(1) City or Rural Fire Districts are under an agreement with States; the appropriate agency code needs to be entered.

(2) When Washington Fire Service (WFS) are assigned to Washington Mobilization Incidents WFS makes all payments. Theirs would be coded in accordance with #1 above. (This applies to WFS Mobe Incidents that are stand alone. Oregon State Fire Marshal will be billed through Oregon Department of Forestry.

(3) The payment agency field should always be filled in to show who is paying for the aircraft. Costs for HELI are entered into the accrual process by Air Operations through the electronic submittal of the USFS-6500-122. All Air Costs come from the Aircraft Summary sheet. The payment unit for each piece of aircraft needs to be clearly defined, i.e. USFS, State, etc. (Air Operations needs to provide this information)

(4) Code Casuals (ADs) on fires under specific hiring authority with either a Federal or State Agency

(5) For jurisdictions OTHER than USFS the accrual category will be EXCL.

(6) Have CTSP add Fire Service Code (i.e. WFS for Washington) to list of Payment Agency Codes

* **Note:** Payment Agency - This is the unit code of who is responsible for paying the INITIAL payment. Code individual agencies for all federal agencies (i.e. BLM, USFS, BIA, etc) do NOT use FED.
