

2021 Mobile Radio
Zones and Channel Guide

AKA:

**The world's
dullest
book**
(until you want to find anything.)

**Action-People
let their fingers
do the walking**

**Yellow
Pages**

**Just let your fingers do the
walking.
Action-People do.**

The 2021 mobile radio program contains 115 zones and over 300 unique channels. You're probably familiar with your 'home zone', but when you find yourself in unfamiliar country, this channel guide may be helpful in selecting the best zone for your radio. It can also be useful when using the 'command zone' feature which allows you to copy any channel into a custom zone on your mobile radio.

The guide is organized by region, with these generic but useful zones here at the beginning. I've omitted the zones which are reserved for cloning and customization, as they are mainly blank channels.

Note that while the mobile radios all have the same programming, your portable radio zones and channels will be different than the ones listed here. This applies to the mobile (vehicle mounted) radios only
