A larger version of the map will open in a new tab.

To go back to the original version, click on the previous tab.

### To reposition the map:

- Click and hold the left mouse button down, then move your mouse to move the map to the area you want to see.

### View map information:

- To see more information about a map feature in a pop-up window, left click on the map in your area of interest.

### Zoom-In and Zoom-Out using icons:

-  To Zoom-In, left click with your mouse on the “plus” sign icon
-  To Zoom-Out, left click with your mouse on the “minus” sign icon

### Zoom-In and Zoom-Out using the mouse scroll button:

- To Zoom-In, move the mouse scroll wheel away from you.
- To Zoom-Out, move the mouse scroll wheel toward you.

### Zoom-In to a specific area:

- Hold the shift key down then left click, hold and drag a box using the mouse.
- Type a location name in the search box, and hit enter. The map will automatically zoom to that location.

### Close the details/legend pane:

- To hide the details/legend, left click on this icon.

**Display the map legend:**

- To display the legend, left click on this icon.

**Display additional information about the map:**

- To display the map details, left click on this icon.

**Print the map:**

- To print the map, left click on the pull-down menu for the print icon then select a format.

**Turn map layers off and on:**

- Turn map layers off and on, on the pull-down menu for the layers icon

-  Left click on check box to turn a layer off. The data on the map and the check mark will disappear.
-  Left click on check box to turn a layer back on. The data on the map and the check mark will reappear.

## Change the basemap:

- To change the basemap layer, left click on the pull-down menu for the basemap icon. Then select a new basemap. The new basemap will appear on your map.
