STATE OF WASHINGTON  
FILED

DATE: June 13, 2019

TIME: 4:25 PM

WSR 19-13-055

**Agency:** Department of Natural Resources

**Subject of possible rule making:** Revising WAC 332-120 to add a reasonable method of survey monument preservation throughout the Bituminous Surface Treatment process, commonly referred to as chip seal.

**Statutes authorizing the agency to adopt rules on this subject:** RCW 58.24.030, 58.24.040, 58.09.050 and 58.17.160.

**Reasons why rules on this subject may be needed and what they might accomplish:** The chip seal process is a temporary covering of survey monuments in the roadway. It is not a removal or destruction of survey monuments. The proposed rule will provide a means to document the chip seal overlay and require that survey monuments be uncovered.

**Identify other federal and state agencies that regulate this subject and the process coordinating the rule with these agencies:** Coordination on compliance will be with the Board of Registration for Engineers and Land Surveyors (BOR), and the County Road Administration Board (CRAB)

**Process for developing new rule (check all that apply):**

- Negotiated rule making
- Pilot rule making
- Agency study

Other (describe) Drafted in conjunction with stakeholders, including the Board of Registration and CRAB. The full rule-making process will be used.

**Interested parties can participate in the decision to adopt the new rule and formulation of the proposed rule before publication by contacting:**
