

Washington State Department of Natural Resources (DNR)

Bidder's/Purchaser's Inspection of Sale Area and Forest Products

Acreage estimates and volume estimates contained within each timber notice of sale and each timber sale contract are made only for administrative and identification purposes. Except as expressly provided by the timber sale contract, the purchaser shall be responsible for paying the entire purchase price, even if the actual acreage or timber volume varies from the estimated quantity or volume shown.

All prospective bidders have the opportunity and are expected to inspect the sale area and the forest products located thereon. Bidders shall not rely on any representations by the State including, but not limited to, acreage estimates, volume estimates, appraisal or pre-bid documentation. The successful bidder/purchaser will further warrant that they have entered the timber sale contract without any reliance upon the DNR's volume estimates, acreage estimates, appraisals, pre-bid documentation, or any other representation by the DNR.

Any timber sale contract arising out of these public auctions will require the successful purchaser to warrant that they are entering the timber sale contract based solely upon their own judgment of the value of the forest products, formed after their own examination and inspection of both the timber sale area and the forest products being sold.

Exclusion and Disclaimer of Warranties

The PARTIES AGREE that the IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, and ALL OTHER WARRANTIES EXPRESS OR IMPLIED, ARE EXCLUDED from this transaction, and shall not apply to the goods sold. For example, THE FOLLOWING SPECIFIC MATTERS ARE NOT WARRANTED, and are EXCLUDED from this transaction:

- a. *The merchantability of the forest products.* The use of the term “merchantable” in any document is not intended to vary the foregoing.
- b. *The condition of the forest products.* All forest products will be conveyed “AS IS.”
- c. *The acreage contained within any sale area.* Any acreage descriptions appearing in the timber notices of sale, timber sale contract, timber sale map or other documents are estimates only, provided solely for administrative and identification purposes.
- d. *The volume, quality, or grade of the forest products.* The descriptions of the forest products to be conveyed are estimates only, made solely for administrative and identification purposes.
- e. *The correctness of any soil or surface conditions, presale construction appraisals, investigations, and all other pre-bid documents prepared by or for the State.* These documents have been prepared for the State’s appraisal purposes only.
- f. *That the sale area is free from threatened or endangered species, or their habitat.* The State is not responsible for any interferences with forestry operations that result from the presence of any threatened or endangered species, or the presence of their habitat, within the sale area.
- g. *That the forestry operations to be performed under this contract will be free from regulatory actions by governmental agencies.* The State is not responsible for actions to enforce regulatory laws, such as the Washington Forest Practices Act (Chapter 76.09 RCW), taken by the Department of Natural Resources or any other agency that may affect the operability of these timber sales.
- h. Items contained in any other documents prepared for or by the State.

Please also see timber sale contract clause G-060 for further information.

BIDDING PROCEDURES FOR TIMBER AUCTIONS

The general requirements that follow are a part of all Timber Notices of Sale to be auctioned by the Department of Natural Resources (DNR).

General Information

The State reserves the right to waive minor irregularities and the right to reject any or all bids.

- A. This book contains the timber notices of sale and maps for each timber sale scheduled to be auctioned. More specific information can be obtained by contacting the appropriate region office at the number listed on the back cover of this book.
- B. The timber notice of sale is a summary of sale information. For more specific information, interested parties are encouraged to view the Appraisal Packets on the DNR Internet Site @ www.dnr.wa.gov, this will take you directly to the Product Sales Section. The Appraisal Packets contain **DRAFT** copies of the timber notice of sale, map, contract, road plan, cruise data, precruise and cruise narrative, Forest Practices Application (FPA), Hydraulics Project Approval (HPA).
- C. The sale preview packets may be obtained at no charge for individual sales by visiting the appropriate region office.
- D. Timber sale contracts contain extensive terms and conditions that will be binding upon successful high bidders. Each bidder should carefully review all terms contained in the appropriate **DRAFT** timber sale contract prior to bidding on a sale, and should review the final contract prior to signing. **DRAFT** timber sale contracts are contained in the preview and presales packets and are available upon request at the respective region office.
- E. Sales advertised in this book have not been approved by the Board of Natural Resources and are subject to the Board's approval before they will be sold. The Board meets and approves sales approximately six weeks prior to auction. All sales are subject to confirmation by the DNR under RCW 79.15.120.
- F. The State does not guarantee the accuracy of any information contained herein pertaining to particular sales. Therefore, all prospective purchasers are expected to make their own independent inspections and appraisals prior to bidding.
- G. If any conflict exists between the information in the Timber Notice of Sale, timber sale map, sale preview packets and that in the timber sale contract, the signed contract will prevail.
- H. Timber sales are subject to the Washington State Forest Excise Tax (RCW Chapter 84.33).
- I. Within 30 days of sale confirmation, the apparent high bidder will provide to the State the Performance Security specified on each Notice of Sale. The successful bidder also agrees to return a signed contract to the State within 30 days of confirmation. Failure to provide a signed contract to the state within 30 days of confirmation may result in a loss of bidder's rights to the products sold and forfeiture of initial deposit moneys.
- J. Each DNR region office has information about sales offered in that region. For further information, contact the respective DNR region office. Region office addresses and telephone numbers appear on the back cover of this booklet.
- K. The purchaser assumes the responsibility for any costs associated with extra maintenance or repair levied by a county for any county road used by the purchaser.

BIDDING PROCEDURES FOR TIMBER AUCTIONS (Continued)

Bidding Process

- A. All timber will be auctioned using the sealed bid method.
- B. Bids submitted on day of auction must be in the bid box at the specified auction location before 10:00 a.m. The respective DNR region office must receive mailed bids by 4:30 p.m., on the last business day before the auction. Bidders assume all risk for the method of delivery.
- C. The DNR has the right to reject bid forms that are completed incorrectly. *All bid forms must have an original signature on behalf of the person or entity submitting the bid, and must be on the form provided in this booklet or a photocopy thereof. Revised documents are not permissible.* Bidding instructions are on the back of the Sealed Bid Form. A bid deposit must be included in the sealed bid envelope unless using a Timber Sale Statewide Bid Bond.
- D. All bids must include the completed Sealed Bid Form and bid deposit.
- E. Bids will be opened in each respective region in the order in which sales appear in the Public Auction Sale of Timber book (alphabetically by county and by agreement number).
- F. If a tie bid occurs, the names of the tie bidders will be placed in a hat and the successful bidder will be determined by a drawing.
- G. The apparent high bidder on a particular sale will have the option of withdrawing additional sealed bids submitted for any remaining sales to be auctioned. The apparent high bidder must exercise this option within two minutes after the apparent high bidder is announced.

Auction Time and Location

Auctions will start at 10:00 a.m. and close at 4:00 p.m. on the date and at the location specified in each Timber Notice of Sale.

Bid Deposits

- A. Required bid deposits are listed on each Timber Notice of Sale.
 - B. Bid deposits must be in the form of cash, certified check, cashiers' check, money order or bid bond.
 - C. Bid bonds may be either a Timber Sale Statewide Bid Bond or a Timber Sale Per Sale Bid Bond.
 - D. All bid deposits shall be submitted by the person or entity submitting the bid and made payable to the Department of Natural Resources. **Third party deposits will not be accepted.**
-

Timber Sale Per Sale Bid Bonds

- A. The Per Sale Bid Bond shall guarantee payment of the bid deposit **within ten days of auction.**
- B. The balance between the bid bond and the Initial Deposit payment is due by 4:30 p.m., **on the day of auction.**
- C. Additional forms and instructions for a Per sale Bid Bond are available at any DNR region office.

Timber Sale Statewide Bid Bond

- A. Statewide Bid Bonds shall guarantee payment of the Initial Deposit on any statewide timber sale while the bond is in effect.
- B. The Statewide Bid Bond must be received by the Department of Natural Resources, Product Sales & Leasing Division, PO BOX 47016, Olympia, Washington, 98504-7016, ten days in advance of the auction date. The bond shall be in the amount of \$150,000.00.
- C. The bidder must supply a list of persons authorized to bid using the bond. Bid bonds are subject to approval by the Department of Natural Resources.
- D. Successful bidders using a Statewide Bid Bond must pay the total Initial Deposit payment (10 percent of the total bid price) **by 4:30 p.m. on the day of auction.**
- E. A Statewide Bid Bond cannot be used to secure the Initial Deposit payment due the day of auction.
- F. Additional forms and instructions for a statewide bid bond are available at any DNR region office.

Payments

The initial deposit for a sale is 10% of the total bid value as submitted by the apparent high bidder (25% if the bidder is a defaulter as defined under WAC 332-140-300) and never less than \$5,000.00 for lump sum sales. For Lump Sum sales appraised at less than \$5,000.00, the entire bid value is due on day of auction.

- a. Apparent high bidders using cash, certified check, cashiers' check or money order as a bid deposit must pay the total Initial Deposit amount by 4:30 p.m. on auction day.
- b. Apparent high bidders using a Timber Sale Per Sale Bid Bond as a bid deposit must pay the difference between the bid deposit and the total initial deposit by 4:30 p.m., on the day of auction. The bid bond amount must be replaced with a certified check, cashier's check, bank draft, cash, money order, or wire transfer within ten days of the auction.
- c. Apparent high bidders using a Timber Sale Statewide Bid Bond must pay the entire

Initial Deposit amount by 4:30 p.m. on the day of auction.

Fees due on the day of sale must be paid by 4:30 p.m.

All payments must be in the form of a certified check, cashier's check, bank draft, cash, money order or wire transfer.

Eligibility to Bid

In order to bid on State timber sales you must be:

- 18 years of age (or have a co-signer who meets the eligibility requirements),
- Licensed to do business in the State of Washington,
- Eligible to bid on Export Restricted timber, and
- Capable of meeting all contract obligations.

Authorized Representatives

Companies may only use company officers or authorized representatives to bid on State sales, sign State documents or sign checks. A list of authorized representatives and their specific authorities must be submitted in writing to the Department of Natural Resources Product Sales & Leasing Division, PO BOX 47016, Olympia, Washington, 98504-7016, ten days in advance of the auction. A company owner or officer must sign this submittal.

Within 30 days of confirmation date the successful bidder agrees to furnish Performance Security acceptable to the State in the amount specified on the Notice of Sale. Performance Security must guarantee performance of all provisions of the contract and payment of any damages caused by operations under the contract or resulting from the successful bidders noncompliance with any rule or law.

Bidder's Warranty and Bid Signature

By signing and submitting this bid as an offer to purchaser forest products from the State, the Bidder hereby warrants to the State that they have had an opportunity to fully inspect the sale area and the forest products being sold. Bidder further warrants to the State that they enter this bid based upon their own judgments of the value of the forest products, formed after their own examination and inspection of both the timber sale area and the forest products being sold. Bidder also warrants to the State that they enter this bid without any reliance upon the volume estimates, acreage, appraisals, pre-bid documentation, or any other representation by the Washington State Department of Natural Resources.

_____ Date _____
(Signature of Authorized Representative submitting this bid)

(Print **name and title** of Authorized Representative submitting this bid)

Note: all sales are subject to confirmation by the Commissioner of Public Lands (Refer 79.15.120)

Instructions For Completing Sealed Bid Form

All bids submitted for the purchase of forest products being sold by the Washington State Department of Natural Resources must have an original signature on behalf of the person or entity submitting the bid, and must be on the form provided in this booklet or a photocopy thereof. The DNR will not accept bids that are not signed, and will not accept bids that are not on the current, approved bid form. All appropriate blanks on bid form must be completed including the bid bond number if the bidder is relying upon a bid bond for bid deposit.

For more specific information, contact the appropriate region office.

In-Person Bids

- A. Sealed bids must be in auction box before 10:00 a.m. on the day of auction at the location specified in the Timber Notice of Sale.
 - B. Sealed bids must be submitted in an envelope with the name of the sale, the bidder's name and the contract number clearly written on the outside of the envelope. The full legal name and business address of the bidder must be inserted where indicated on the form, and must be on the bid bond and timber sale contract. The bid form must be signed by an authorized representative. When a bidder has more than one person authorized to bid, documentation of those persons with signature authority for bidding must accompany the bid or be on file at the region office. Sealed bid envelopes are available at all region offices. One bid per envelope.
 - C. Sealed bid envelopes **must** contain a completed bid form and a bid deposit.
 - D. Sealed bid envelopes **may** contain a check for the Initial Deposit amount and a check for fees.
-

Mailed Bids

- A. Bids that are mailed are required to have printed on the outside: "DO NOT OPEN UNTIL SALE DATE. SEALED BID ENCLOSED". The sealed bid envelope(s) will be enclosed inside the mailed-in envelope. Mailed bids must be submitted in an envelope with the name of the sale, the bidder's name and the agreement number clearly written on the outside of the envelope. The full legal name and business address of the bidder must be inserted where indicated on the form, and must be the same on the bid bond and timber sale contract. The Sealed Bid Form must be signed by an authorized representative. When a bidder has more than one person authorized to bid, then documentation of those persons with signature authority for bidding must accompany the bid or be on file at the region office. Mail-in envelopes are available at all region offices. One bid per mailed-in envelope.
- B. Bids that are mailed will be accepted up to 4:30 p.m. the last business day before the auction by the region office in which the sale is located. Bidders assume the risk for the method of delivery. The DNR assumes no responsibility for any delays caused by any delivery service.
- C. Sealed bid envelopes **must** contain a completed bid form and a bid deposit.
- D. Sealed bid envelopes **may** contain a check for the Initial Deposit amount and a check for fees.

Initial Deposit:

Lump Sum Sales - Initial Deposit must equal 10% of the total bid submitted.
(25% if the bidder is a defaulter as defined under WAC 332-140-300)

Weight Scale Sales - Initial Deposit must equal 10% of the bid per ton multiplied by the total sale estimated tonnage. (25% if the bidder is a defaulter as defined under WAC 332-140-300)

Scribner MBF Scale Sales - Initial Deposit must equal 10% of the bid per MBF multiplied by the total sale MBF. (25% if the bidder is a defaulter as defined under WAC 332-140-300)

STATEWIDE BID BOND

Bond Number _____

_____ of _____,
(Principal's Name) (City, State)

hereinafter called PRINCIPAL, and _____ hereinafter called SURETY,

a corporation organized under the laws of the State of _____, and authorized to transact surety business in the State of Washington, as SURETY, are held and firmly bound jointly and severally to the State of Washington, Department of Natural Resources, hereinafter called the STATE, in the sum of \$150,000.00 Dollars, lawful money of the United States of America. The PRINCIPAL binds itself, its heirs, executors, administrators, successors, and assigns, and the SURETY binds itself, its successors, and assigns, all jointly and severally.

This bond shall be governed by the laws of the State of Washington. In the event of a lawsuit involving this bond, a venue shall be proper only in Thurston County Superior Court.

Signed, sealed and dated this _____ day of _____, ____.
(month) (year)

This statewide bid bond may be used for bidding between the following dates:

Starting: _____

Ending: _____

It Is Hereby Understood and Agreed:

If PRINCIPAL is an apparent high bidder, PRINCIPAL shall before 4:30 p.m., on day of sale, pay to the STATE the amount of the initial deposit in the form of a certified check, cashier's check, bank draft, cash or money order, then this agreement shall be void for the sale on which the payment is made; otherwise, it will remain in force.

SURETY will make payment to the STATE within ten days after demand by the STATE if the PRINCIPAL shall fail to make timely payment as described above.

The SURETY may cancel this bond by sending a written notice to the STATE, not less than forty-five days before a cancellation date; liability shall terminate as to acts or omissions of the PRINCIPAL that occur after the cancellation date.

The PRINCIPAL and the SURETY executed this bond on the date first mentioned.

(Print name and title of Authorized Representative submitting this bid)

NOTES: A separate bid form is required for each log sort bid and must be delivered in a separate envelope. Photocopies of this bid form may be used. Each photocopy must have original signatures. Final contract award is contingent upon the State's haul cost analysis. Actual haul route may vary and is subject to change at the State's discretion. All sales are subject to confirmation by the Commissioner of Public Lands as per RCW 79.15.100.

LOG SORT SEALED BID SUPPLEMENTAL INFORMATION FORM

(Print Company Name)

(Sale Name)

(Agreement Number)

(Sort Number)

Log Manufacturing Specifications:

Enter one or more preferred log lengths for each log length range below. For Ponderosa Pine saw log sorts, enter one or more preferred log lengths for at least two log length ranges listed below.	Bidder's Preferred Log Lengths (Log lengths exclude trim) Minimum of 4 log lengths required. Minimum 2 required for Ponderosa Pine.
12 ft. through 20 ft.	
22 ft. through 30 ft.	
32 ft. through 40 ft.	

Minimum log trim: _____ inches.

Additional Log or Pole Length Information:

To provide additional preferred cutting information you may attach a separate sheet or "Cutting card".

Log Delivery Information:

1) Designate the point of delivery and address (must be a street address)

(Location Name)

(Street Address)

(City, State and Zip)

2) Designate the state approved Weighing and Scaling facility closest to the point of delivery.

(Location Name)

(Street Address)

(City, State and Zip)

3) Driving instructions:

Write a brief driving instruction narrative describing the most likely or usual and accustomed Haul Route used by trucks delivering logs from this sale area to your designated point of delivery above: (i.e. hwy 12 west, to I-5 north, to hwy 6 west, to Boistfort Rd. south)

Final contract award is contingent upon the State's haul cost analysis. Actual haul route may vary and is subject to change at the State's discretion. Additional terms or conditions requested by the bidder on or attached to the Log Sort Sealed Bid or Supplemental Information Forms are informational only and non-binding.

Instructions for Completing the Log Sort Sealed Bid and Supplemental Information Forms.

All bids submitted for the purchase of forest products being sold by the Washington State Department of Natural Resources must have an original signature on behalf of the person or entity submitting the bid, and must be on the form(s) provided in this booklet or a photocopy thereof. The DNR will not accept bids that are not signed, and will not accept bids that are not on the current, approved bid form. All appropriate blanks including Agreement Number, Sort Number, Bid amount (per mbf or ton as appropriate for the sort), Bid deposit amount and type. Signatures and date on bid form must be completed including the bid bond number if bidder is relying upon a bid bond for bid deposit.

Bids may not be accepted if a completed '**Log Sort Sealed Bid Supplemental Information Form**' is not included with the approved '**Log Sort Sealed Bid Form**'.

For more specific information, contact the appropriate region office.

In-Person Bids

- A. Sealed bids must be in auction box or auction envelope before 10:00 a.m. on the day of sale at the location specified in the notice of sale.
- B. Sealed bids must be submitted in an envelope with the name of the sale, the bidder's name and the contract agreement number clearly written on the outside of the envelope. The full legal name and business address of the bidder must be inserted where indicated on the form, and must be the same as the name on the bid bond and timber sale contract. The bid form must be signed by an authorized person. When a bidder has more than one person authorized to bid, then documentation of those persons with signature authority for bidding must accompany the bid or be on file at the region office. Sealed bid envelopes are available at all region offices. One bid per envelope, please.
- C. Sealed bid envelopes must contain the following:
 - 1. A completed Log Sort Sealed Bid form;
 - 2. A completed Supplemental Information form; and
 - 3. A bid deposit

Mailed Bids

- A. Mail-in bid envelopes are required to have printed on the outside: "DO NOT OPEN UNTIL SALE DATE. SEALED BID ENCLOSED." The sealed bid envelope(s) will be enclosed inside the mailed-in envelope. Mailed bids must be submitted in an envelope with the name of the sale, the bidder's name and the agreement number clearly written on the outside of the envelope. The full legal name and business address of the bidder must be inserted where indicated on the form, and must be the same on the bid bond and timber sale contract. The bid form must be signed by an authorized person. When a bidder has more than one person authorized to bid, then documentation of those persons with signature authority for bidding must accompany the bid or be on file at the region office. Mail-in envelopes are available at all region offices. One bid per mailed-in envelope, please.
- B. Mail-in or otherwise delivered bids will be accepted up to 4:30 p.m. the last business day before the auction by the region office in which the sale is located. Bidders assume the risk for the method of delivery they chose. The DNR assumes no responsibility for any delays caused by any delivery service.
- C. Sealed bid envelopes must contain the following:
 - 1. A completed '**Log Sort Sealed Bid Form**';
 - 2. A completed '**Log Sort Sealed Bid Supplemental Information Form**' and;
 - 3. A bid deposit

Red alder			1	\$356.00								1	
Sale Total			3,120										

MINIMUM BID: \$268/MBF (est. value \$795,000.00) **BID METHOD:** Sealed Bids

**PERFORMANCE
SECURITY:** \$100,000.00 **SALE TYPE:** MBF Scale

EXPIRATION DATE: September 30, 2009 **ALLOCATION:** Export Restricted

BIDDABLE SPECIES: Douglas fir

BID DEPOSIT: \$79,500.00 or Bid Bond. Said deposit shall constitute an opening bid at the appraised price.

HARVEST METHOD: Cable and ground-based (shovel and tracked) harvesting equipment with ground-based harvesting equipment being restricted to slopes of 35% and less and tracked equipment restricted to pole removal only. See Clause H-140 and Schedule L for further harvest requirements. A detailed felling and yarding plan shall be required prior to any harvest activities and approved in writing by the Contract Administrator. Shovel and tracked yarding will not be permitted from September 30 to May 1 unless authorized in writing by the Contract Administrator.

ROADS: 6.79 stations of optional construction. 5.41 stations of optional reconstruction. 12.20 stations of road deactivation. Rock for construction or reconstruction of roads under this contract may be obtained at no cost to the Purchaser from an existing stockpile in the Upper Lytle Quarry located in Section 24, Township 17 North, Range 5 West. Purchaser shall remove no more than 665 cubic yards of 3 INCH MINUS CRUSHED rock from existing stockpiles. Any damage to any road resulting from any harvest operations will be repaired at the Purchasers expense unless authorized by the Contract Administrator.

TIMBER NOTICE OF SALE

Road construction will not be permitted from September 30 to May 1 unless authorized in writing by the Contract Administrator.

ACREAGE DETERMINATION

CRUISE METHOD: The sale acres were determined by GPS. The sale area was cruised using a variable plot cruise method. Harvesting activities are estimated to be approximately 100% ground-based harvesting.

FEES: \$41,327.00 is due on day of sale. \$9.00 per MBF is due upon removal. These are in addition to the bid price.

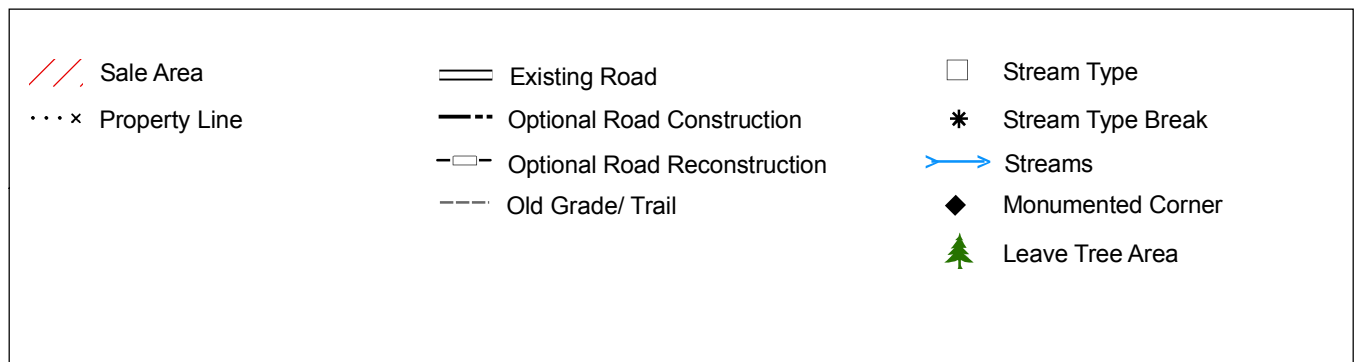

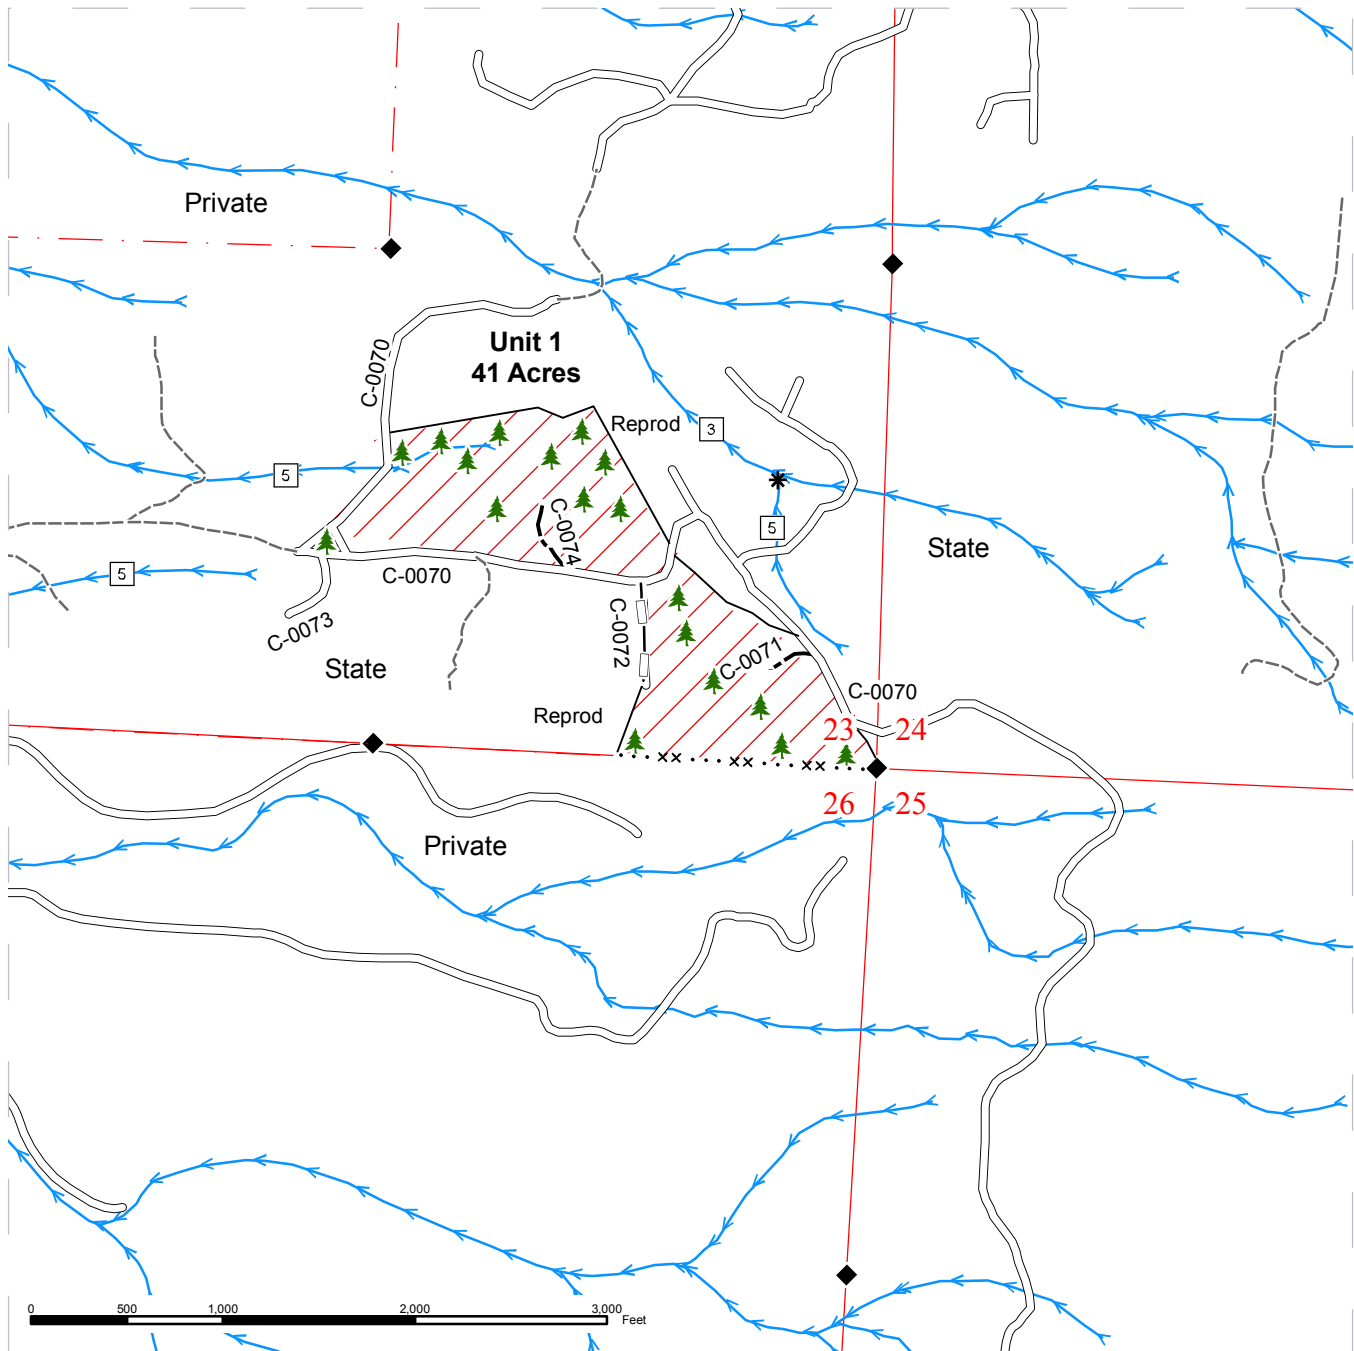

SPECIAL REMARKS: Poles were observed within the sale area.

Sale Total			10,870										

MINIMUM BID: \$74/MBF (est. value \$858,000.00) **BID METHOD:** Sealed Bids

PERFORMANCE SECURITY:

\$100,000.00

SALE TYPE: MBF Scale

EXPIRATION DATE: September 30, 2011

ALLOCATION: Export Restricted

BIDDABLE SPECIES: Hemlock

BID DEPOSIT: \$85,800.00 or Bid Bond. Said deposit shall constitute an opening bid at the appraised price.

HARVEST METHOD: Cable and ground-based harvesting equipment with ground-based harvesting equipment being restricted to slopes of 40% and less during dry soil conditions. See clause H-140 and Schedule L for further harvest requirements. A detailed felling and yarding plan shall be required prior to any harvest activities and approved in writing by the Contract Administrator. Shovel Yarding will not be permitted from September 30 to March 31 unless authorized in writing by the Contract Administrator.

ROADS: 102.99 stations of required construction. 46.50 stations of required reconstruction. 19.40 stations of optional construction. 10.97 stations of optional reconstruction. 52.80 stations of required pre-haul maintenance. 9.88 stations of light road abandonment, if road is built. Pit run rock for construction and reconstruction under this contract may be obtained at no cost to the Purchaser from the School House Quarry located in Section 33,

TIMBER NOTICE OF SALE

Township 11 North, Range 9 West. Purchaser shall manufacture 24,909 cubic yards truck measure of PIT RUN rock. The Purchaser shall give the Contract Administrator 10 days notice prior to commencing any operations in the listed rock pits. 2½ INCH MINUS CRUSHED rock and quarry spalls for construction and reconstruction under this contract may be obtained from any commercial source as approved in writing by the Contract Administrator. Purchaser shall manufacture 14,215 cubic yards truck measure of PIT RUN rock. Purchaser shall acquire 4,878 cubic yards truck measure of 2½ INCH MINUS CRUSHED rock and 30 cubic yards truck measure of QUARRY SPALLS rock. Any damage to any road resulting from any harvest operations will be repaired at the Purchasers expense unless authorized by the Contract Administrator. Road construction will not be permitted from September 30 to May 1 unless authorized in writing by the Contract Administrator.

ACREAGE DETERMINATION

CRUISE METHOD: The sale acres were determined by GPS. The sale area was cruised using a variable plot cruise method. Harvesting activities are estimated to be approximately 70% ground-based and 30% cable harvesting.

FEES: \$144,028.00 is due on day of sale. \$9.00 per MBF is due upon removal. These are in addition to the bid price.

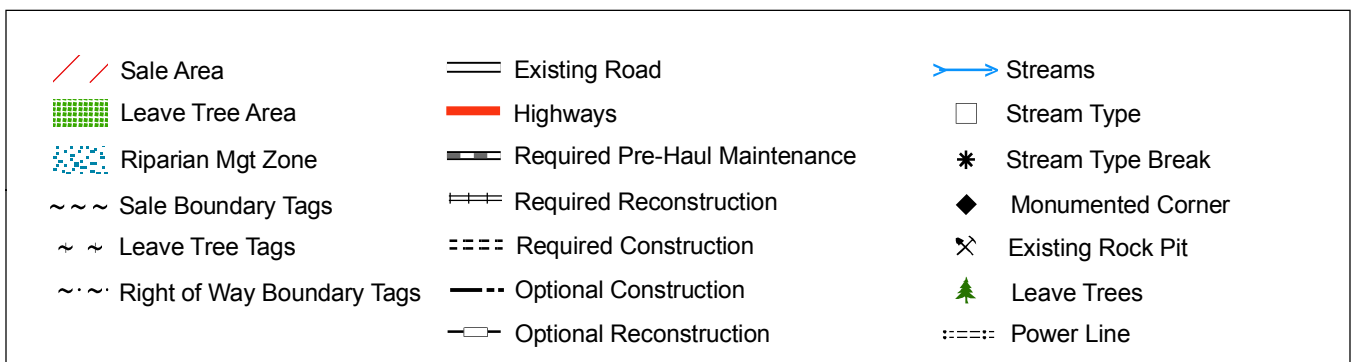

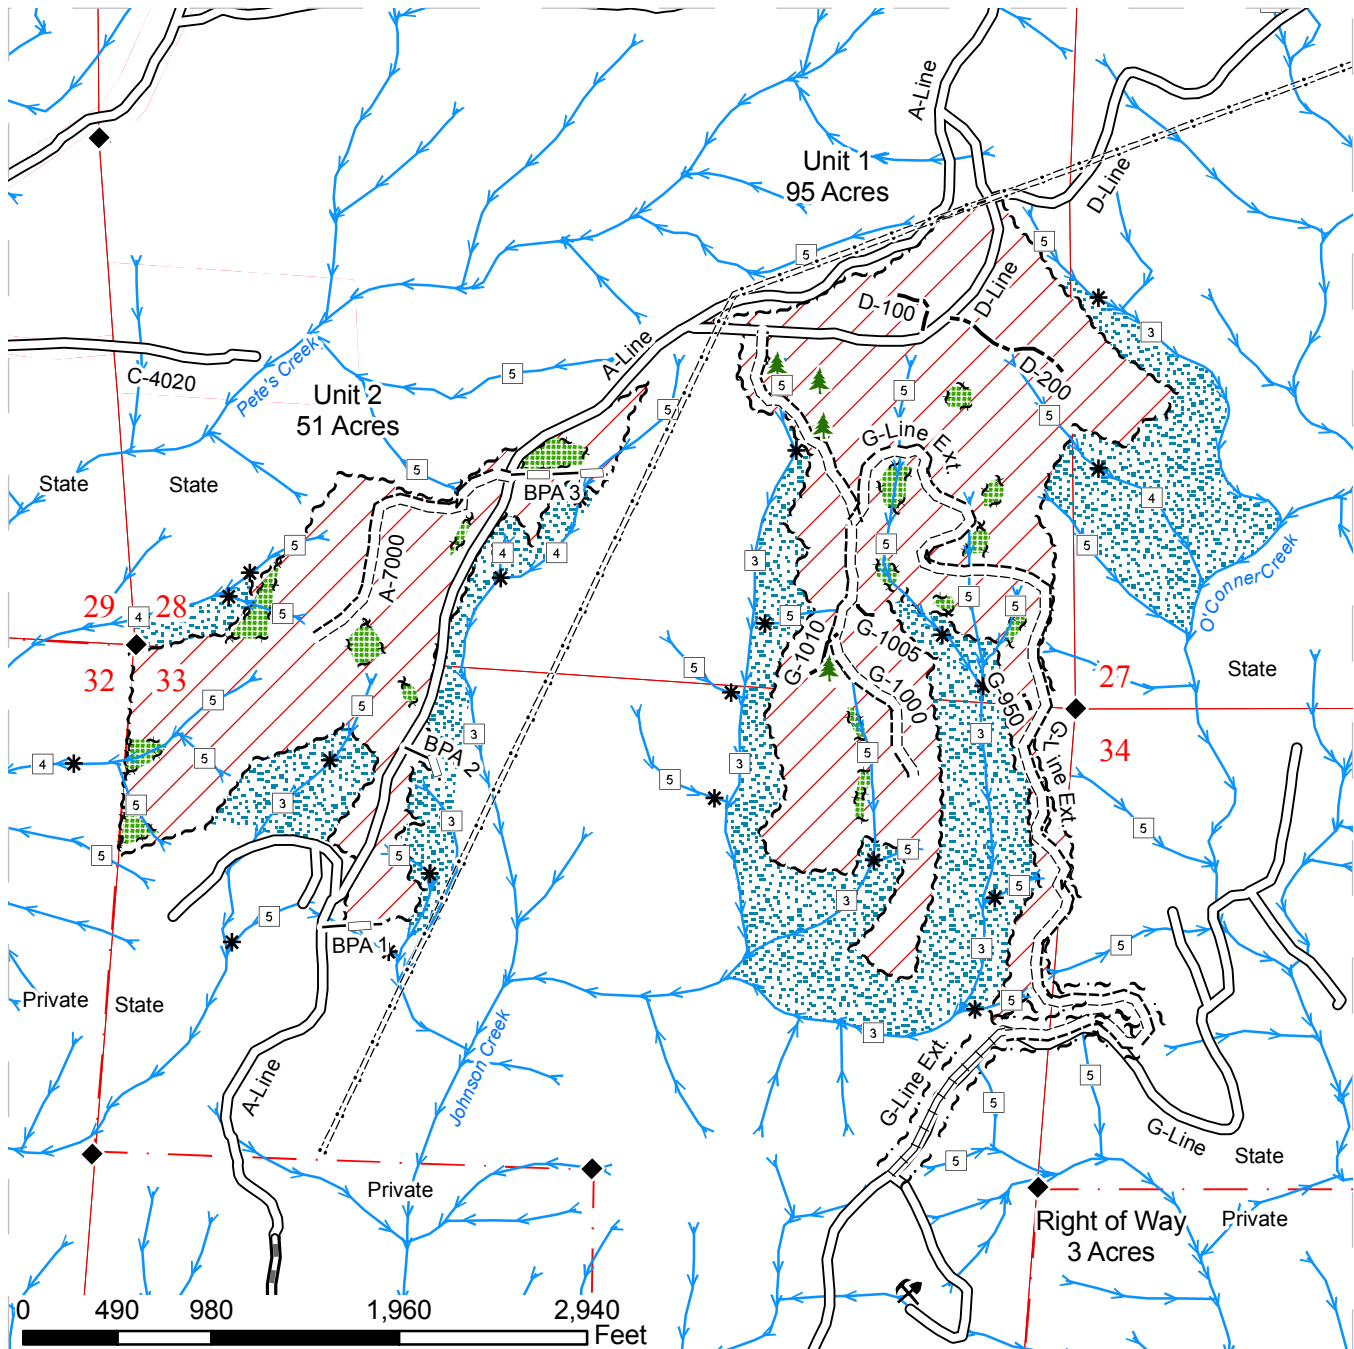

SPECIAL REMARKS: Portions of this sale were blown down in the December 2007 wind storm. Intermediate support may be required to prevent soil rutting in Units #1 and #3 off the A-6200 and G-1010 roads. Any timber harvest within two tree lengths of the BPA right-of-way will require at least 45 days advance notice to the BPA Line Maintenance office in Olympia. For questions the contact person for the Contract Administrator folder is Olympia TLM Line Foreman Tom Grover. His phone number is (360) 570-4361.

MINIMUM BID: \$9.5/ton (est. value \$390,000.00)

BID METHOD: Sealed Bids

**PERFORMANCE
SECURITY:**

\$78,000.00

SALE TYPE: Tonnage Scale

EXPIRATION DATE: March 31, 2009

ALLOCATION: Export Restricted

BIDDABLE SPECIES: Hemlock

BID DEPOSIT: \$39,000.00 or Bid Bond. Said deposit shall constitute an opening bid at the appraised price.

HARVEST METHOD: Ground-based harvesting equipment being restricted to dry soil conditions, may be used. See clause H-140 and Schedule L for further harvest requirements. A detailed felling and yarding plan shall be required prior to any harvest activities and approved in writing by the Contract Administrator.

ROADS: 8.87 stations of optional reconstruction. 106.18 stations of required pre-haul maintenance. 6.36 stations of medium road abandonment and 2.95 stations of light road abandonment. Pit run for reconstruction under this contract may be obtained from any commercial source as approved in writing by the Contract Administrator. Purchaser shall acquire 70 cubic yards truck measure of PIT RUN rock. Road construction will not be permitted from September 30 to May 1 unless authorized in writing by the Contract Administrator.

ACREAGE DETERMINATION

CRUISE METHOD: Acreage was determined by GPS. Cruise was completed using variable plot cruise methods. Harvesting activities are estimated to be 100% ground-based harvesting.

TIMBER NOTICE OF SALE

FEES: \$43,791.00 is due on day of sale. \$1.19 per ton is due upon removal. These are in addition to the bid price.

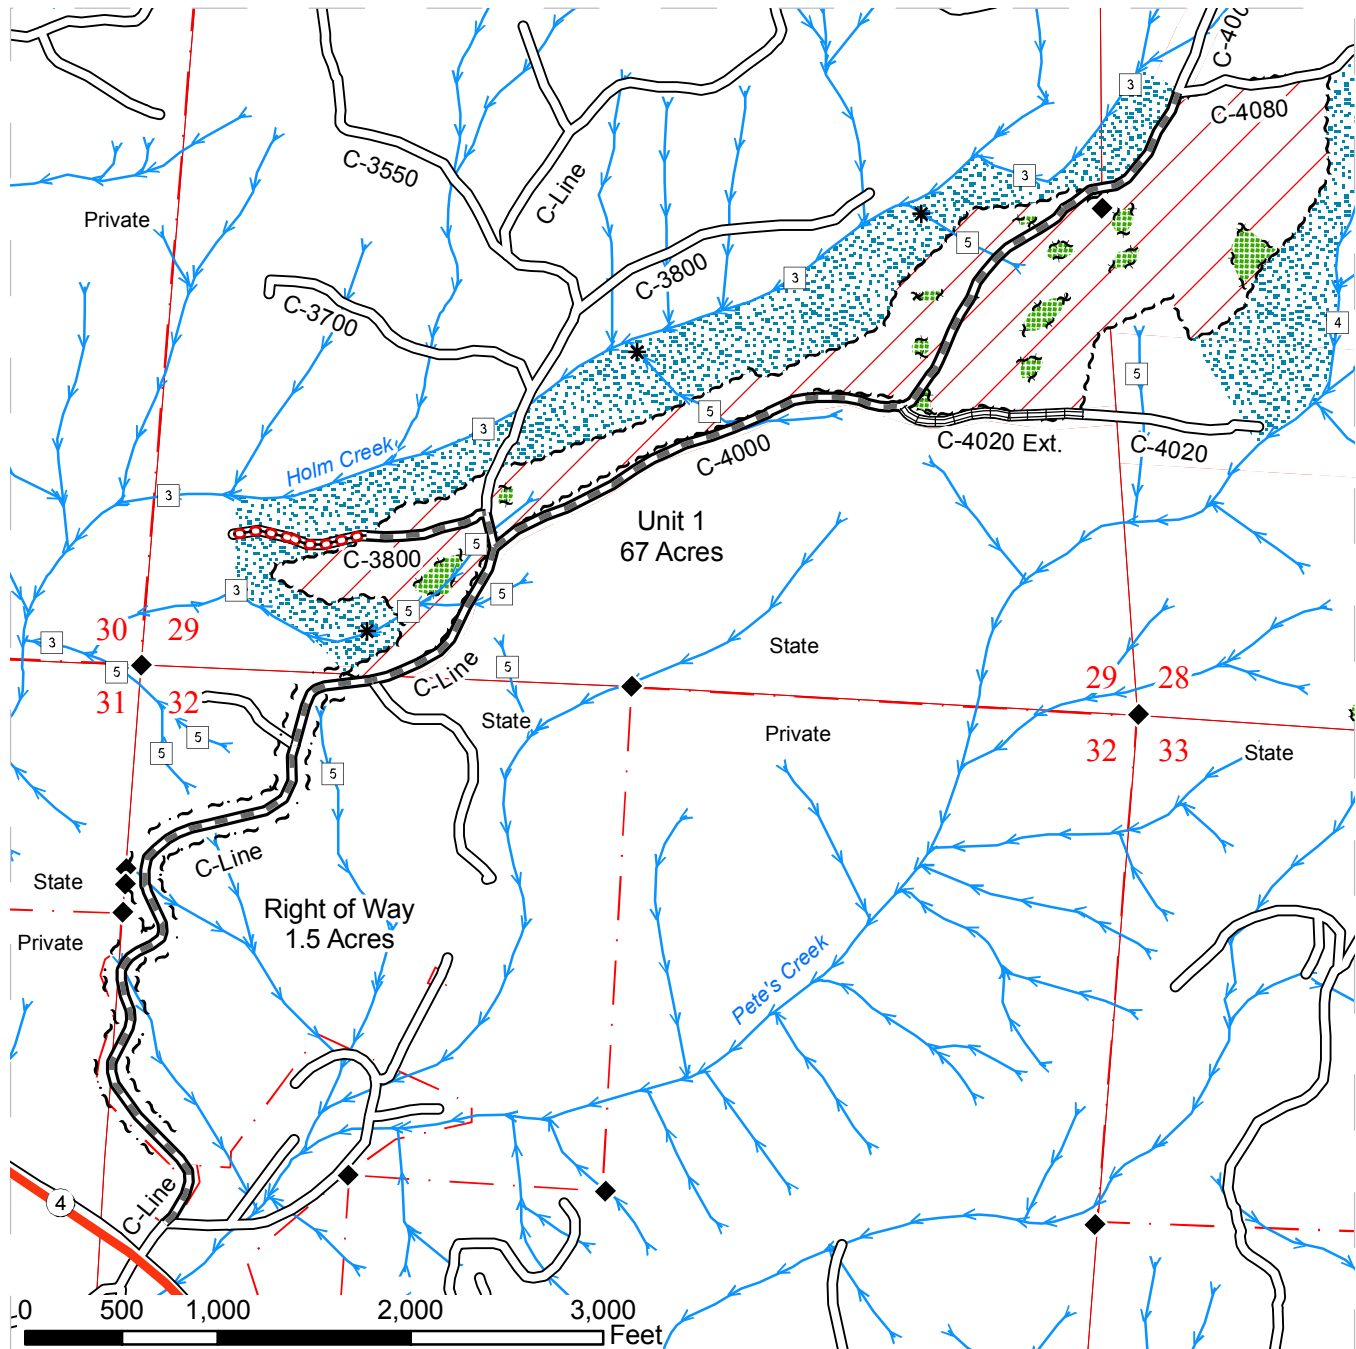

SPECIAL REMARKS: Portions of this sale were blown down in the December 2007 wind storm. All timber shall be yarded and hauled within 45 days of being felled. Timing restrictions are described as no operation of heavy equipment along the C-Line road from Highway 4 to the C-4000 road junction within the critical marbled murrelet nesting season (April 1 to August 31) during the daily peak activity periods (one hour before official sunrise to two hours after official sunrise and one hour before and after official sunset).

SALE NAME: SEGELSON 40 PC

AGREEMENT NO: 30-077242

AUCTION: July 28, 2008 starting at 10:00 a.m.,
Northwest Region Office, Sedro Woolley, WA

COUNTY: Snohomish

SALE LOCATION: Sale located approximately 20 miles east of Arlington.

PRODUCTS SOLD

AND SALE AREA: All timber as described in Schedule B bounded by white timber sale tags and property lines. All timber bounded by orange right-of-way tags, except that title to the timber within the right-of-way boundary tags is not conveyed to the Purchaser unless the road segment is actually constructed. The above described products on part(s) of Sections 1 all in Township 32 North, Range 8 East, W.M., containing 44 acres, more or less.

ESTIMATED SALE VOLUMES AND QUALITY:

Species	Avg DBH	Ring Count	Total MBF	Total Tons	Price \$/Ton	MBF by Grade								UT
						1P	2P	3P	SM	1S	2S	3S	4S

MINIMUM BID: \$31.9/ton (est. value \$268,000.00)

BID METHOD: Sealed Bids

PERFORMANCE

SECURITY: \$53,600.00

SALE TYPE: Tonnage Scale

EXPIRATION DATE: September 30, 2009

ALLOCATION: Export Restricted

BIDDABLE SPECIES: Douglas fir

BID DEPOSIT: \$26,800.00 or Bid Bond. Said deposit shall constitute an opening bid at the appraised price.

HARVEST METHOD: Cable and Ground based equipment. Cutting and yarding will not be permitted during the bark slippage season, unless authorized in writing by the Contract Administrator. This season is estimated to run from April 1 to July 15, but will vary dependent on weather conditions. If permission is granted to operate during the bark slippage season, the Purchaser will be required to provide a plan outlining mitigation measures. Falling and Yarding will not be permitted from November 1 to March 31 unless authorized in writing by the Contract Administrator to reduce soil damage and siltation.

ROADS: 23.81 stations of optional construction. 9.94 stations of optional reconstruction. 16.94 stations of road to be abandoned if built.

Development of an existing gravel source (Barco Gravel Pit) at milepost 1.6 of the BO-ML Road will involve clearing, stripping, and processing rock to generate approximately 1,399 cubic yards of gravel ballast. This rock is available at no cost on State land.

Road construction, reconstruction, road abandonment and the hauling of rock will not be permitted from November 1 to March 31 unless authorized in writing by the Contract

TIMBER NOTICE OF SALE

Administrator to reduce soil damage and siltation. The hauling of forest products will not be permitted from November 1 to March 31 unless authorized in writing by the Contract Administrator to reduce soil damage and siltation.

ACREAGE DETERMINATION

CRUISE METHOD: Acres determined by GPS traverse. 44.2 acres net. Cruised using variable plot method. Expansion factor used is 40.00. Sighting height is 4.5 feet. Grid size plot spacing is 300 x 300 feet. Plot ratio cruise count is 10:8 in Unit #1; and cruised all in the right of way. 18 plots were taken in Unit #1, and 10 plots taken in the right of way, for a total of 28 plots.

FEES: \$18,377.75 is due on day of sale. \$1.46 per ton is due upon removal. These are in addition to the bid price.

SPECIAL REMARKS: (1). See Schedule C for fencing installation requirement and private road use timing restriction. (2). Trees with blue tags that meet the prescription may be cut. (3). No hauling or heavy equipment operations on or across private land after 5:00 pm each day through 8:00 am the next morning. No truck air brakes usage on the private landowners' property. No commercial activities on the weekend (Saturday and Sunday) or on State or Federal holidays. (4). Utility price for P-024 clause is \$2.00 per ton.

Schedule B
Thinning Prescription

Cutting Prescription:

Cut RA

Cut DF and WH 6 – 17 inches dbh

Cut no cedar.

Falling and Yarding Requirements:

Forest products shall be felled by chainsaw in cable areas, and chainsaw or tracked machine in ground-based areas unless authority to use other equipment is granted in writing by the Contract Administrator.

GROUND BASED SEASON: No cutting and yarding between November 1 and March 31, except authorized by Contract Administrator.

SPECIAL THINNING CONDITIONS: In areas where prescription trees do not exist, do not put in corridors.

CORRIDORS:

GROUND YARDING CORRIDORS: Limit to 14 feet wide (including rub trees) and no less than 70 feet apart.

CABLE CORRIDORS: Landings will be located to provide for parallel yarding whenever possible. Corridors will be limited to 12 feet including rub trees. Corridors will be at least 100 feet apart when parallel as measured from the center of the corridors. When radial yarding corridors are required from a central landing, the distance between yarding corridors must be no closer than 100 feet where the corridor leaves the unit as measured from the center of the corridors. Where possible, corridors should be located in a manner to minimize the damage to or removal of leave trees. When corridors are field located, only leave trees within 3-5 feet of the center to the corridor should be removed prior to yarding. Following completion of yarding of each corridor, damaged leave trees within 6 feet of the center of the corridor may be felled and yarded to the landing. It is not required to remove all leave trees from the 12-foot corridor.

DAMAGE COMPARTMENTS: Unit 1 ground based area one compartment, cable area the other.

CERTIFICATION OF FALLERS AND YARDER OPERATORS – SEE CLAUSE H-011 OF THE CONTRACT.

ADDITIONAL REQUIREMENTS:

The contract Administrator and Faller/Harvester Operator will jointly review the take tree selection criteria as outlined in Schedule B of the contract.

In conjunction with the Contract Administrator, the Faller/Harvester Operator will mark a designated area as a test plot within the sale area boundary. Satisfactory thinning of the test plot completes the certification process.

Certifications will be issued to individuals when they demonstrate to the contract Administrator their ability to perform within the requirements set forth in the contract.

Trees marked with blue tags that meet the prescription may be cut.

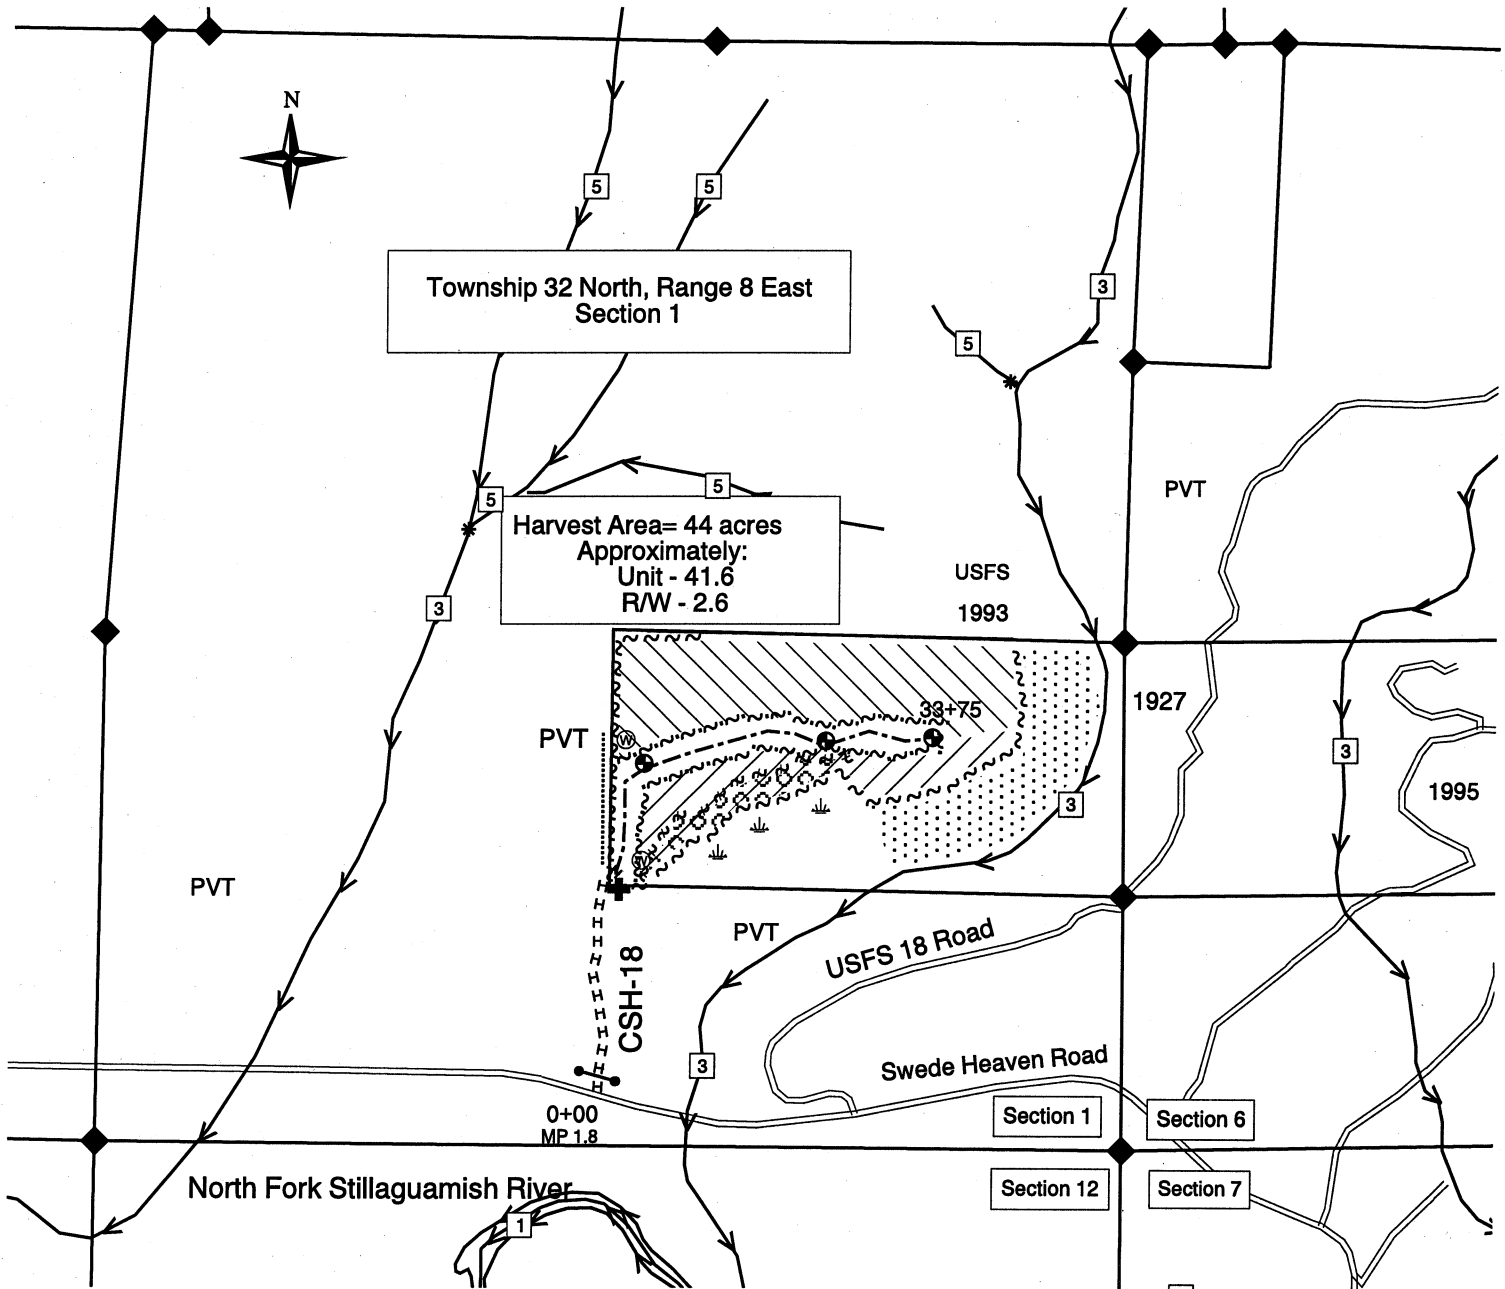

Corridors need to be approved by the Contract Administrator prior to falling any timber within the corridor.

BID METHOD: Sealed Bids

PERFORMANCE

SECURITY: \$23,000.00

SALE TYPE: Lump Sum

EXPIRATION DATE: October 31, 2009

ALLOCATION: Export Restricted

BID DEPOSIT: \$11,500.00 or Bid Bond. Said deposit shall constitute an opening bid at the appraised price.

HARVEST METHOD: Cable and ground-based harvesting equipment with ground-based harvesting equipment being restricted to slopes of 35% and less during dry soil conditions. See clause H-140 and Schedule L for further harvest requirements. A detailed felling and yarding plan shall be required prior to any harvest activities and approved in writing by the Contract Administrator.

ROADS: 4.97 stations of optional construction. 15.97 stations of optional reconstruction. 106.23 stations of required pre-haul maintenance. 8.35 stations of medium road abandonment and 12.59 stations of light road abandonment. Rock for construction and/or reconstruction under this contract may be obtained at no cost to the Purchaser from the A-1000 Rock Pit located in Section 18, Township 6 North, Range 4 East. A portion of the rock for construction or reconstruction of optional roads under this contract may be obtained at no cost to the Purchaser from an existing stockpile (limited yardage available) in the A-1000 Rock Pit located in Section 18, Township 6 North, Range 4 East. Provisions for the purchase of rock from other than State Land have been outlined in a letter dated January 4, 2008 from Longview Fibre Company, from the LF Saddle Pit located in Section 30, Township 6 North, Range 4 East, W.M. Any damage to any road resulting from any harvest operations will be repaired at the Purchasers expense unless

TIMBER NOTICE OF SALE

authorized by the Contract Administrator. The hauling of rock will not be permitted from November 15 to April 15 unless authorized in writing by the Contract Administrator.

ACREAGE DETERMINATION

CRUISE METHOD: The sale acres were determined by GPS. The sale area was cruised using a variable plot cruise method. Harvesting activities are estimated to be approximately 95% ground-based and 5% cable harvesting.

FEES: \$8,427.00 is due on day of sale. \$9.00 per MBF is due upon removal. These are in addition to the bid price.

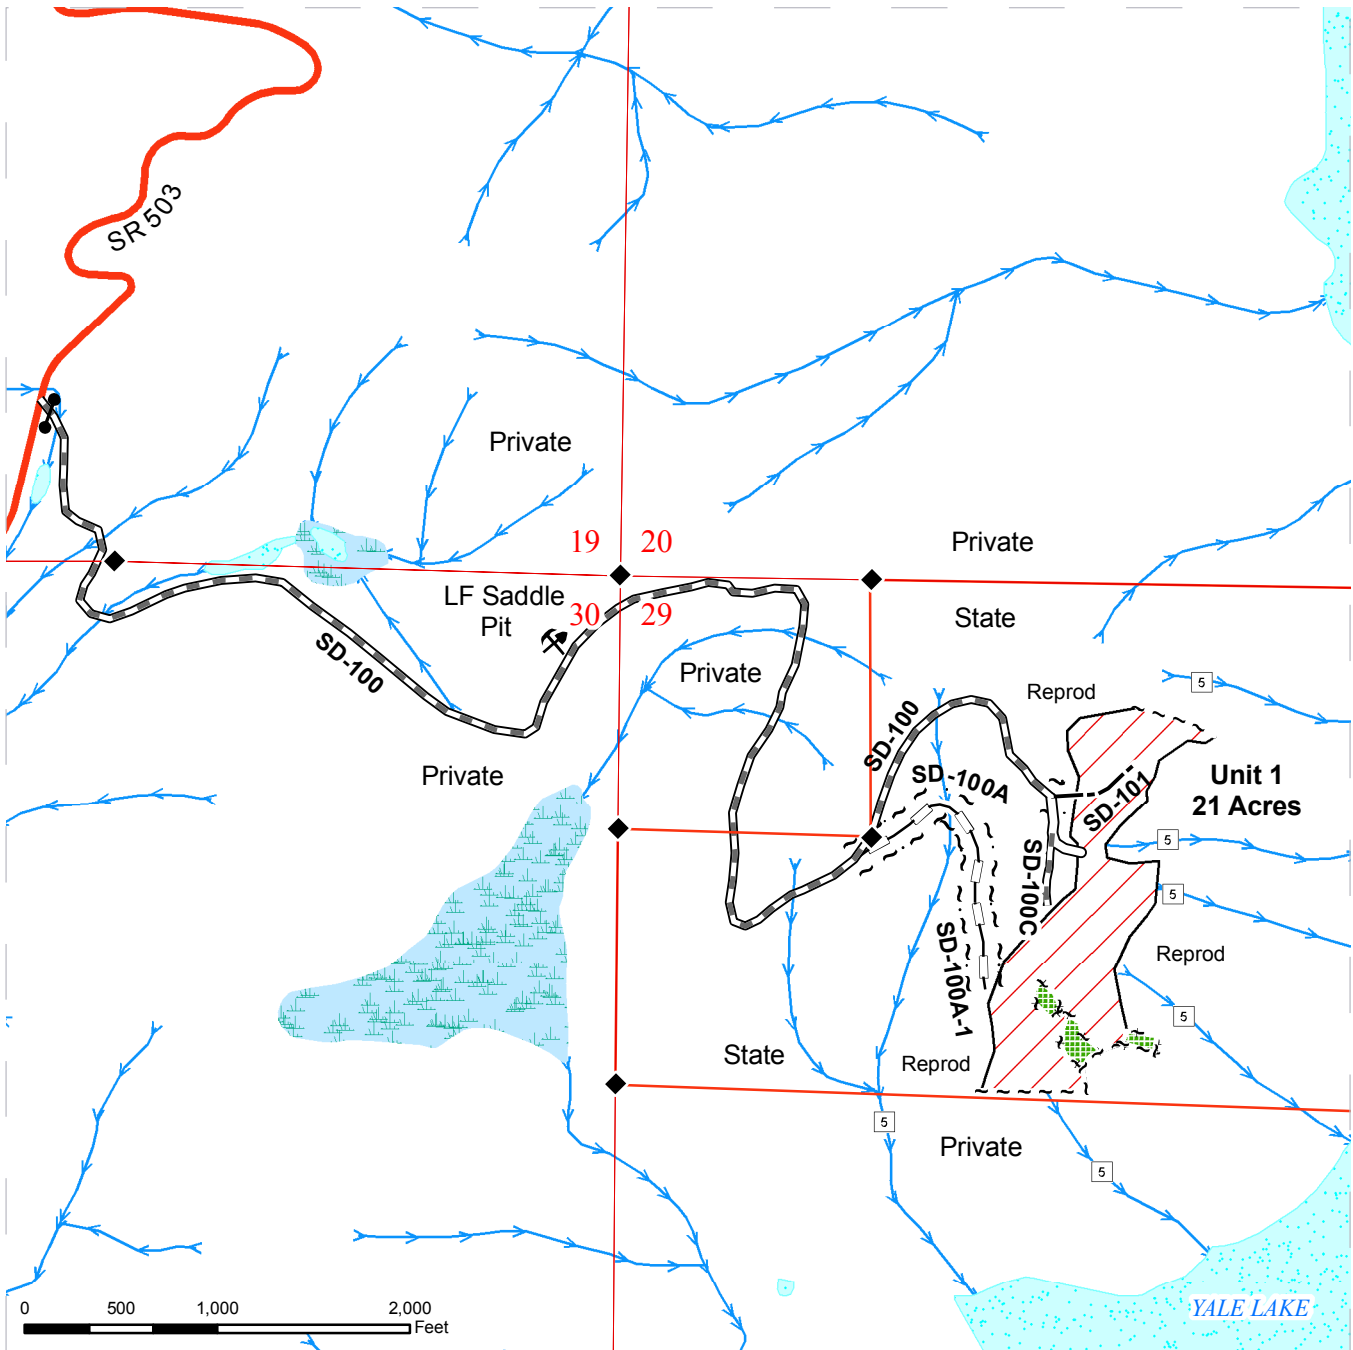

SPECIAL REMARKS: Roughly 12% of the sale volume is high quality Douglas-fir. See driving map for gate locations. Gate keys may be obtained from the Pacific Cascade Region office.

TIMBER NOTICE OF SALE

SALE NAME: ISLAND BD

AGREEMENT NO: 30-082420

AUCTION: July 31, 2008 starting at 10:00 a.m., **COUNTY:** Pacific
Pacific Cascade Region Office, Castle Rock, WA

SALE LOCATION: Sale located approximately 7 miles south of South Bend, WA

**PRODUCTS SOLD
AND SALE AREA:**

All blown down timber, except legacy snags, pre-existing stumps and pre-existing down timber existing 5 years prior to the day of sale and at least 10 down trees per RMZ acre and all down timber 36 inches and greater in diameter within the Outer Zone as outlined in Clause H-140, bounded by the following: private property boundary marked with blue paint/blazed and RMZ to be delineated by the Purchaser in Units #1 and #2; pink flagging, reprod and RMZ to be delineated by the Purchaser in Unit #3 on part(s) of Sections 16 all in Township 13 North, Range 9 West, W.M., containing 65 acres, more or less.

ESTIMATED SALE VOLUMES AND QUALITY:

Species	Avg Ring DBH Count	Total MBF	Total \$/MBF	MBF by Grade								UT
				1P	2P	3P	SM	1S	2S	3S	4S	
Hemlock		1,704	\$40.00						511	852	341

Spruce		9	\$40.00						1	5	3	
Douglas fir		9	\$141.00						2	5	2	
Sale Total		1,740										

MINIMUM BID: \$40/MBF (est. value \$79,000.00) **BID METHOD:** Sealed Bids

**PERFORMANCE
SECURITY:**

\$15,800.00

SALE TYPE: MBF Scale

EXPIRATION DATE: December 31, 2009

ALLOCATION: Export Restricted

BIDDABLE SPECIES: Hemlock

BID DEPOSIT: \$7,900.00 or Bid Bond. Said deposit shall constitute an opening bid at the appraised price.

HARVEST METHOD: Ground-based harvesting equipment being restricted to dry soil conditions. See clause H-140 and Schedule L for further harvest requirements. A detailed felling and yarding plan shall be required prior to any harvest activities and approved in writing by the Contract Administrator.

ROADS:

26.00 stations of optional construction. 3.90 stations of optional reconstruction. 18.00 stations of optional pre-haul maintenance. 11.75 stations of road abandonment. Rock for construction, reconstruction, and/or pre-haul maintenance under this contract may be obtained from any commercial source as approved in writing by the Contract Administrator. Any damage to any road resulting from any harvest operations will be repaired at the Purchasers expense unless authorized by the Contract Administrator. Road construction will not be permitted from October 20 to June 1 unless authorized in writing by the Contract Administrator.

TIMBER NOTICE OF SALE

ACREAGE DETERMINATION

CRUISE METHOD: The sale acres were determined by GIS delineation. The sale volume was estimated using inventory data. Harvesting activities are estimated to be approximately 100% ground-based harvesting.

FEES: \$23,055.00 is due on day of sale. \$9.00 per MBF is due upon removal. These are in addition to the bid price.

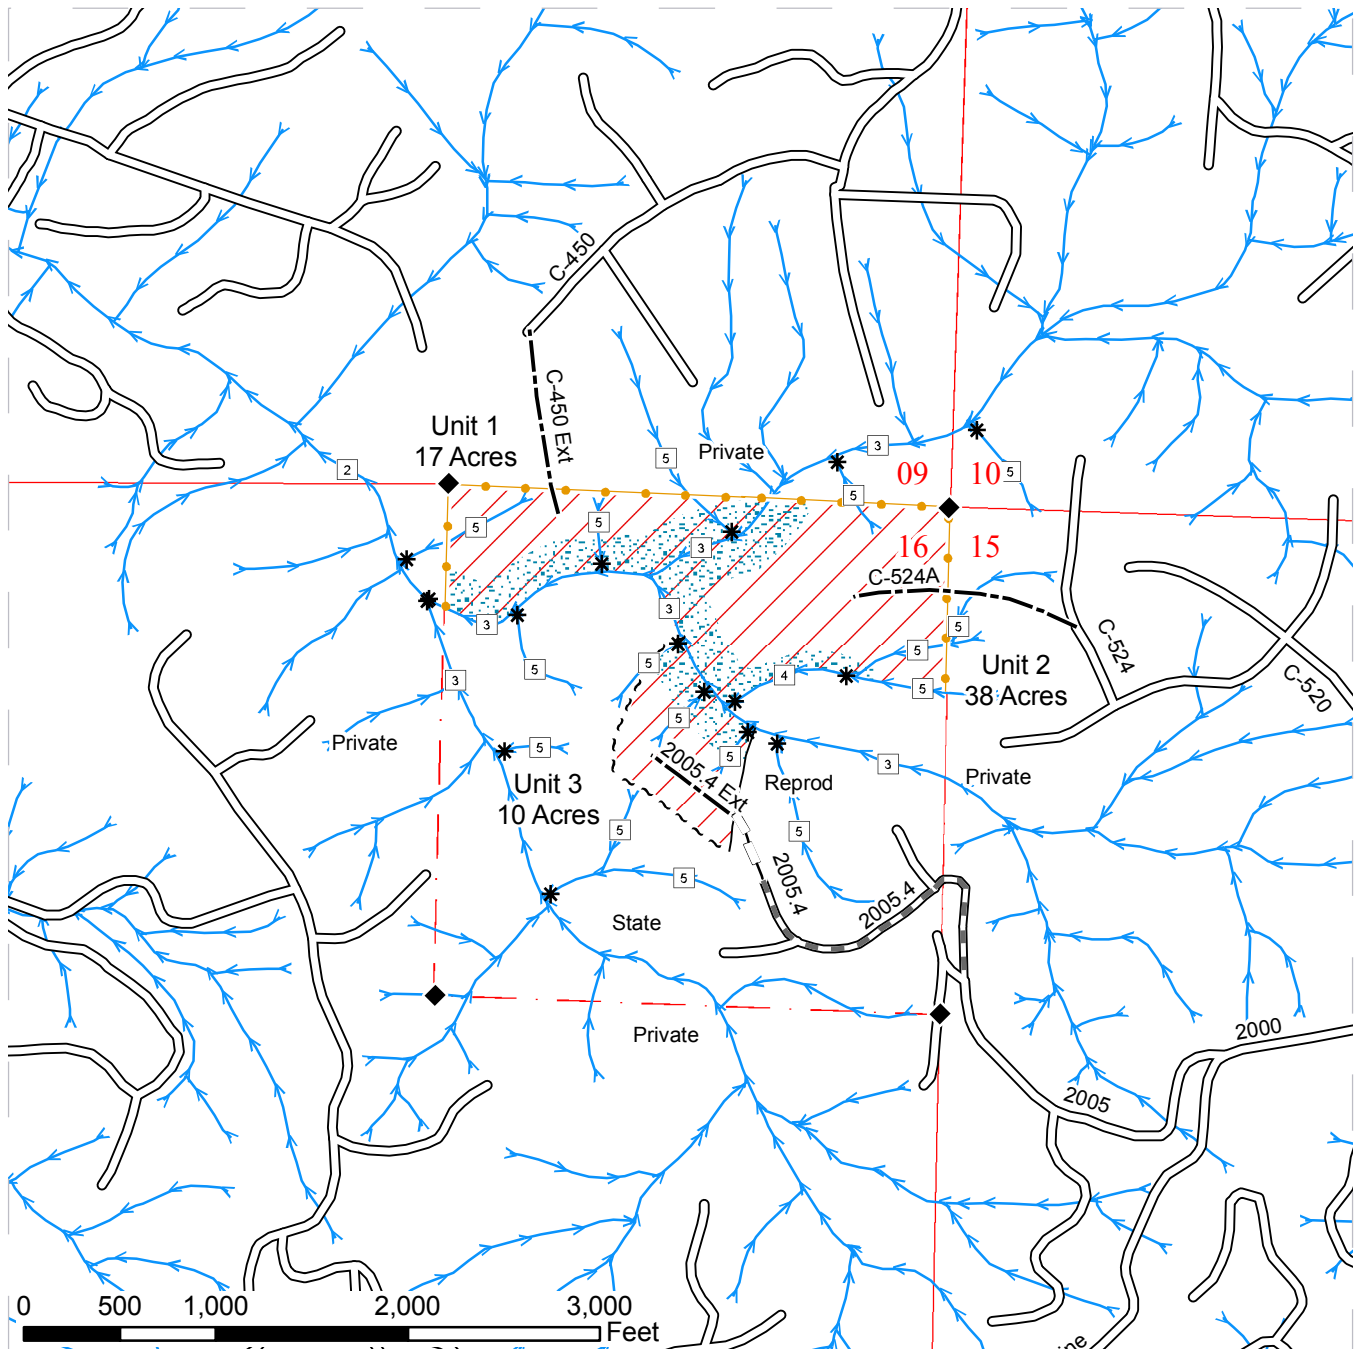

SPECIAL REMARKS: Timing restrictions are described as no operation of heavy equipment in Units #1, #2 and #3 and the C-450 Ext. (STA 7+50 to 9+00), C-524A (STA 6+75 to 11+00) and C 2005.4 Ext. roads within the critical nesting season (April 1 to August 31). Purchaser shall abate the dust on the portion of the C-Line road in Section 26 of Township 14 North, Range 9 West.

From Highway 101, between mileposts 56 and 57 turn south onto Raymond-South Bend Rd. Travel approximately 0.8 miles and turn left (southeast) onto the C-Line. Follow the C-Line for 2.7 miles to the C-400.
 Unit 1: follow the C-400 for 1.7 miles.
 Turn right (west) onto the C-450 and follow for 0.4 miles.
 Unit 1 is 800 feet to the south.
 Unit 2: continue from the C-Line/C-400 junction for 0.5 miles to the C-500.
 Follow the C-500 for 1.0 miles and turn right (south) onto the C-524 and travel 0.1 miles.
 Unit 2 is 700 feet to the west.
 Unit 3: from the C-500/C-520 junction, turn southwest and follow the 2000 road for 0.5 miles.
 Turn right (west) onto the 2005 road and follow for 0.5 miles.
 Take a left (west) onto the 2005.4 and travel for 0.3 miles.
 Unit 3 is straight ahead.

TIMBER NOTICE OF SALE

SALE NAME: *TURLO TIE*

AGREEMENT NO: 30-080734

AUCTION: July 28, 2008 starting at 10:00 a.m.,
Northwest Region Office, Sedro Woolley, WA

COUNTY: Snohomish

SALE LOCATION: Sale located approximately 12 miles northeast of Granite Falls.

PRODUCTS SOLD

AND SALE AREA:

All timber (which shall also include dead and downed cedar logs and stumps) bounded by white timber sale tags, adjacent young stands and single blue special management tags (i.e. one blue tag per tree on the south property line), except trees marked with blue paint on the bole and root collar, forest products tagged out with yellow leave tree tags, and forest products tagged out by a set of two blue special management tags (i.e. two blue tags per tree), in the Unit.

All timber as described for removal in Schedule B located in the WMZ within the Unit (located in the northeastern portion of the Unit, beyond the trees marked with a set of two blue special management tags).

All trees which have a single blue special management tag and are marked with orange paint on the bole and root collar located along the property line on the south edge of the Unit.

All timber bounded by orange right of way tags.

The above described products on part(s) of Sections 5 all in Township 30 North, Range 7 East, Sections 8 all in Township 30 North, Range 8 East, W.M., containing 25 acres, more or less.

ESTIMATED SALE VOLUMES AND QUALITY:

ALLOCATION: Export Restricted

BID DEPOSIT: \$9,800.00 or Bid Bond. Said deposit shall constitute an opening bid at the appraised price.

HARVEST METHOD: Cable; cable or shovel on slopes 25% or less. Falling and Yarding will not be permitted from November 1 to March 31 unless authorized in writing by the Contract Administrator

TIMBER NOTICE OF SALE

(THIS PERTAINS TO GROUND-BASED EQUIPMENT ONLY) to reduce soil damage and erosion.

ROADS:

26.12 stations of required construction. 89.06 stations of required reconstruction. Development of an existing gravel source (VT-1000 Gravel Pit) at station 18.95 of the VT-1000 Road will involve clearing, stripping, screening, and processing rock to generate approximately 6,098 cubic yards of 3-inch-minus gravel ballast. This rock is available at no cost on State land.

Development of an existing hardrock source Swartz Lake Hardrock Pit at milepost 0.3 of the SZ-ML Road will involve clearing, stripping, drilling, shooting, and processing rock to generate approximately 310 cubic yards of rip rap. This rock is available at no cost on State land.

Removal of an existing log stringer bridge and acquisition and installation of a 40-foot span, pre-constructed, modular type, painted steel bridge and pre-cast concrete footings.

Acquisition of ¾ -inch-minus crushed rock from a Commercial Rock Source for use on the steel bridge deck and as a leveling course for the precast concrete footings.

Road construction, road reconstruction, and the hauling of rock will not be permitted from November 1 to March 31 unless authorized in writing by the Contract Administrator. The hauling of forest products will not be permitted from November 1 to March 31 unless authorized in writing by the Contract Administrator to reduce soil damage and siltation.

ACREAGE DETERMINATION

CRUISE METHOD: Acres determined by GPS traverse. 25.7 acres gross. 1.2 acres deducted for green tree retention clumps. 24.5 acres net (including WMZ). Cruised using variable plot method. Expansion factor used is 54.45. Sighting height is 4.5 feet. Grid size plot spacing is 200 x 150 feet. Plot ratio cruise count is 1:1. 42 plots were taken. In WMZ, 3 plots were taken and all cruised for a total of 45 plots.

FEES: \$14,535.25 is due on day of sale. \$9.00 per MBF is due upon removal. These are in addition to the bid price.

SPECIAL REMARKS: None.

Schedule B
Turlo Tie - WMZ Thinning Prescription

WMZ PRESCRIPTION:

Cut all western hemlock (WH) less than 14 inches DBH. Cut all hardwoods. Leave all Sitka spruce, western redcedar, and Douglas-fir except where yarding corridors are necessary for removal of prescription timber. Timber is located behind trees marked with double blue special management area tags along the WMZ boundary, and bounded by white timber sale boundary tags and plantation edges. Double blue special management area tags may be removed if they either meet the prescription or are necessary for yarding corridors.

SPECIAL THINNING CONDITIONS:

In areas where thinning is not necessary, i.e., prescription is met, do not put in yarding corridors or skid trails. These areas must be identified and agreed upon in advance with the Contract Administrator.

GROUND YARDING CORRIDORS:

Corridors are limited to 14 feet wide (including rub trees) and no less than 70 feet apart as measured from the center of the corridor. Where possible corridors should be located in a manner to minimize the damage to or removal of leave trees. No yarding will take place on slopes greater than 25%.

CABLE CORRIDORS: (This WMZ thinning is intended to be a ground-based harvest.)

Landings will be located to provide for parallel yarding corridors whenever possible. Corridors will be limited to 12-feet including rub trees. Corridors will be at least 100 feet apart when parallel as measured from the center of the corridors. When radial yarding corridors are required from a central landing, the distance between yarding corridors must be no closer than 100 feet where the corridor leaves the unit as measured from the center of the corridors. Where possible corridors should be located in a manner to minimize the damage to or removal of leave trees. When corridors are field located, only leave trees within 3 – 5 feet of the center of the corridor should be removed prior to yarding. Following completion of yarding of each corridor, rub trees within 6 feet of the center of the corridor may be felled and yarded to the landing. It is not required to remove all leave trees from the 12-foot corridor.

CERTIFICATION OF FALLERS AND YARDER OPERATORS

All persons engaged in the felling and yarding of timber must receive certification in writing from the Contract Administrator. Certification may be revoked when the Contract Administrator determines that non-compliance of leave tree selection criteria or cut tree selection criteria is occurring, or excessive damage to leave trees or skid trails is occurring.

When leave tree damage exceeds the limits set forth in clause below, Purchaser shall be subject to liquidated damages set forth below.

The Contract Administrator and faller/harvester operator will jointly review the take tree selection criteria as outlined in Schedule B of the sale contract.

In conjunction with the Contract Administrator, the faller/harvest operator will mark a designated area as a test plot within the sale area boundary. Satisfactory thinning of the test plot completes the certification process.

Certifications will be issued to individuals when they demonstrate to the Contract Administrator their ability to perform within the requirements set forth in the contract.

LEAVE TREE DAMAGE DEFINITION

Leave tree damage exists when one or more of the following criteria are satisfied as a result of Purchaser's operation:

- a. A leave tree has one or more scars on its trunk exposing the cambium layer, which in total exceeds 100 square inches.
- b. A leave tree top is broken or the live crown ratio is reduced below 30 percent.
- c. A leave tree has more than 1/3 of the circumference of its root system injured such that the cambium layer is exposed.

Excessive damage is established when more than 5 percent of the leave trees are damaged in a unit. The damaged trees will be identified by the Contract Administrator.

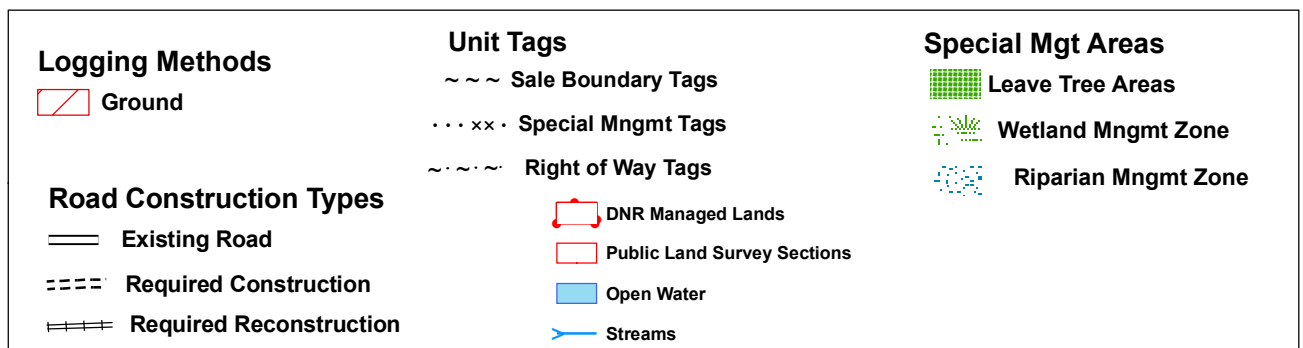

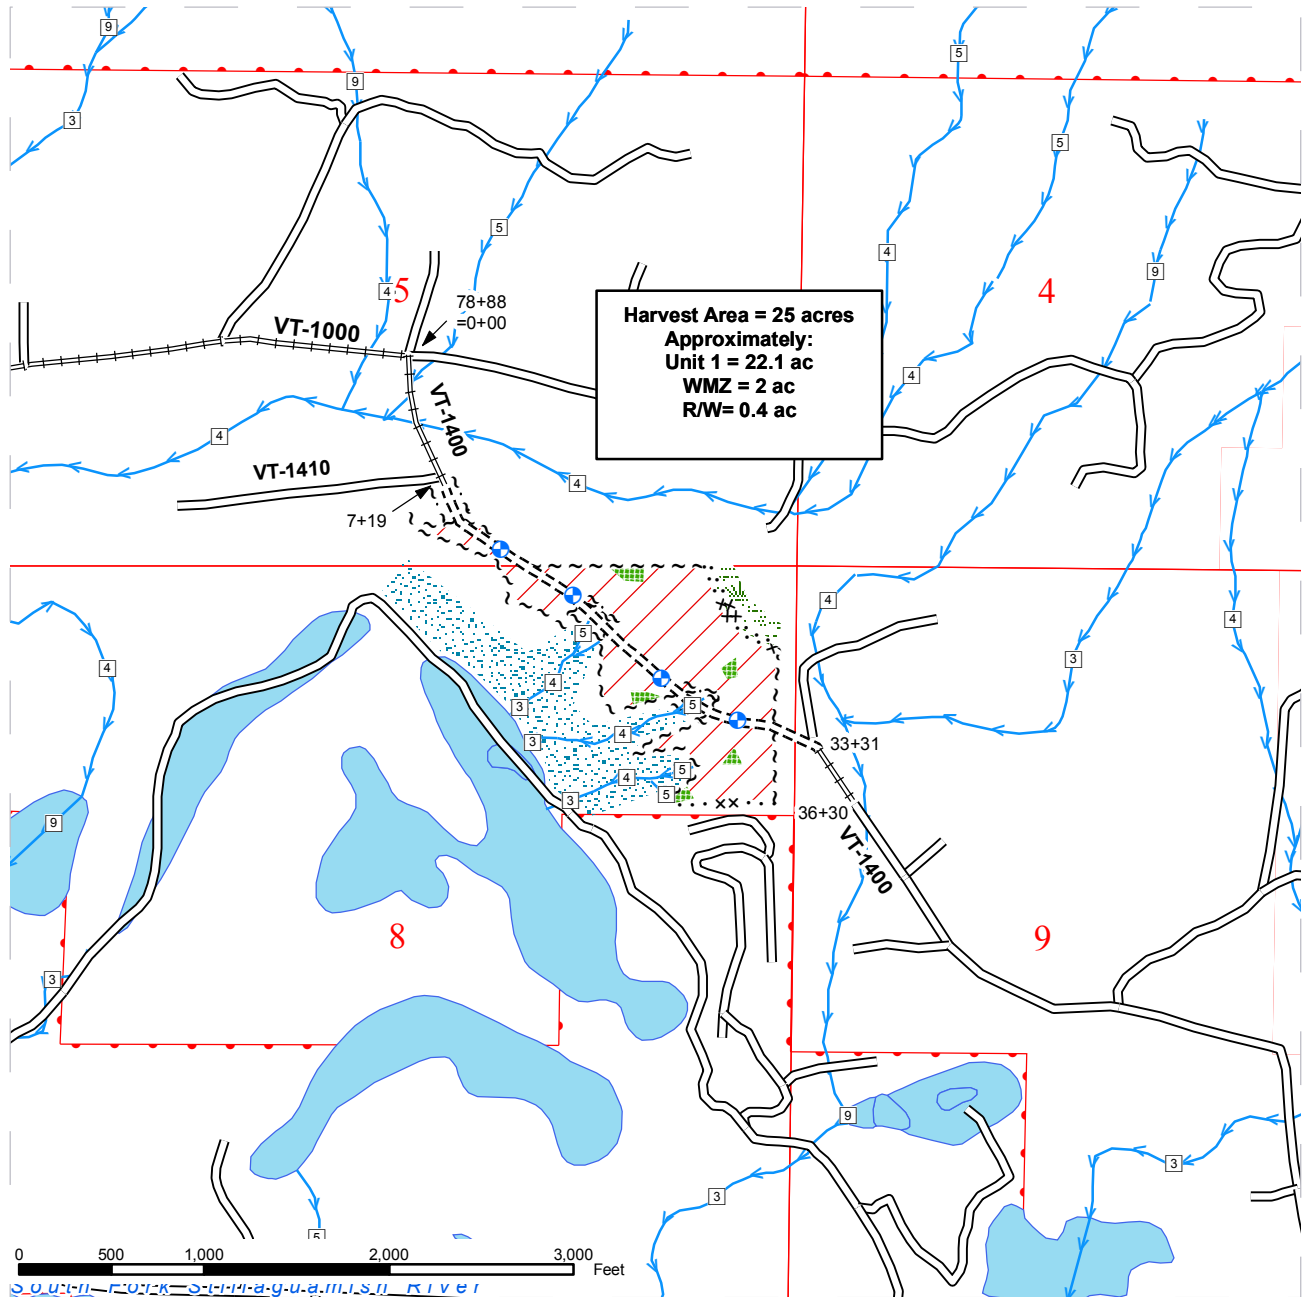

LEAVE TREE EXCESSIVE DAMAGE

When Purchaser's operations exceed the damage limits set forth above, Leave Tree Damage Definition, the trees damaged result in substantial injury to the State. The value of the damaged leave trees at the time of the breach is not readily ascertainable. Therefore, Purchaser agrees to pay the State as liquidated damages at the rate of \$100 per tree for all damaged trees in the unit.

HARVEST METHOD: Cable; cable or forwarder on slopes 25% or less, however forwarders may only be used with Contract Administrator approval. Falling and yarding will not be permitted during the bark slippage season, unless authorized in writing by the Contract Administrator. This season is estimated to run from April 1 to July 15, but will vary dependent on weather conditions. If permission is granted to operate during the bark slippage season, the Purchaser will be required to provide a plan outlining mitigation measures. Falling and Yarding will not be permitted from November 1 to March 31 unless authorized in

TIMBER NOTICE OF SALE

writing by the Contract Administrator (THIS PERTAINS TO GROUND-BASED EQUIPMENT ONLY) to reduce soil damage and erosion.

ROADS:

212.28 stations of required reconstruction. 68.84 stations of existing road to be inactivated.

Development of an existing gravel source (DF-21 Gravel Pit) at station 110+41 of the DF-ML Road will involve clearing, stripping, drilling, shooting, and processing rock to generate approximately 5,470 cubic yards of gravel ballast. This rock is available at no cost on State land.

Development of a proposed hardrock source (DF-6901 Hardrock Pit) at station 1+00 of the DF-69 Road will involve clearing, stripping, drilling and shooting to generate approximately 146 cubic yards of riprap. This rock is available at no cost on State land.

Road reconstruction, road inactivation, and the hauling of rock will not be permitted from November 1 to March 31 unless authorized in writing by the Contract Administrator to reduce soil damage and siltation. The hauling of forest products will not be permitted from November 1 to March 31 unless authorized in writing by the Contract Administrator to reduce soil damage and siltation.

ACREAGE DETERMINATION

CRUISE METHOD: Acres determined by GPS traverse. 165 acres gross. 165 acres net. Cruised using variable plot method. Expansion factor used is 40.00. Sighting height is 4.5 feet. Grid size plot spacing is 250 x 250 feet in the Unit. Plot ratio cruise count is cruised all. 101 plots were taken in the Unit.

FEES: \$31,429.00 is due on day of sale. \$9.00 per MBF is due upon removal. These are in addition to the bid price.

SPECIAL REMARKS: 1.)Utility price for P-021 clause is \$20.00 per mbf. 2.)Intermediate supports may be necessary. 3.)Harvest in Compartments 4B and 6B are optional. If corridors are cut to remove timber, the unit prescription must be applied 50 feet either side of the cut corridor.

Schedule B
Deer Flat PC Prescription

COMPARTMENT 1

Remove all red alder and Pacific silver fir

Remove all western hemlock and Douglas-fir between 6 and 17 inches DBH

COMPARTMENT 2

Remove all red alder and Pacific silver fir

Remove hemlock between 9 and 13 inches DBH

Remove Douglas-fir between 6 and 14 inches DBH

COMPARTMENT 3

Remove all red alder and Pacific silver fir

Remove hemlock and Douglas-fir between 6 and 15 inches DBH

COMPARTMENTS 4A AND 4B

Remove all red alder and Pacific silver fir

Remove hemlock between 9 and 13 inches DBH

Remove Douglas-fir between 6 and 13 inches DBH

COMPARTMENT 5

Remove all red alder and Pacific silver fir

Remove hemlock between 9 and 13 inches DBH

Remove Douglas-fir between 6 and 14 inches DBH

COMPARTMENTS 6A AND 6B

Remove all red alder and Pacific silver fir

Remove hemlock between 8 and 12 inches DBH

Remove Douglas-fir between 6 and 12 inches DBH

RIPARIAN CONVERSION TREES

Riparian conversion trees will be selected from within 25 feet of the core zone of the stream, that is, within 25 feet of the white timber sale boundary tags. The trees will be converted after the units have been yarded. Snags may be created by topping above 20 feet or by girdling with a double girdled approximately at breast height. The girdles should be at least six inches apart and extend through the cambium of the tree. The other riparian conversion trees (stream trees) will be felled into the streams core zone. The riparian conversion trees will be distributed uniformly along the length of the stream. Trees converted to snags will not be within one and a half times the height of the snag from the DF-ML.

COMPARTMENT 1

26 snags approximately 17 inches dbh, 40 stream trees approximately 17 inches dbh

COMPARTMENT 2

38 snags approximately 14 inches dbh, 57 stream trees approximately 14 inches dbh

COMPARTMENT 3

22 snags approximately 15 inches dbh, 33 stream trees approximately 15 inches dbh

COMPARTMENT 4A

4 snags approximately 13 inches dbh, 7 stream trees approximately 13 inches dbh

COMPARTMENT 4B

6 snags approximately 13 inches dbh, 8 stream trees approximately 13 inches dbh

COMPARTMENT 5

10 snags approximately 14 inches dbh, 14 stream trees approximately 14 inches dbh

COMPARTMENT 6A

1 snag approximately 13 inches dbh, 4 stream trees approximately 13 inches dbh

COMPARTMENT 6B

6 snags approximately 13 inches dbh, 8 stream trees approximately 13 inches dbh

LANDINGS AND CORRIDORS

Landings will be located to provide for parallel yarding corridors whenever possible. Corridors will be limited to 12-feet including rub trees. Corridors will be at least 100 feet apart when parallel as measured from the center of the corridors. When radial yarding corridors are required from a central landing, the distance between yarding corridors must be no closer than 100 feet where the corridor leaves the unit as measured from the center of the corridors. Where possible corridors should be located in a manner to minimize the damage to or removal of leave trees. When corridors are field located, only leave trees within 3 – 5 feet of the center of the corridor should be removed prior to yarding. Following completion of yarding of each corridor, rub trees within 6 feet of the center of the corridor may be felled and yarded to the landing. It is not required to remove all leave trees from the 12-foot corridor.

Corridors will be parallel to one another wherever possible. No more than one corridor will be permitted per landing unless authorized by the Contract Administrator.

Ground yarding corridors will be limited to 14 feet including rub trees and no less than 70 feet apart unless otherwise authorized in writing by the Contract Administrator. Purchaser will suspend operations during periods of wet weather when rutting occurs. Excessive damage is not permitted on ground yarding corridors. Ground yarding corridor damage is considered excessive when more than ten percent of the active corridor has ruts greater than four inches.

CERTIFICATION OF FALLERS AND YARDER OPERATORS (additional requirements beyond those outlined in H-011)

The Contract Administrator and faller/harvester operator will jointly review the take tree selection criteria as outlined in Schedule B of the sale contract.

In conjunction with the Contract Administrator, the faller/harvest operator will mark a designated area as a test plot within the sale area boundary. Satisfactory thinning of the test plot completes the certification process.

Certifications will be issued to individuals when they demonstrate to the Contract Administrator their ability to perform within the requirements set forth in the contract.

SPECIAL THINNING CONDITIONS

In areas where thinning is not necessary, i.e., prescription is met, do not put in yarding corridors or skid trails. These areas must be identified and agreed upon in advance with the Contract Administrator.

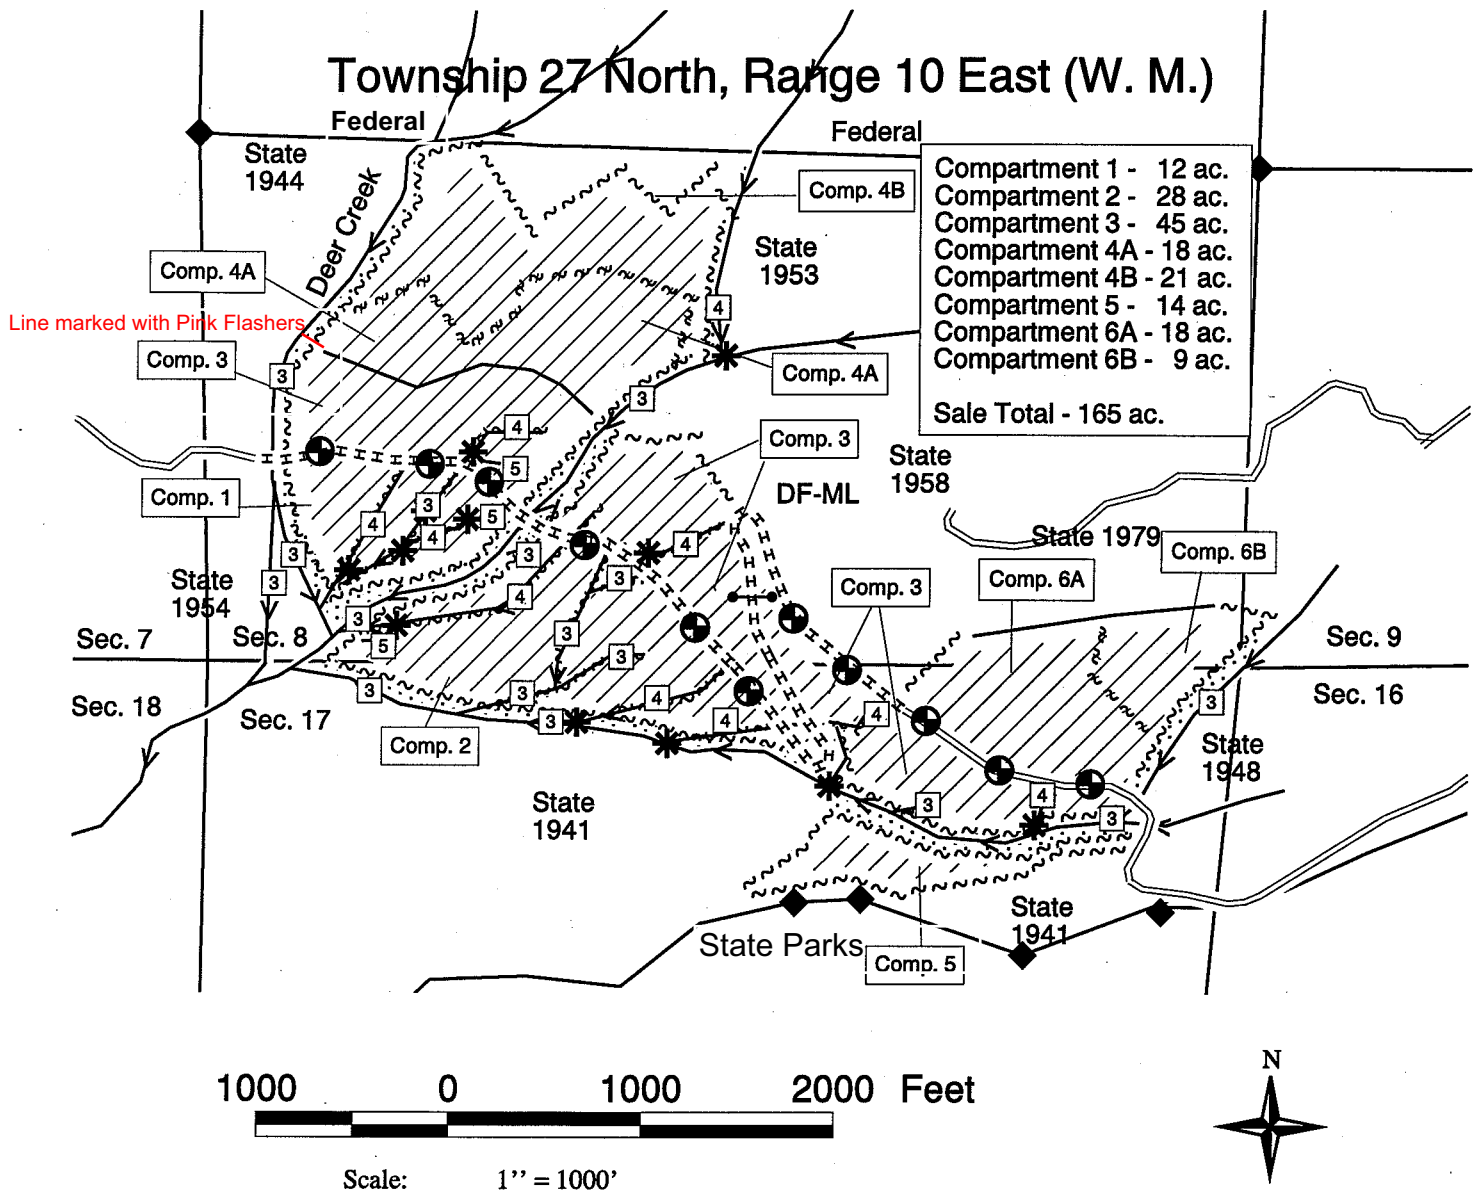

DAMAGE COMPARTMENTS

Damage compartments correspond with the unit compartments.
