to bid on State sales, sign State documents or sign checks. A list of authorized representatives and their specific authorities must be submitted in writing to the Department of Natural Resources Product Sales & Leasing Division, PO BOX 47016, Olympia, Washington, 98504-7016, ten days in advance of the auction. A company owner or officer must sign this submittal.

The Successful Bidder agrees to furnish, within 30 days of confirmation date, Performance Security acceptable to the State in the amount specified on the Notice of Sale. Performance Security must guarantee performance of all provisions of the contract and payment of any damages caused by operations under the contract or resulting from the successful bidders noncompliance with any rule or law.

Bidder's Warranty and Bid Signature

By signing and submitting this bid as an offer to purchaser forest products from the State, the Bidder hereby warrants to the State that they have had an opportunity to fully inspect the sale area and the forest products being sold. Bidder further warrants to the State that they enter this bid based upon their own judgments of the value of the forest products, formed after their own examination and inspection of both the timber sale area and the forest products being sold. Bidder also warrants to the State that they enter this bid without any reliance upon the volume estimates, acreage, appraisals, pre-bid documentation, or any other representation by the Washington State Department of Natural Resources.

(Signature of Authorized Representative submitting this bid)

(Print name and title of Authorized Representative submitting this bid)

Note: all sales are subject to confirmation by the Commissioner of Public Lands (Refer to RCW 79.15.120)

Instructions For Completing Sealed Bid Form

All bids submitted for the purchase of forest products being sold by the Washington State Department of Natural Resources must have an original signature on behalf of the person or entity submitting the bid, and must be on the form provided in this booklet or a photocopy thereof. The DNR will not accept bids that are not signed, and will not accept bids that are not on the current, approved bid form. All appropriate blanks on bid form must be completed including the bid bond number if the bidder is relying upon a bid bond for bid deposit.

For more specific information, contact the appropriate region office.

In-Person Bids

- A. Sealed bids must be in auction box before 10:00 a.m. on the day of auction at the location specified in the Timber Notice of Sale.
- B. Sealed bids must be submitted in an envelope with the name of the sale, the bidder's name and the contract number clearly written on the outside of the envelope. The full legal name and business address of the bidder must be inserted where indicated on the form, and must be on the bid bond and timber sale contract. The bid form must be signed by an authorized representative. When a bidder has more than one person authorized to bid, documentation of those persons with signature authority for bidding must accompany the bid or be on file at the region office. Sealed bid envelopes are available at all region offices. One bid per envelope.
- C. Sealed bid envelopes <u>must</u> contain a completed bid form and a bid deposit.
- D. Sealed bid envelopes <u>may</u> contain a check for the Initial Deposit amount and a check for fees.

Mailed Bids

- A. Bids that are mailed are required to have printed on the outside: "DO NOT OPEN UNTIL SALE DATE. SEALED BID ENCLOSED". The sealed bid envelope(s) will be enclosed inside the mailed-in envelope. Mailed bids must be submitted in an envelope with the name of the sale, the bidder's name and the agreement number clearly written on the outside of the envelope. The full legal name and business address of the bidder must be inserted where indicated on the form, and must be the same on the bid bond and timber sale contract. The Sealed Bid Form must be signed by an authorized representative. When a bidder has more than one person authorized to bid, then documentation of those persons with signature authority for bidding must accompany the bid or be on file at the region office. Mail-in envelopes are available at all region offices. One bid per mailed-in envelope.
- B. Bids that are mailed will be accepted up to 4:30 p.m. the last business day before the auction by the region office in which the sale is located. Bidders assume the risk for the method of delivery. The DNR assumes no responsibility for any delays caused by any delivery service.
- C. Sealed bid envelopes <u>must</u> contain a completed bid form and a bid deposit.
- D. Sealed bid envelopes <u>may</u> contain a check for the Initial Deposit amount and a check for fees.

Initial Deposit:

Lump Sum Sales - Initial Deposit must equal 10% of the total bid submitted. (25% if the bidder is a defaulter as defined under WAC 332-140-300)

Weight Scale Sales - Initial Deposit must equal 10% of the bid per ton multiplied by the total sale estimated tonnage. (25% if the bidder is a defaulter as defined under WAC 332-140-300)

Scribner MBF Scale Sales - Initial Deposit must equal 10% of the bid per MBF multiplied by the total sale MBF. (25% if the bidder is a defaulter as defined under WAC 332-140-300)

Instructions for Completing the Log Sort Sealed Bid and Supplemental Information Forms.

All bids submitted for the purchase of forest products being sold by the Washington State Department of Natural Resources must have an original signature on behalf of the person or entity submitting the bid, and must be on the form(s) provided in this booklet or a photocopy thereof. The DNR will not accept bids that are not signed, and will not accept bids that are not on the current, approved bid form. All appropriate blanks including Agreement Number, Sort Number, Bid amount (per mbf or ton as appropriate for the sort), Bid deposit amount and type. Signatures and date on bid form must be completed including the bid bond number if bidder is relying upon a bid bond for bid deposit.

Bids may not be accepted if the Supplemental Information Form is not included with the approved Log Sort Sealed Bid form or is incomplete.

For more specific information, contact the appropriate region office.

In-Person Bids

- A. Sealed bids must be in auction box or auction envelope before 10:00 a.m. on the day of sale at the location specified in the notice of sale.
- B. Sealed bids must be submitted in an envelope with the name of the sale, the bidder's name and the contract agreement number clearly written on the outside of the envelope. The full legal name and business address of the bidder must be inserted where indicated on the form, and must be the same as the name on the bid bond and timber sale contract. The bid form must be signed by an authorized person. When a bidder has more than one person authorized to bid, then documentation of those persons with signature authority for bidding must accompany the bid or be on file at the region office. Sealed bid envelopes are available at all region offices. One bid per envelope, please.
- C. Sealed bid envelopes must contain the following:
 - 1. A completed Log Sort Sealed Bid form;
 - 2. A completed Supplemental Information form; and
 - 3. A bid deposit

Mailed Bids

- A. Mail-in bid envelopes are required to have printed on the outside: "DO NOT OPEN UNTIL SALE DATE. SEALED BID ENCLOSED." The sealed bid envelope(s) will be enclosed inside the mailed-in envelope. Mailed bids must be submitted in an envelope with the name of the sale, the bidder's name and the agreement number clearly written on the outside of the envelope. The full legal name and business address of the bidder must be inserted where indicated on the form, and must be the same on the bid bond and timber sale contract. The bid form must be signed by an authorized person. When a bidder has more than one person authorized to bid, then documentation of those persons with signature authority for bidding must accompany the bid or be on file at the region office. Mail-in envelopes are available at all region offices. One bid per mailed-in envelope, please.
- B. Mail-in or otherwise delivered bids will be accepted up to 4:30 p.m. the last business day before the auction by the region office in which the sale is located. Bidders assume the risk for the method of delivery they chose. The DNR assumes no responsibility for any delays caused by any delivery service.
- C. Sealed bid envelopes must contain the following:
 - 1. A completed Log Sort Sealed Bid form;
 - A completed Supplemental Information form; and
 A bid deposit

BID DEPOSIT: \$84,000.00 or Bid Bond. Said deposit shall constitute an opening bid at the appraised price.

HARVEST METHOD: Rubber tired skidder or tractor no larger than a D-6 cat or equivalent. Falling and Yarding will not be permitted from November 1 to May 1 unless authorized in writing by the Contract Administrator in order to protect the soil from compaction and the water quality from degradation due to wet weather conditions.

ROADS: 30.45 stations of required construction. 44.25 stations of required reconstruction. 231.50 stations of pre-haul maintenance. 4.00 stations of abandonment. Prospective purchasers should review the road plan in detail. Purchaser must install a temporary bridge (see Clause 8.3-1). Purchaser must apply 60 cubic yards of rock which is available at no cost from an existing pit in the NW 1/4 NE 1/4 Section 26, Township 20 North, Range 19 East. Road construction will not be permitted from November 1 to May 1 unless authorized in writing by the Contract Administrator in order to protect the road surface and subgrade from damage due to wet weather conditions. The hauling of forest products will not be permitted from November 1 to May 1 unless authorized in writing by the Contract Administrator in order to protect the road surface and subgrade from damage due to wet weather conditions. The hauling of forest products will not be permitted from November 1 to May 1 unless authorized in writing by the Contract Administrator in order to protect the road surface and subgrade from damage due to wet weather conditions.

ACREAGE DETERMINATION

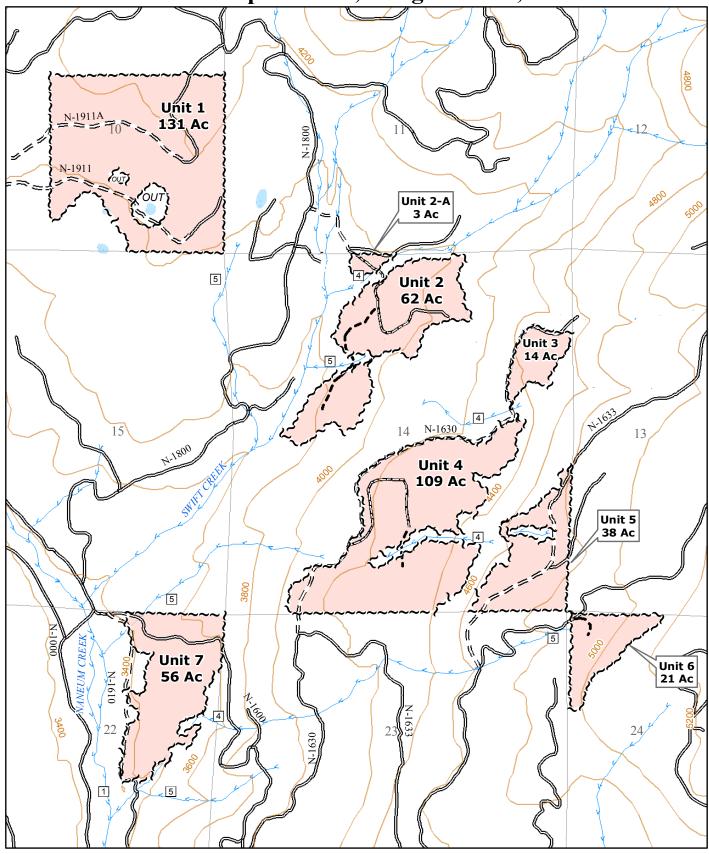

CRUISE METHOD: Acres were determined using a GPS. Cruise was done using a variable plot method and using 16 foot log grades.

- **FEES:** \$47,000.00 is due on day of sale. \$9.00 per MBF is due upon removal. These are in addition to the bid price.
- **SPECIAL REMARKS:** This sale is located behind two locked gates. Contact the SE Region Office for information on how to access the gates. Access during the winter months may required a snow machine. Overall, this sale contains a high percentage of small diameter grand fir and Douglas-fir. There is a high potential to manufacture a significant amount of hewsaw material from these two species. There is also a substantial amount of grand fir that is dead or dying. Slopes are relatively gentle and the entire sale will be logged using ground-based equipment. All utility logs (as defined in Clause L-040) on all units shall be felled, yarded to the landing, and decked or hauled from the sale area. All utility loads removed from the sale area must first be approved by the Contract Administrator. On the day of the sale Purchaser shall pay a lump sum of \$1,000.00 for the utility wood.

SPECIAL REMARKS: None.

<u>Schedule B</u> Lucky 13 - WMZ Thinning

Unit 1

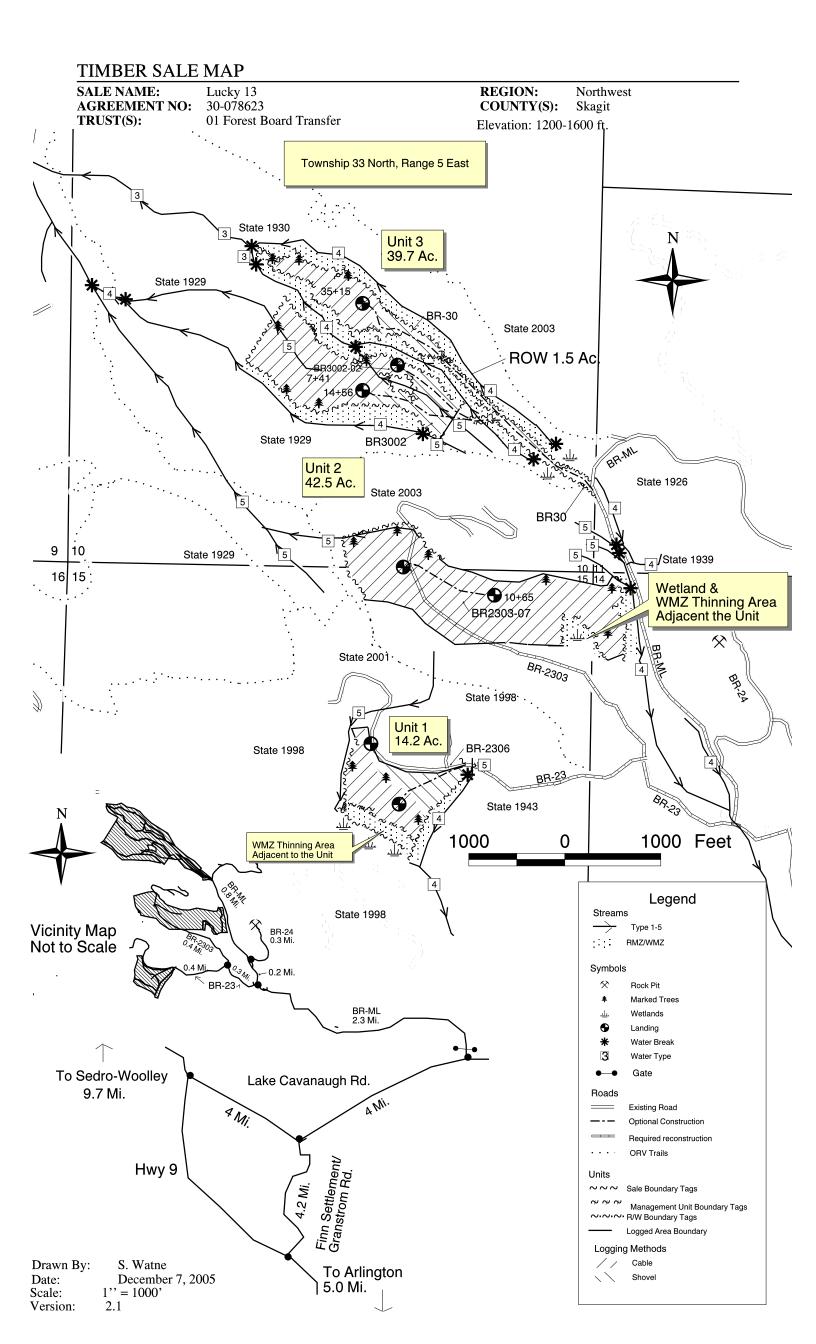

The southern boundary of Unit 1 is marked with blue special management boundary tags. Beyond these tags the thinning rules apply. No take trees are marked. The northern and western boundary of the wetland is marked with white timber sale boundary tags. No removals are allowed beyond the white tags.

The buffer of the forested wetland will be thinned using primarily cable operations. If necessary, a shovel can be utilized by moving it across the slope from the southern most landing location. A maximum of six cable corridors, each no wider than 35 feet, can be cut. A minimum of front-end suspension shall be achieved in the corridors. Corridor locations must be approved by the Contract Administrator in writing prior to falling any trees in the corridors. Trees with a blue special management boundary tag, at the origin of an approved corridor and within the width of the approved corridor only, may be removed.

Unit 2

A forested wetland exists along the southern boundary of Unit 2, near the south east corner. The boundary of the buffer is marked with blue special management boundary tags. Beyond these tags the thinning rules apply. No take trees are marked.

The buffer of the forested wetland will be thinned using cable operations. A maximum of three cable corridors, each no wider than 40 feet, can be cut. Corridors will also need to be located through the wetland. Within the wetland itself, remove only those trees necessary to facilitate yarding operations. Corridor locations must be approved by the Contract Administrator in writing prior to falling any trees in the corridors. Trees with a blue special management boundary tag, at the origin of an approved corridor and within the width of the approved corridor only, may be removed.

EXPIRATION DATE:	January 30, 2007	ALLOCATION:	Export Restricted
PAYMENT			

To be determined by the State as described in Clause P-041 of the Purchaser's Contract.

BIDDING PROCEDURES:

SECURITY:

A separate sealed bid and envelope must be submitted for each log sort. Prospective Purchasers may bid on any or all log sorts. On the day of sale the Purchaser must bring their bid deposit up to 10% of their total bid price but no less than \$5,000.00 unless total bid value is less than this amount. Complete bidding procedures and auction information may be obtained from the Northeast Region Office in Colville, WA. Phone number (509) 684-7474.

HARVEST AND
DELIVERY COSTS:Purchaser must pay the forest excise taxes associated with the log sorts delivered to them.
The tax rate for this sale is 4.2%. Taxable Stumpage = Total Delivered Value – (Harvest Cost
+ Haul Cost). Use the following rates for estimating taxable stumpage: Harvest Cost =
tons(\$33.37). Haul Cost =(tons)(\$0.13x C miles) + tons(\$0.11 x A miles).

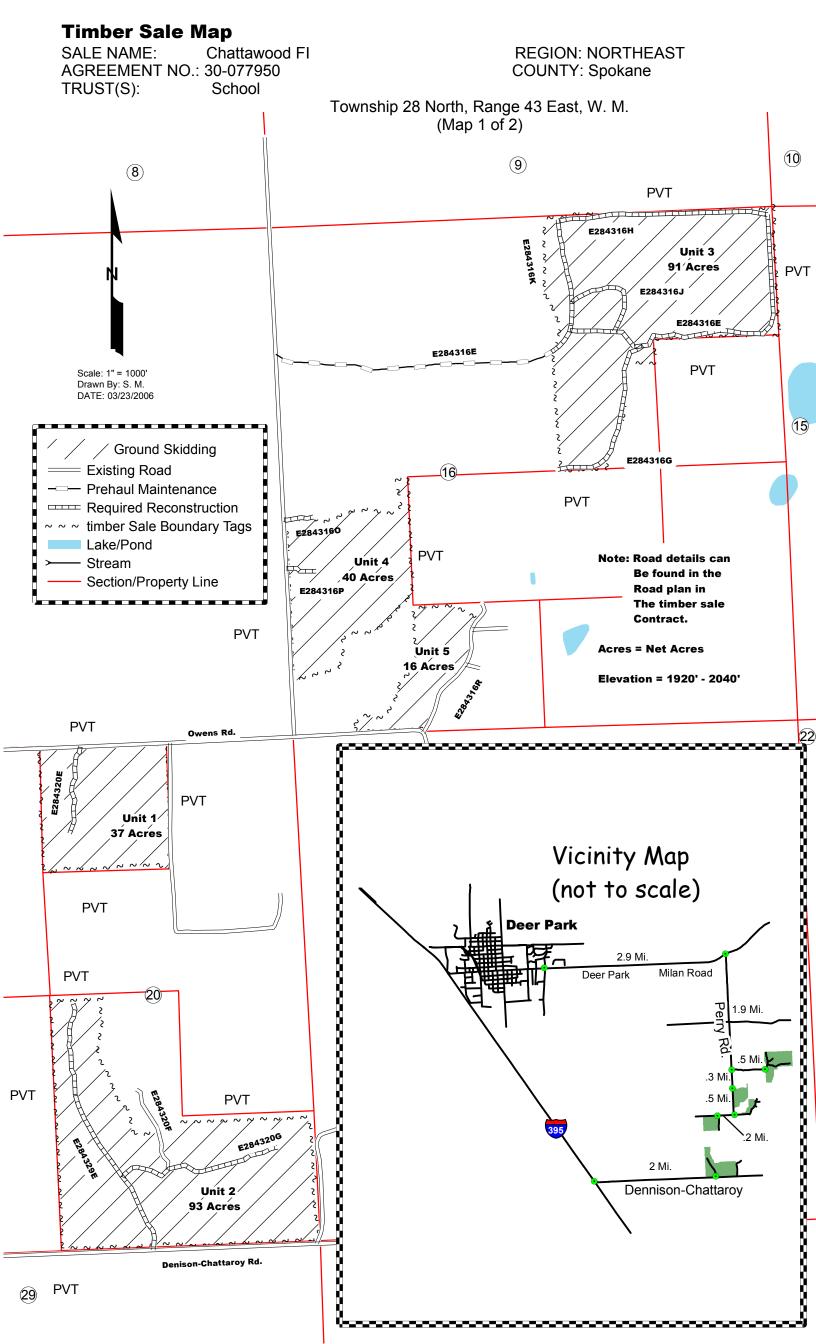

SPECIAL REMARKS: The successful Purchaser(s) will be required to purchase logs from the sale area upon delivery to their location specified in the bid submitted. Logs will be delivered to the Purchaser's delivery location by the State's contract harvester. Purchaser is responsible for weighing and scaling costs. All mbf and tonnage loads will be weighed and all mbf loads will be scaled at State approved scaling locations. The State reserves the right to determine where logs are authorized to be scaled and weighed.

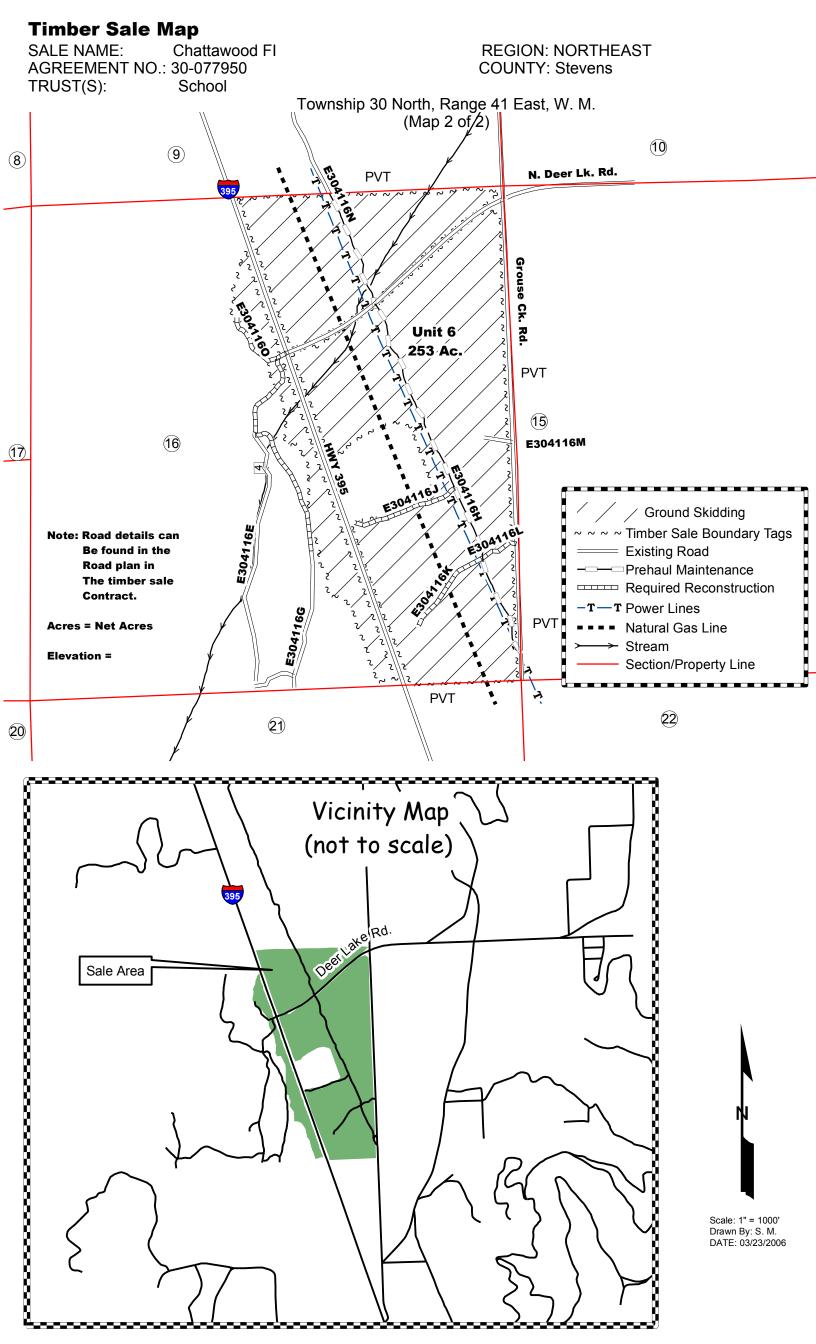

For more information regarding this log sort sale visit our web site: http://www.dnr.wa.gov/htdocs/fr/sales/. If you have questions call Bob McKellar at the Northeast Region office at (509) 684-7474 or Dave Richards at the Product Sales and Leasing Division Office in Olympia at (360) 902-1365.

TIMBER NOTICE OF SALE

CONFIRMATION: Each sort is subject to confirmation following auction. No sorts will be confirmed until at least 10 days after all sorts are successfully auctioned.

This sale is on lands certified under the Sustainable Forestry Initiative[®] program. www.aboutsfi.org

Purchaser will pay a \$500.00 lump sum payment on day of sale for the utility wood.								into the high ground arded to st		

<u>Schedule A Ewewho Timber Sale</u> <u>Leave Tree Selection and Tree Marking</u>

Remove all merchantable conifer trees except those that are required to be left as leave trees.

LEAVE TREE SELECTION CRITERIA

- A. Species preference for leave trees in priority order:
- 1) ponderosa pine 2) western larch 3) Douglas-fir 4) Engelmann spruce
- 6) lodgepole pine 7) sub-alpine fir 8) grand fir

B. No mountain hemlock, ponderosa pine or hardwood trees will be cut.

C. Leave tree target: 71 trees/acre Basal area target: 80 Leave tree spacing target: 25' x 25'

D. There is a maximum cut diameter limit of 30" dbh = 94 " circumference at 1' stump height. Minimum cut diameter is 7" dbh = 22" circumference at 1' stump height. No trees outside of this limit will be cut unless approved by the contract administrator

E. Leave trees shall be the best dominant and co-dominant conifers selected by comparing their characteristics with others in the stand and uniformly distributed over the area. Spacing of leave trees may vary to obtain the most desirable leave tree as long as the specified trees per acre guideline is met.

F. Remove double joined trees where spacing permits or leave both. Remove double topped trees. Remove trees incapable of responding to release (having 20% or less crown).

G. Defective live conifer trees that provide habitat for wildlife may be left as leave trees but no more than 4-6 per acre. Live defective trees with broken tops, cavities, multiple tops and other defects are preferred, provided they are safe to work around. These trees should be in the diameter range of dominant or co-dominant trees. Heights may be less because of defect.

H. Snags are not to be cut unless necessary to maintain operator safety and meet L & I requirements. Operator safety is #1 priority. Snags felled for safety reasons will be left in unit and will not be landed.

I. Removal levels will vary across the stand given pre-harvest stocking. Where portions of the stand currently meet desired post harvest condition, removal will not allowed without contract administrator approval. Contract administrator approval may be given to remove diseased trees in such areas for health reasons.

J. No timber shall be cut that is marked with a timber sale boundary tags, right-of-way tags, or plain white drainage designation tags (posted along right-of-way).

TREE SELECTION AND PURCHASER CERTIFICATION

DNR will have several sample plots which have been marked to the leave requirements as a guide for the purchaser and operator. Fallers will be required to initially use a 20 basal area factor prism to determine number of leave trees necessary to meet basal area target and corresponding approximate tree spacing. Contract administrator will work with fallers initially to ensure understanding and compliance with cutting specifications. Following determination by the contract administrator that faller is competent, they will be certified. Contract administrator will subsequently closely monitor leave tree selection to ensure compliance. Since certification of fallers and/or feller buncher operators is time consuming and it is important to maintain consistency, change in fallers is strongly discouraged and will only be allowed with contract administrator approval. Failure of operator to satisfactorily meet cutting specifications will result in suspension of operations per H-011 clause.

Tree selection will be demonstrated by the contract administrator at the timber sale site prior to logging. Several sample plots of approximately one acre will be marked to leave with paint by a DNR forester with the operator present. The marking strategy will demonstrate the species selection, basal area target, and spacing target listed above. Permission to begin operations must be given in writing by the contract administrator, and the contract administrator must be on site when logging begins. Cutting will be closely monitored by the contract administrator to provide the operator(s) with professional guidance to meet the prescription delineated in this document. Neither leave trees nor cut trees will be marked in the majority of the sale area with the exception of the sample plots.
