Bidder's/Purchaser's Inspection of Sale Area and Forest Products

Acreage estimates and volume estimates contained within each timber notice of sale and each timber sale contract are made only for administrative and identification purposes. Except as expressly provided by the timber sale contract, the purchaser shall be responsible for paying the entire purchase price, even if the actual acreage or timber volume varies from the estimated quantity or volume shown.

All prospective bidders have the opportunity and are expected to inspect the sale area and the forest products located thereon. Bidders shall not rely on any representations by the State including, but not limited to, acreage estimates, volume estimates, appraisal or pre-bid documentation. The successful bidder/purchaser will further warrant that they have entered the timber sale contract without any reliance upon the DNR's volume estimates, acreage estimates, appraisals, pre-bid documentation, or any other representation by the DNR.

Any timber sale contract arising out of these public auctions will require the successful purchaser to warrant that they are entering the timber sale contract based solely upon their own judgment of the value of the forest products, formed after their own examination and inspection of both the timber sale area and the forest products being sold.
